01 Films

Mirror Backing Films

CLASS A "Xtraback" White, Hessian Woven Polypropylene 132 Micron

Article No:	Size:
BO 6002562	610 mm x 200 m roll
BO 6002585	610 mm x 100 m roll
BO 6002567	150 mm x 100 m roll

Other sizes are available on request.
Please call our sales team on **0800 616151** or email info@bohle.ltd.uk

CLASS B "Xtraback" Clear, Polypropylene, 90 Micron

Article No:	Size:
BO 6002551	300 mm x 100 m roll
BO 6002552	450 mm x 100 m roll
BO 6002553	604 mm x 100 m roll
BO 6002556	150 mm x 100 m roll
BO 6002557	400 mm x 100 m roll
BO 6002558	500 mm x 100 m roll

Protection Films

Article No:	Description:
BO 5105145	Self-adhesive Protection Film, blue, 500 mm x 100 m
BO 5105146	Self-adhesive Protection Film, blue, 1000 mm x 100 m
BO 60GAX42	Glass Shatterproofing Film, 500 mm x 20 m

Reflective Films

Article No:	Description:
BO 60GAX24B	Solar Reflective Film, silver, 1220 mm x 30.5 m roll
BO 60GAX26B	Solar Reflective Film, silver, 1524 mm x 30.5 m roll
BO 5105141	Reflection Film, silver, medium, 1520 mm x 10 m

Obscuring Films

Article No:	Description:
BO 60GAX37B	Clear Frost Obscuring Film, 1500 mm x 30.5 m roll

Mirror Backing Foils

Premium self-adhesive mirror backing foil.
Other sizes available on request

Article No:	Description:
BO 60GAX06	"Cressfoil" 150 mm x 50 m roll
BO 60GAX10	"Cressfoil" 610 mm x 45 m roll

Bohle Emergency Repair Film

Specially developed to provide a fast and cost effective repair to broken window glass, doors, partition glass and mirrors. It uses a semi-rigid extremely tough polyester film combined with a high-performance solvent-free acrylic adhesive that will bond to the glass permanently and give 85% light transmission

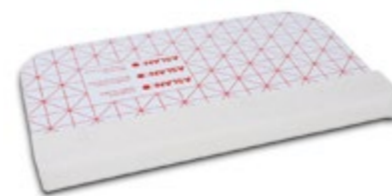

Article No:	Size:
BO 6002570	500 mm x 15 m
BO 6002571	1000 mm x 15 m

02 Mirror Products

Wooden Wiper

Mounting wiper for bubble-free application of self-adhesive film. With felt edge

Article No:	Size:
AO ASRAKGR	270 x 115 mm
AO ASRAKKL	160 x 95 mm

Rubber Edged Squeegee

For use in the application of the Reflective and Obscuring films

Article No:	Size:
BO 60GAX90	230 mm

XtraGrip® MS Polymer Mirror Adhesive

Mirror adhesive with a very good initial tack. It is suitable for tension-absorbing mirror bonding as per DIN EN 1036 on all common substrates. XtraGrip® MS Polymer stands out due to its fast curing speed of 2-3 mm/ 24 hours. The adhesive is neutral and free from silicone and isocyanate. It has excellent low-emission properties and is EC1 PLUS R certified. It does not affect mirror coatings manufactured according to DIN EN 1036

Article No:	Size:
BO 5730006	290 ml tube

Fix All

Completely transparent. Outstanding bond strength on nearly all surfaces. High performance mechanical properties. Very easy to tool and finish. Good extrusion quality even at low temperatures. Ecological advantages – free of isocyanates, solvents, halogens and acids. Interior and exterior bonding and sealing applications. Transparent and elastic bonding in many different construction and building applications. Invisible bonding of glass and other transparent materials

Article No:	Size:
BO 6003014	290 ml tube

Adjustable Clips

For 6 mm or 4 mm glass/mirrors. 4 part sets, bulk packed

Also available in pre-packs - see pages 34-39 for further information.

Article No:	Description:
BO 6031370	6 mm x100 sets 200 long/200 short 400 screws & 400 washers
BO 6031380	4 mm x100 sets 200 long/200 short 400 screws & 400 washers
BO 6032101	Wood Screws, 1 1/4" x 8, box of 200
BO 6032960	Nylon Washers, 5/8" x 200 pcs

Wood Screws

Sold in boxes of 200

Article No:	Description:
BO 60GDX40	Wood Screws, raised head, 1/2" x 4
BO 60GDX43	Wood Screws, raised head, 1 1/4" x 6
BO 6032101	Wood Screws, 1 1/4" x 8

Domehead Screws

Chrome or brass domeheads with steel screws, boxed in 200's

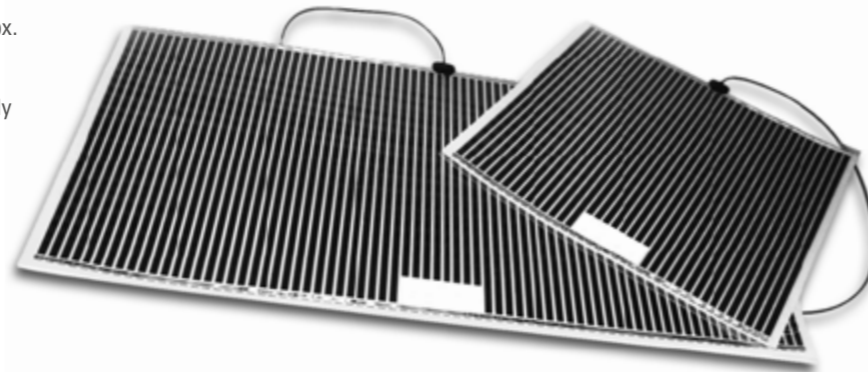

Also available in pre-packs - see pages 34-39 for further information.

Article No:	Description:
BO 6003210	Domeheads only, chrome
BO 6003214	Domeheads, 1/2" x 8 steel screws
BO 6003215	Domeheads, 5/8" x 8 steel screws
BO 6003216	Domeheads, 3/4" x 8 steel screws
BO 6003217	Domeheads, 1" x 8 steel screws
BO 6003218	Domeheads, 1 1/4" x 8 steel screws
BO 6003219	Domeheads, 1 1/2" x 8 steel screws
BO 6003220	Domeheads, 2" x 8 steel screws

Demisting Pads for Mirrors

Prevents steamed-up bathroom mirrors. The demisting pad is self-adhesive and fits to the back of the mirror. Electric conductors in the film heat the mirror to approx. 30° C, thus preventing condensation on the mirror. Film thickness approx. 0.8 mm, connection for power supply approx. 7 mm thick. Cable approx. 1 m long. Fully approved to BS and international standards by BEAB and other recognised test houses

Article No:	Description:
BO 60GNX30	150 x 274 mm
BO 60GNX31	274 x 274 mm
BO 60GNX32	274 x 574 mm
BO 60GNX33	524 x 524 mm
BO 60GNX34	524 x 1024 mm

Flat Coverheads

Coverheads are sold without screws, which must be ordered separately. For 60GCX10 - 12 coverheads order 60GCX40 - 43 screws. Box of 200

Article No:	Description:
BO 60GCX10	Flat Chrome Coverheads Only, 12 mm Ø
BO 60GCX11	Flat Brass Coverheads Only, 12 mm Ø
BO 60GCX12	Flat Satin Chrome Coverheads Only, 12 mm Ø
BO 60GCX40	Coverhead Screws for Flatheads 3/4" x 8
BO 60GCX41	Coverhead Screws for Flatheads 1" x 8
BO 60GCX42	Coverhead Screws for Flatheads 1 1/4" x 8
BO 60GCX43	Coverhead Screws for Flatheads 1 1/2" x 8

Mirror Profile

Mirror profiles are a system of four sections designed to enable the fitting of 6 mm mirrors singly or as a complete wall to sound walls or other materials suitable for the intended loading, with the capabilities of both outside and inside corners

Article No:	Description:
BO 60GDX60S	Mirror Edge J Section, silver, 16 x 12 x 32 x 3100 mm
BO 60GDX61S	Mirror Edge Int/Ext Corner Angle, silver, 16 x 16 x 3100 mm
BO 60GDX62S	Mirror Edge End Cap, silver, 16 x 8 x 3100 mm
BO 60GDX63S	Mirror Edge T-Section, silver, 12.5 x 7.75 x 3100 mm
BO 6703485	Mirror Edge J-Bar, aluminium, polished finish, 35 x 16 x 7 x 3657 mm
BO 6703486	Mirror Edge Corner Cap, polished finish, 19 x 19 x 3657 mm
BO 6703487	Mirror Edge Outside End, polished finish, 17 x 7 x 1.5 x 3657 mm
BO 6703488	Mirror Edge H-Bar Divider, polished finish, 32 x 13 x 7 x 3657 mm

Robe Corners

Face fixed robe corners. Chrome plated on brass. Box of 100

Also available in pre-packs - see pages 34-39 for further information.

Article No:	Description:
BO 60GDX20	Robe Corners

Mirra Plugs, Bushes, Washers and Sleeves

Mirra Plugs: Combined sleeve and spacer for 1/4" holes. The back shim holds the mirror about a millimetre off the wall and the resultant air circulation is beneficial to the mirror silvering. Mirra Bushes / Top Hats: to suit glass from 3 mm to 6 mm

BO 6032970 Mirra Plugs available as a pre-pack (BO 6000111) - see pages 34-39 for further information.

Washers

Article No:	Description:
BO 6032920	Washers, black rubber, small, pack of 200
BO 6032960	Washers, white nylon, 5/8", pack of 200

Sleeves

Article No:	Description:
BO 6032950	Sleeves, black rubber, 1/4", pack of 200

Mirra Plugs

Article No:	Description:
BO 6032970	Mirra Plugs, translucent, pack of 100

Mirra Bushes / Top Hats

Article No:	Description:
BO 6032103	Mirra Bushes, clear plastic, pack of 100
BO 6032104	Mirra Bushes, black rubber, pack of 200
BO 6032109	Mirra Bushes, clear rubber, pack of 200

Best Seller!

660 ml tins also available with own-brand label on request. Minimum of 72 cases of 12 tins (+/- 10%) Contact sales on freephone **0800 616151** for up to date prices.

Article No:	Description:
BO 5107900	Aerosol Spray, 660 ml cans, box of 12
BO 5107901	Mini tin, 100 ml

Glass cleaner is a consumable product you use every day, often in your customer's premises. Imagine if, after every installation, you could leave the residual can or trigger spray glass cleaner bearing your brand image and contact details. Many Bohle customers enjoy recommendations from their customers and follow up orders for own brand glass cleaner simply because they are reminded of the company who supplied their windows, doors, conservatories, splashbacks, and showers, every time they clean them.

Bohle Glass Cleaner – trigger spray

Professional glass cleaner, non-aerosol. Can be used for glass, smooth plastic surfaces, mirrors, car windows, tiles. For workshop and home, showcases and display windows. With the purchase of one box (= 6 bottles), 2 spray heads are included

Own name version available – Minimum of 50 cases of 6 bottles Contact sales on freephone **0800 616151** for up to date prices.

Article No:	Description:
BO 6023107	Trigger Spray, 750 ml bottle, box of 6

Dispenser

Paper towel dispenser, floor model for jumbo rolls. Paper towels and bin liners are not included

Article No:	Description:
BO 5141616	Dispenser

Blue/White Paper Roll

Paper Towels 2-ply suitable dispenser BO 5141616. Quantity: 1000 sheets of 24 x 38 cm (W x L). Weight: 2 x 18 g/m². Sold in packs of 2 rolls

Article No:	Description:
BO 5141621	Blue
BO 5141620	Grey

Paper Towels

Paper towels white 2-ply. Quantity: 470 sheets of 20 x 34 cm (W x L). Sold in packs of 6 rolls

Article No:	Description:
BO 5141617	Paper Towel

Paper Towels

Paper Towels. 4-ply. White. Suitable dispenser BO 5141616. Weight 4 x 17 g/m². Quantity 1000 sheets, 38 x 38 cm (width x length)

Article No:	Description:
BO 5141625	Paper Towel

Big Wipes 4 x 4 Heavy Duty

Textured, scrub and clean side heavy duty wipes that will remove even the toughest dirt and grime. 4 different skin conditioners to keep skin protected and nourished, and 4 power cleansers to effectively remove paint, adhesive, PU foam, silicone, gap fill, oil, grease and grime. Dermatologically tested. 80 wipes per tub

Article No:	Description:

BO 60FBX07	Twin Ply Wipes, 190 mm x 400 mm. 150 m roll, 6 rolls per pack
BO 60FBX05	Boxed Wipes, blue. 400 x 260 mm. 400 sheets per box
BO 6023207	Paper Roll, 250 x 370 mm. 50 m roll, 135 sheets per roll

Masslin Wipes

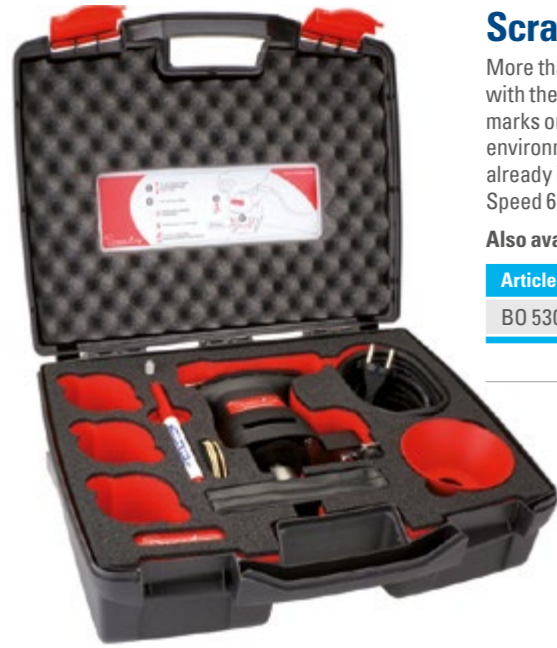

Article No:	Description:
BO 6023208	White. 500 x 430 mm. 500 sheets per box

Microfibre Cloths Economy

For streak-free cleaning of all smooth and porous surfaces, even without using chemical agents. Washable up to 90°C. Material: fleece

Article No:	Size / Description:
BO 5141642	Size: 40 x 38 cm, 5 cloths per pack

Scratch-A-Way, electrical

More than 90% of all scratches are surface scratches. They can be effortlessly removed step by step with the Scratch-A-Way scratch removal system. Suitable for removing slight scratches, stains, acid marks on flat glass, insulating glass, car glass etc. The flexible rubber collar protects the working environment and the operator from dirt. When scratches are to be removed from the fringe area of already installed glass, the rubber collar can simply be removed to reach the glass edges. Speed 6000 - 12000 rpm. Output 230 v

Also available Spare Polishing Disc – Scratch-A-Way polishing disc with Velcro

Article No:	Description:	Article No:	Description:
BO 5300914	Scratch-A-Way	BO 5300911	Polishing Disc

Felt Polishing Bob

With bonded shaft ø 6 mm. For use with polishing compound to remove small scratches or "blind" areas

Article No:	Size:
BO 5007901	80 x 30mm

Cerium Polishing Powder

For straight line edgers and flat bevelling, manual and mechanical polishing

Article No:	Description:
BO CE2620	20 kg white
BO CE2601	1 kg white
BO CE16720	20 kg
BO CE16701	1 kg

XtraClean Cleaning Paste

XtraClean removes the most diverse types of contamination quickly and easily. It removes limescale from glass showers, cleans glass processing machines, and removes grinding residues, especially from satin-finished glass. XtraClean can simply be applied using a damp microfibre cloth. Higher temperatures will release more essential oils. This makes the use of the cleaning paste even more economic. XtraClean should be found in every workshop and is a useful companion on building sites. It can even be very helpful in your kitchen at home. Consumption approx. 5 kg/100 m². Suitable for uncoated glass, different metals and scratch-resistant surfaces. Not suitable for car paints! No irritant or corrosive ingredients. Contents 100 g

Article No:	Description:
BO 5886001	XtraClean Cleaning Paste

Cero-Gel

Cero-Gel is a high quality polishing agent based on cerium oxide. It excels due to the amount of dirt and grime it removes and the high brilliance of polished surfaces. Cero-Gel was especially developed for the window and glass industry. Hairline scratches, the first signs of glass corrosion or stains caused by cement, concrete or silicone, can be easily removed. Cero-Gel can be applied using the Bohle felt polishing bob BO 5007901 together with a cordless drilling machine or, for larger surfaces, the Flex glass polisher BO 5300809 together with felt disc BO 5300811. For final polishing, we recommend Radora Brillant BO 5008003 or simply clean with water. Benefits: Handy aerosol can. Simple application and immediately ready to use. Polishing gel. No dripping, even on vertical surfaces. Can be applied in any position, 360°. Target groups and applications: Glaziers from trade and industry. Window manufacturers. Facade cleaners. Solar glass cleaner. Surface polish for glass, stone, ceramic and natural stone. Hairline scratch polish

Article No:	Description:
BO 5008004	100 ml can
BO 50080041	10 ml tube

Bevellers Rouge

An iron-oxide based rouge, traditionally used for hand-bevelling

Article No:	Size:
BO 6024631	1 kg

04 Ventilators

Ventilators

High quality ventilators made in the UK. Various models available, static or rotary, shuttered or without shutter, for double or single glazed units

Article No:	Description:
BO 6520SG5	Stormguard For Vent 101/102, 121 mm aperture
BO 6520101	Rotary Ventilator 101, without shutter, 121 mm aperture
BO 6520102	Rotary Ventilator 102, shuttered, 121 mm aperture
BO 652C102S	Rotary Ventilator 102 with S/G, 121 mm aperture
BO 6520105	Rotary Ventilator 105, without shutter, 162 mm aperture
BO 6520106	Rotary Ventilator 106, shuttered, 162 mm aperture
BO 6520SG6	Stormguard For Vent 105/106, 162 mm aperture
BO 652C106S	Rotary Ventilator 106 with S/G, 162 mm aperture
BO 6520RXL	Rotary Vent, as 106 but slimline for sliding sashes, 162 mm aperture
BO 652APAD	Adaptor, f. fitting any 162 mm vent into an existing 180–200 mm hole
BO 6520SXL	Rotary Ventilator, shuttered SXL, 219 mm aperture
BO 6520SG8	Stormguard For Rotary Ventilator SXL, 219 mm aperture
BO 652D106	Rotary Vent 106 with S/G, for 12–32 mm glass, 162 mm aperture
BO 6520PBS	Static Ventilator PBS w. S/G, 159 mm aperture
BO 65200JG	Static Ventilator JG with S/G, 162 mm aperture
BO 65200PB	Static Ventilator PB, 164 mm aperture
BO 652DPBS	Static Vent DGS/PBS with S/G, for 12–32 mm glass, 159 mm aperture
BO 6520DJG	Static Vent DGS/JG with S/G, for 12–32 mm glass, 162 mm aperture
BO 60KAX01	Thru-Air-Vent, 165 mm aperture

05 Cat Flaps

Cat Flaps

Supplied in white

Article No:	Description:
BO 60MCX40	No. 17 Cat Flap, 4 way, for up to 60 mm thick units
BO 60MCX43	No. 32 Cat Flap, magnetic, for single and double glazed units

Cutting and Handling

Silberschnitt® 2000.S STANDARD Oil Glass Cutter

Perfect glass cutting. Optimal application of cutting fluid ensures smooth glass breaking. 2-valve technology. Round cutting head. Trailing, exchangeable Toplife cutting wheels. Sturdy brass handle. For shape and straight cutting. Cutting angle 145°. Straight edge stand-off distance 6 mm. Glass thickness 3 - 6 mm

Article No:	Description:
BO 2000.S	Oil Glass Cutter

Silberschnitt® 3000 Oil Glass Cutter

The Silberschnitt® 3000 oil glass cutter is the successor model of the BO 5001.0 / 4001.1 plastic glass cutters. It is even more leak proof and performs thanks to its ergonomic plastic handle with finger grips. The cutting head and cutting wheels are identical to the predecessor model, i.e. they meet highest quality standards

Article No:	Description:
BO 3001.0	Wide Cutting Head
BO 3001.1	Narrow Cutting Head

Silberschnitt® Glass Cutter

Glass cutter for general cutting tasks, especially economical as wheels are exchangeable and turrets and cutting heads are nickel-plated.

6 cutting wheels made of stainless steel and tempered by a method to guarantee high cutting quality and long service life. Cutting angle 130°. Straight edge stand-off distance 2.5 mm. Glass thickness 3 - 10 mm. Packaging unit 12 items

Article No:	Description:
BO 100.0	Glass Cutter with Wooden Handle

Silberschnitt® 5000 Glass Cutter

Brass handle with improved cutting characteristics. Wide cutting head. Original TOPLIFE quality with considerably extended service life

Article No:	Description:
BO 5000.0	Silberschnitt® 5000 Oil Glass Cutter
BO 5010.0	Spare Head

Silberschnitt® 2000 Special Glass Cutter

Glass cutter in Silberschnitt® 2000 quality. Toplife cutting wheel. Plastic handle with traditional glazier's shape. Can be placed underneath the score to break the glass. Very lightweight cutting head made of special alloy. Very fine, smooth cutting. An ideal all-purpose glass cutter. Wheels not exchangeable. Cutting angle 138° / 140°. Straight edge stand-off distance 2.5 mm. Glass thickness 3 - 6 mm

Article No:	Description:
BO 2004.0	Blue

Toyo Glass Cutters

Wide cutting head. For 3 - 12 mm glass thickness. TC20 cutter with micro carbide wheel. TC17 cutter with oil reservoir and carbide cutting wheel

Article No:	Description:
BO 6021199	TC20 Toyo Glass Cutter
BO 6021200	TC20 Spare Head
BO 6021194	TC17B Toyo Oil Glass Cutter, brass
BO 6021195	TC17P Toyo Oil Glass Cutter, plastic
BO 6021196	TC17 Spare Head

Silberschnitt® In 1936 the glass cutter that was developed by the company founder Josef Bohle was registered under the brand name "Silberschnitt". Today Bohle develops, produces and sells a large range of glass cutting products under this brand name and is one of the leaders in the world market.

Mitsuboshi Glass Cutter

Automatic oil reservoir, micro-tungsten wheel, plus a comfortable, see-through plastic handle

Article No:	Description:
BO 6021100	Mitsuboshi Glass Cutter

Silberschnitt® Cutting Head

For Silberschnitt® oil glass cutters and speed cutters. Cutting angle 140°. Wide cutting head

Article No:	Description:
BO 5010.0	Wide Head / 140°

Silberschnitt® Cutting Fluid

Ensures a soft, precise break. Binds glass particles. Consistently unhindered run of wheel. Low surface tension allows easy penetration into the cut

Article No:	Description:
BO 027	50ml
BO 026	1 ltr

Silberschnitt® Wheel Holder

For Silberschnitt® 2000 oil glass cutters and circle cutters

Article No:	Glass thickness / Cutting angle:
BO 2449.0	0.8 - 2 mm. Cutting angle 120°
BO 2449.1	1 - 2 mm. Cutting angle 127°
BO 2449.2	2 - 4 mm. Cutting angle 135°
BO 2449.3	3 - 5 mm. Cutting angle 140°
BO 2449.4	4 - 6 mm. Cutting angle 145°
BO 2449.5	4 - 8 mm. Cutting angle 150°
BO 2449.6	6 - 12 mm. Cutting angle 155°
BO 2449.7	12 - 19 mm. Cutting angle 158°
BO 2449.8	19 - 25 mm. Cutting angle 160°
BO 2449.9	19 - 25 mm. Cutting angle 165°

Silberschnitt® Spare Turret

Suitable for Silberschnitt® glass cutters as well as circle cutter BO 516.0. Cutting angle 130°. Packaging unit 12 items

Article No:	Description:
BO 101.0	Silberschnitt® Spare Turret

Silberschnitt® Spare Wheels

Stainless steel, specially tempered. For all Silberschnitt® glass and circle cutters. Cutting angle 130°. Packaging unit 120 items in a practical dispenser

Article No:	Description:
BO 102.0	Spare Wheels

Leponitt 11" Breaking Pliers

Heavy duty glass breaking pliers

Article No:	Description:
BO 6023052	Breaking Pliers, blue handle

Glass Breaking Pliers

Plastic coated handles. Ground head. Made in Germany. Colour black. Length 200 mm. Jaw width 24 mm

Article No:	Description:
BO 5008020	Glass Breaking Pliers

Glass Breaking Pliers

Plastic coated handles. Ground head. Made in Germany. Length 180 mm. Jaw width 24 mm. Colour black

Article No:	Description:
BO 5008118	Glass Breaking Pliers

T-Square

Traditional T-square in standard quality. Flat run-off ensures cuts all the way to the edge of the glass. Easy to use

Article No:	Description:
BO 6022025	T-Square 1000 mm (39")
BO 6022026	T-Square 1320 mm, (52")
BO 6022026L	T-Square 1320 mm (52") left handed
BO 6022027	T-Square 1829 mm (72")

Glass Tapper

With wooden handle and brass ball tapper, for cut running

Article No:	Description:
BO 6021270	Glass Tapper

Silberschnitt® Cut Running Pliers

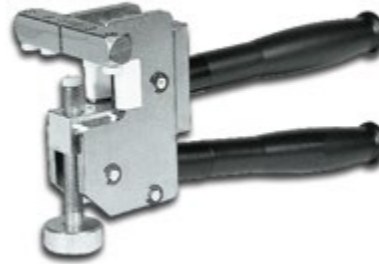

All-metal. With adjustment screw to set to individual glass thickness. Optimum load transmission. Also ideal to open straight cuts, corner cut-outs, etc. For glass thickness 6 - 15mm

Article No:	Description:
BO 704.0	Cut Running Pliers

Silberschnitt® Cut Running Pliers

Heavy-duty. All-metal construction. Precisely adjustable to glass thickness. Cutting length up to 6 m. Optimum distribution of pressure. For glass thickness 6 - 25mm. Recommended: BO 702.5 for opening narrow strips

Article No:	Description:
BO 702.0	Cut Running Pliers

Silberschnitt® Plastic Wheel Holder with Carbide Cutting Wheel

Sold in multiples of 10

Article No:	Description:
BO 416A135	135 ° white. Active
BO 416A145	145 ° black. Active
BO 416A150	150 ° brown. Active
BO 416A155	155 ° red. Active
BO 416B135	135 ° white. Basic
BO 416B145	145 ° black. Basic

Silberschnitt® Plastic Wheel Holder with Carbide Cutting Wheel

Plastic wheel holder. Other angles are available to order. When ordering, please indicate the article number, e.g. BO 417A000, and the cutting angle in the text of your order. Sold in multiples of 10

Article No:	Description:
BO 417A135	135 ° white. Active
BO 417A145	145 ° black. Active

Wheel Holder, metal

Without wheel and axle (please order separately). Made of high quality tempered metal alloy. Precision machined. Suitable for Armatec, Bavelloni, Bottero, Bystronic, Grenzebach, Hegla, Intermac, Laser, Lisec, MacoTec, Olbricht, Pannkoke, Pfister, Rohmer & Stimpfig. Sold in multiples of 10

Article No:	For Carbide Wheels / Suitable axle:
BO 432.0	12, 03 / BO 496.138F, BO 496.139F
BO 432.1	12, 03 / BO 496.138F, BO 496.139F
BO 432.3	05, 02 / BO 496.130
BO 432.6	06, 66 / BO 496.080
BO 432.M	12, 03 / BO 496.138F, BO 496.139F
BO 432.080	12, 03 / BO 496.138F, BO 496.139F

Abrasive Diamond Hand Pad

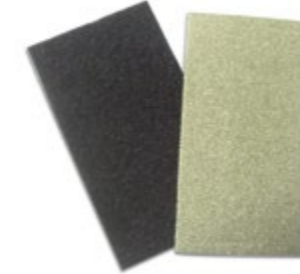

Smooths and grinds glass edges, ceramic and granite. Can be used wet or dry

Article No:	Description:
BO 5007912	Black, 27 mm x 90 mm x 55 mm. N125 grit 120
BO 5007922	Red, 27 mm x 90 mm x 55 mm. N74 grit 220
BO 5007936	Yellow, 27 mm x 90 mm x 55 mm. N40 grit 360
BO 5007512	Black, 100 mm x 57 mm x 30 mm. Grit 120
BO 5007522	Red, 100 mm x 57 mm x 30 mm. Grit 220
BO 5007540	Yellow. 100 mm x 57 mm x 30 mm. Grit 400

Diamond Coated Sheet

Velcro backed diamond coated pads, suitable for working on glass

Article No:	Description:
BO 6024149	Black, 70 mm x 125 mm. N125
BO 60EMX08	Red, 125 mm x 55 mm medium

Black Bench Felt

High quality, traditional thick wool felt for cutting benches. Sold per linear metre. Item non-returnable

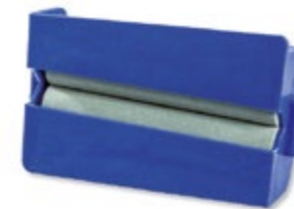

Faxed/emailed orders only
0161 344 0111/info@bohle.ltd.uk

Article No:	Description:
BO 6002174	1778 mm x 9 mm, sold per linear metre
BO 3202070	Adhesive Spray 77, 500 ml can

Hand Seaming Tool

Smooths both sides of glass edges simultaneously. Prevents injuries. 2 x BO 5007301 stones per block

Article No:	Description:
BO 5007300	Hand Seaming Tool
BO 5007301	Replacement Stones

Auto Felt

For air floatation tables and general glass cutting benches. High cushioning/low resilience factors for sensitive automatic cutting heads. Grey coloured. Sold per metre. Item non-returnable

Faxed/emailed orders only
0161 344 0111/info@bohle.ltd.uk

Article No:	Description:
BO 6021179	2000 mm wide, sold per linear metre
BO 3202070	Adhesive Spray 77, 500 ml can

Veribor® Pump-Activated Suction Lifter

Pump-activated suction lifter with pressure gauge, in case, made of sturdy aluminium with high load capacity. Suction pad 214 mm Ø. Load capacity 120 kg. Lifting direction parallel

Article No:	Description:
BO 601.1BL	Veribor® Pump-Activated Suction Lifter

Veribor® Pump-Activated Suction Lifter

Pump-activated suction lifter made of sturdy aluminium with high load capacity. Suction pad 214 mm Ø. Load capacity 120 kg. Lifting direction parallel

Article No:	Description:
BO 601	Veribor® Pump-Activated Suction Lifter

Veribor® 601G Suction Lifter

Vacuum indicator clearly visible from a distance. High-quality pump mechanism, the vacuum can be generated especially quickly. Optimised valve button enables a faster ventilation to release the vacuum. As a result, the vacuum lifter can be attached better to the material and loosened quicker after use. Suction pad 214 mm Ø. Load capacity 120 kg. Lifting direction parallel

Article No:	Description:
BO 601G	Suction Lifter with Priming Pump in Case

Veribor® blue line Suction Lifter 3-Cup

Universal suction lifter from the Veribor® series for carrying and lifting different loads. Suitable for all materials with smooth, flat, air-tight surfaces. Suction pad 120 mm Ø. Load capacity 100 kg. Lifting direction parallel

Article No:	Description:
BO 603.0BL	Veribor® blue line Suction Lifter, 3-Cup

Veribor® Suction Lifter, 3-Cup, plastic

Large non-slip gripping area. Ergonomic, user-friendly levers. Its wide surface ensures optimal force absorption. The Veribor® 3-cup suction lifter has an 80% higher load capacity than the 2-cup lifter and can carry loads up to 90 kg. Suitable for all materials and objects with flat, air-tight surfaces. Suction pad 120 mm Ø. Load capacity 90 kg. Lifting direction parallel

Article No:	Description:
BO 603.1G	Veribor® Suction Lifter, 3-Cup, plastic

Veribor® blue line Suction Lifter, 2-Cup

Suction lifter for various loads. Suction pad 120 mm Ø. Load capacity 60 kg. Lifting direction parallel

Article No:	Description:
BO 602.4BL	Blue line Suction Lifter, 2-Cup

Veribor® Suction Lifter, 2-Cup, plastic

Safe grip and highest carrying comfort. Large, non-slip gripping area. Ergonomic, user-friendly levers. Its wide surface ensures optimal force absorption. Suitable for all materials and objects with flat, air-tight surfaces. Suction pad 120 mm Ø. Load capacity 50 kg. Lifting direction parallel

Article No:	Description:
BO 602.1G	Suction Lifter, 2 Cup, Plastic

Powr-Grip® Suction Lifter, metal

The flat Powr Grip® pump-activated suction lifter with a sturdy metal handle ensuring a safe grip is suitable for transporting objects with flat and airtight surfaces. The red marking ring on the priming pump enables permanent monitoring of the vacuum. Suction pad 200 mm Ø. Load capacity 57 kg. Lifting direction parallel

Article No:	Description:
BO 6023550	Powr-Grip Pump-Activated Suction Lifter

Powr-Grip® Suction Lifter Metal, curved pad

For handling curved and airtight surfaces. Suction pad 250 mm Ø. Load capacity 79 kg. Lifting direction parallel. Surface geometry curved

Article No:	Description:
BO 6023600	Powr-Grip Suction Lifter

Veribor® blue line Suction Lifter, 2-Cup

This popular blue line lever-activated suction lifter is now also available with integrated vacuum gauge. For various loads. TÜV tested. GS certified. Suction pad 120 mm Ø. Load capacity 60 kg. Lifting direction parallel

Article No:	Description:
BO 602.40BL	Blue line Suction Lifter, 2-Cup

Powr-Grip® Suction Lifter, plastic

Suction lifter with lightweight ABS handle. Suitable for handling flat and airtight objects. Visual monitoring of the vacuum at the tappet. Supplied in plastic case. Suction pad 200 mm Ø. Load capacity 57 kg. Lifting direction parallel

Article No:	Description:
BO 6023157	Pump-Activated Suction Lifter

Glass Transporting Pliers

Sturdy transporting pliers for handling all kinds of sheet material. This tool is especially safe and easy to use for single sheet handling applications only. With a hoisting tool, simply lift the glass transporting pliers above the object to be transported. When placed onto the plate, a mechanism is set in motion which ensures a safe grip simply by the upwards motion of the transporting pliers. When putting the load down after transport, the pliers are automatically released by the reverse mechanism

Article No:	Description:
BO GTP500	Lifting Pliers - up to 500 kg, glass thickness 3–19 mm
BO GTP1000	Lifting Pliers - up to 1000 kg, glass thickness 4–24 mm
BO GTP1030	Lifting Pliers - up to 1000 kg, glass thickness 10–30 mm
BO GTP1050	Lifting Pliers - up to 1000 kg, glass thickness 30–50 mm

LiftMaster B1 Lifting System

Easy and secure handling of structural components of up to 180 kg. Ideal for transport within workshop and on site. Easy assembly and disassembly-can fit in almost any estate car. Fits through standard doors. Compact and manoeuvrable. Weight of lifting equipment approx. 22 kg. Includes vacuum lifter. The lifting device can be rotated by 360°. Can be removed very easily and used separately together with a crane. Has a dual circuit vacuum system with 4 suction pads

Article No:	Description:
BO 88.01	LiftMaster B1

Manual Lifting Device

The manual lifting device does not need an electric pump and is therefore very versatile in use. A dual circuit vacuum system, reserve tanks, vacuum display and an additional visual vacuum indicator ensure high levels of safety. The manual lifting device stands out due to its very compact construction and low weight. Load capacity max. 180 kg. Weight approx. 31 kg. Dimensions 910 mm x 510 mm x 100 mm. Turns 360°. Tiltable 90°. Suction pad ø 210 mm. Number of suction pads 4

Article No:	Description:
BO B18DM4GS	Manual Lifting Device

Veribor® Trolley with Suction Lifter

The portable and highly manoeuvrable mounting aid for interior and exterior applications greatly facilitates handling gastight materials such as, for example, glass panes or flagstones and is a true all-rounder. Thanks to the integrated Veribor suction lifter, the load is safely attached even on rough terrain. Trolley comes with two tension belts for increased transport safety which are even suitable for transporting gas permeable materials. In addition, a notch in the plate enables transporting windows. Height 575 mm. Width 410 mm. Load capacity up to 300 kg. Minimum thickness of transported goods 3 mm. Maximum height of transported goods 2000 mm. Maximum length of transported goods 3000 mm

Article No:	Description:
BO 680.0	Veribor® Trolley with Suction Lifter

Wood's Powr-Grip vacuum lifters are available in several different series and versions with optional features as well as additional practical accessories. Please ask for detailed information about further product options. Also available in 230v.

Wood's Powr-Grip® Vacuum Lifter P11104DC 3 load capacity 320 kg

This vacuum lifter is designed to be particularly lightweight and space-saving. Thanks to its narrow dimensions, it is also ideal for applications that are especially difficult. Nevertheless, it can handle loads up to 320 kg. This lifter provides 180° rotation and 90° tilt. Battery powered, it is equipped with a dual circuit vacuum system and can therefore also be used at construction sites. Self-check and monitoring thanks to integrated SPS control system (INTELLI-GRIP) Other versions, e.g. for modular applications, are available on request

Article No:	Description:
BO 6009819	P1-1104DC3 4 in line Dual Vacuum Lifter

Wood's Powr-Grip® Power Frame Dual Vacuum Lifter

Ideal for transport and installation in limited space conditions. MRTALPCH611LDC3 110v (also available in 230v). Compact and robust. 6 pad dual circuit vacuum system for use at construction sites or workshops with a load capacity of 500kg. Excellent gripping power and maximum security. Battery driven, 12v, integrated charger. Rotatable by 180° and 90° tilt. Other versions, e.g. for modular applications, are available on request. Self-check and monitoring thanks to integrated SPS control system (INTELLI-GRIP)

Article No:	Description:
BO 6009832	6 Suction Pads, in line

Wood's Powr-Grip® Vacuum Lifter load capacity 320 kg

This vacuum lifter is designed to be particularly lightweight and space-saving. Thanks to its narrow dimensions, it is also ideal for applications that are especially difficult. Nevertheless, it can handle loads up to 320 kg. This lifter provides 360° rotation and 90° tilt. Battery powered, it is equipped with a dual circuit vacuum system and can therefore also be used at construction sites. Self-check and monitoring thanks to integrated SPS control system (INTELLI-GRIP) Other versions, e.g. for modular applications, are available on request

Article No:	Description:
BO 6009822	MRT411LDC3 Dual Vacuum Lifter

Wood's Powr-Grip® Vacuum Lifter

The Powr-Grip® lifting system MRTA811LDC3 is suitable for use with cranes or other hoisting equipment. Dual circuit vacuum. Self-check and monitoring thanks to integrated SPS control system (INTELLI-GRIP) The lifting system can be manually rotated by 360° and tilted by 90°. The loading capacity amounts to 1400 lbs (635 kg) and the lifting system fully meets the requirements laid down in DIN EN 13155

Article No:	Description:
BO 6009840	Powr-Grip® Vacuum Lifter

Protective Clothing

PowerGrab Work Gloves

Seamless cotton / polyester fabric. Palm and fingertips with Latex. Good protection against mechanical risks. For universal use. Tested per DIN EN 388 CAT II. Cut resistance level 1

Article No:	Size:
BO 5017518	9 / L
BO 5017517	10 / XL

KEVLAR® PowerGrab Katana

KEVLAR® cut protection gloves, made of steel-reinforced KEVLAR® fabric with a very high cut resistance level. Blue latex coating at palms providing excellent grip. Breathable material on back of hand. Tested per DIN EN 388 CAT II. Cut resistance level: 5

Article No:	Size:
BO 5017533	8 / M
BO 5017534	9 / L
BO 5017535	10 / XL
BO 5017536	11 / XXL

PowerGrab Plus Work Gloves

Seamless cotton/polyester fabric. Palm and fingertips with MicroFinish® latex coating to provide optimum grip. Good protection against mechanical risks. For universal use. Breathable material on back of hand. Tested per DIN EN 388 CAT II. Cut resistance level 2

Article No:	Size:
BO 5017523	8 / M
BO 5017522	9 / L
BO 5017521	10 / XL

KEVLAR® PowerGrab KEV

Cut resistant gloves. 20% more KEVLAR® fibre. Blue Latex coating at the palms, providing excellent grip. Breathable material on back of hand. Tested per DIN EN 388 CAT II. Also available with extended wrist protection. Important: According to manufacturer specifications, the cut resistance of this product has been changed from 5 to 4. Cut resistance level: 4

Article No:	Size:
BO 5017503	8 / M
BO 5017502	9 / L
BO 5017501	10 / XL

With extended wrist protection

Article No:	Size:
BO 5017506	9 / L
BO 5017505	10 / XL

KEVLAR® PowerGrab KEV4

Cut resistant gloves with open-pored MicroFinish® latex coating to provide optimum grip. Breathable material on back of hand. Tested per DIN EN 388 CAT II. Cut resistance level: 4

Article No:	Size:
BO 5017510	9 / L
BO 5017509	10 / XL

Electroflex Dry Handling Gloves

Knitted gloves with coated palm. EN388: 2016 4443C. Cut resistance level C

Article No:	Size:
BO 6007508	10

Aura Gloves

Blended yarn seamless gloves with polyurethane coating and split leather palm reinforcement. EN388:2016 4x44F. Cut resistance level F. Approved for handling soft-coat and toughened glass

Article No:	Size:
BO 6007565	8
BO 6007566	9
BO 6007567	10

Armover Wrist Protector

The cut protection sleeves offer cut resistance level 5 according to EN 388:2016. They are 30 cm long and have an adjustable Velcro fastening on the upper arm. Thanks to the thin and lightweight material they are comfortable to wear. Material HPPE hybrid yarn, glass fibre. Packing unit 5 pairs

Article No:	Size:
BO 5007623	One size

Zantium Gloves

Seamless glove with textured latex coating. Powerful grip due to heavy-duty latex palm. EN388 2016 3x43C. Cut resistance level C

Article No:	Size:
BO 6007560	8
BO 6007561	9
BO 6007562	10

Vitra Gloves

Technically blended seamless glove with polyurethane coating and forefinger/thumb reinforcement. EN388:2016 4x43D. Cut resistance level D. Excellent wet & dry grip. Approved for handling soft-coat and toughened glass

Article No:	Size:
BO 6007569	8
BO 6007570	9
BO 6007571	10

Protective Leather Gloves

Meet the German accident-prevention regulations VBG 1, safety sheet for protective gloves DIN 4841. Gauntlet made of split leather (at least 15 cm long) and open at the side. Fingertips open, perforated on back of hand. Thumb, index finger and palm reinforced with leather. With Velcro fastening

Article No:	Size:
BO 5007503	35 cm

Wristex Cuffs

Woven Kevlar fabric lining. EN388:2016 2544F. Cut resistance level F. Soft poly-cotton finish prevents chafing skin in wrist area. Easy on and off with choice of fastenings

Article No:	Size / Description:
BO 6007530	Medium
BO 6007531	Strap/buckle fastening
BO 6007533	Small

Velcro Gauntlets

PVC soft and lined, economic and very popular. CE marked safety standard (level 5). Velcro fastening makes them quick and easy to put on and take off

Article No:	Size:
BO 6002327	One size

Leather Gauntlets with Buckles

Length 200 mm. Serrated edge and punched holes for comfort

Article No:	Size:
BO 6002326	200 mm

Protective Glasses

Panorama glasses. Non-slip plastic sport arm, length and slant adjustable. With anti-fog coating. In compliance with EU Directive 89/686/EEC for PPE, type-tested and CE marked. DIN EN166:2002-4

Article No:	Description:
BO 5007614	Glasses

Work Apron

Available with/without a pocket. Chrome split leather. Especially robust quality. With adjustable strap. Length 600 mm, Width 600 mm. Cut resistance level 2

Article No:	Description:
BO 5007602	No pocket
BO 5007603	With pocket

Work Apron, long

Available with/without a pocket. Chrome split leather. Especially robust quality. Adjustable straps. Length 1000 mm, Width 800 mm. Cut resistance level 2

Article No:	Description:
BO 5007600	No pocket
BO 5007601	With pocket

Kevlar® Work Apron, short

Made of KEVLAR® material. Adjustable strap. Heavy duty quality. Stitched leather pocket with sections for glass cutters. One size. Cut resistance level 4

Article No:	Size:
BO 5007615	One size

Apron

Woven full length flame retardant apron with reinforced midriff. Reinforcement is positioned to increase abrasion resistance and is further supported using 240 g aramid fabric to provide EN388 cut level 3 performance. The unique strap fastening system prevents gape open when leaning forward

Article No:	Size:
BO 6007520	One size

Glazier's Apron

Green. Two small pockets for glass cutters & two side pockets. One size. Material cloth

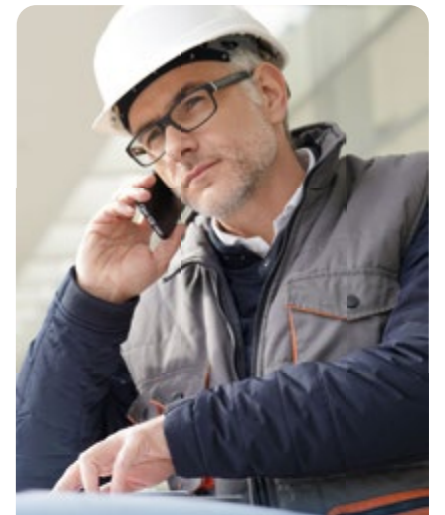

Article No:	Size:
BO 5007605	One size

Work Apron

One-sided PVC coated. Resistant to oil, acid and chemicals. With eyes and straps. Length 1200 mm. Width 800 mm

Article No:
BO 5007604

08 Glass Marking Products

Toughink

The Toughink marking system is for marking logos or safety marks on glass prior to toughening. The mark is produced using a small ink stamp and special ceramic ink. During the toughening process the ceramic ink is "baked" onto the glass leaving a permanent mark. The mark left is of similar appearance to a sandblast mark. Faxed/emailed orders only

Article No:	Description:
BO 6002686	Toughink Stamp
BO 6002687	Ink Pads for BO 6002686. Pack of 5
BO 6002688	Ceramic Ink, white, 250 g
BO 6002689	Ink Thinner 250 g

Stabilo Pencils

Glass marking pencils. Sold in boxes of 12

Article No:	Colour:
BO 60ACX11	White

BO 5105040	For 310 ml cartridges

Pneumatic Sealant Dispenser Gun

With reduction valve. Closed version. Steady forward feed. Length aluminium barrel 215 mm. Diameter barrel 50 mm

Article No:	Description:
BO 5104930	For 310 ml cartridges

"COX" Original Skeleton Gun

With automatic sealant stop

Article No:	Description:
BO 5104900	For 310 ml cartridges

Skeleton Gun H14

With fibreglass body. Steel cartridge holder with nylon coating. Easy action and long service life. Automatic sealant stop

Article No:	Description:
BO 5105014	For 310 ml cartridges

Sealant Dispenser Gun

Closed version. With nozzle, nozzle holder and adaptor. Steady forward feed. Length aluminium barrel 405 mm. Diameter barrel 50 mm

Article No:	Description:
BO 5104908	For 600 ml foil cartridges

Pneumatic Sealant Dispenser Gun

With reduction valve. Closed version. With plastic nozzle, nozzle holder and adaptor. Steady forward feed. Length aluminium barrel 465 mm. Diameter barrel 50 mm

Article No:	Description:
BO 5104932	For 600 ml foil cartridges

Smoothing Spatula

For smoothing sealed surfaces. Length 90 mm. Width 90 mm. Thickness 5 mm. Material Vulkollan

Article No:	Description:
BO 5166301	Smoothing Spatula

Silicone Jointing Tool

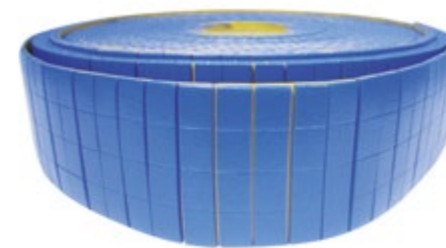

For smoothing silicone joints. With handle

Article No:	Description:
BO 60DBX32	Silicone Jointing Tool

PVC Single Sided Foam Pads

PVC single sided foam pads. Blue. 6300 pcs. to a roll 4 wide

Article No:	Size:
BO 6023190	25 mm x 19 mm x 4 mm

Gasket Roller

For easy installation of gaskets

Article No:	Description:
BO 6027019	Gasket Roller

Smoothing Spatula

Number 568. Length 85 mm. Width 80 mm. Thickness 7 mm. Material Non-Adhesive Special Plastic

Article No:	Description:
BO 5166303	Smoothing Spatula

Protective Wrap

10 rolls without dispenser roller. Does not stick, but clings perfectly. Ideal for wrapping framed pictures, windows and mirrors

Article No:	Size / Description:
BO 3901603	100 mm x 150 m
BO 3901606	Handle for BO 3901603 Protective wrap

PVC Protector Pads

PVC protector pads. Green. 1000 pcs

Article No:	Size:
BO 6023194	25 mm x 25 mm x 3 mm

Pry Bar

For the easy removal of beads

Article No:	Description:
BO 60DBX10	Pry Bar

Bohle
www.bohle.com

Order hotline 0800 616151
Mon – Fri 8.00 am – 5.00 pm

Mitre Shears

With mitre stop for 45° cuts. For cutting sealing strips, rubber profiles and flat inserts made of wood or plastic. Made in Germany. Finish shiny zinc-plated

Article No:	Description:
BO 5109700	Mitre Shears, 210 mm long
BO 5109701	Spare Blade

Spring Clips

Wire spring glazing clips for use in metal frames and push points for glazing into timber frames. Bulk pack contains approx 38250 per box

Also available in pre-packs - see pages 34-39 for further information.

Article No:	Description:
BO 6023420	Spring Clips (1000)
BO 6023400	Pushpoints (12 packets x 3/4 oz)
BO 6023401	Pushpoints, bulk pack 25 lbs (5kg)

Steel Sprigs

Traditional 5/8" long steel sprigs. Packed loose in 10 kg packs

Also available in pre-packs - see pages 34-39 for further information.

Article No:	Size:
BO 60DCX02B	10 kg

Dusting Brush

Pure soft bristle dusting brush

Article No:	Description:
BO 60DBX30	Dusting Brush

Webbing

50 mm wide. Made from the best quality strong yarns

Article No:	Description:
BO 6202311	Medium Webbing 65.8 m

Pointix Driver

Lightweight glazing gun for diamond and triangle points. Perfect for glazing and picture framing

Article No:	Description:
BO 6023520	Pointix Driver
BO 6023540	Points, 11 mm Diamonds, green (2000)
BO 6023530	Points, 11 mm Triangles, blue (2000)

Greenhouse Clips

Traditional and economic UK product. Still sold by us after all these years. Why? Because it's a quality product. Boxed in 1000

Also available in pre-packs - see pages 34-39 for further information.

Article No:	Description:
BO 60DFX50	W Clips
BO 60DFX51	Z Clips

Simplex Mallet with Two-piece Spanner Casing

Impact inserts and handle are easily exchanged. Impact inserts and wooden handle are fastened securely with an Allen screw within a cast metal casing. Diameter impact area 30 mm. Length of head 90 mm. Total length 300 mm. Length of handle 262 mm

Article No:	Description:
BO 5105118	Simplex Mallet with Two-piece Spanner Casing

Corner Protectors Economy

Glass protector. Reliable protection against impacts

Article No:	Size / Description:
BO 5105060	Glass thickness: 3-4 mm, length: 40 mm, transparent, 100 items
BO 5105061	Glass thickness: 5-6 mm, length: 47 mm, transparent, 100 items
BO 5105062	Glass thickness: 8-10 mm, length: 58 mm, transparent, 100 items
BO 5105070	Glass thickness: 3-4 mm, length: 40 mm, transparent, 4000 items
BO 5105071	Glass thickness: 5-6 mm, length: 47 mm, transparent, 2500 items
BO 5105072	Glass thickness: 8-10 mm, length: 58 mm, transparent, 1250 items
BO 5105073	Glass thickness: 11-12 mm, length: 50 mm, black, 1000 items

Transparent Setting and Distance Strips

Transparent setting strips made of plastic. For use when mounting all-glass showers, all-glass assemblies, mirrors or other glazing applications

Article No:	Length / Width / Thickness / Unit:
BO 5121001	50 mm, 6 mm, 1 mm, 100 items
BO 5121002	50 mm, 6 mm, 2 mm, 100 items
BO 5121003	50 mm, 6 mm, 3 mm, 100 items
BO 5121004	50 mm, 6 mm, 4 mm, 100 items
BO 5121005	50 mm, 6 mm, 5 mm, 100 items
BO 5121006	50 mm, 6 mm, 6 mm, 100 items
BO 5121008	50 mm, 6 mm, 8 mm, 100 items
BO 5121010	50 mm, 6 mm, 10 mm, 100 items
BO 5121011	25 each 1, 2, 3, 4, 5, 6, 8 & 10 mm, 200 pieces

Distance Strips

Transparent distance strips made of plastic. For use when mounting all-glass showers or assemblies, mirrors and other glass constructions. The BO 5122000 case with its practical dividers enables you to have the right strip at hand on site at all times. Length 50 mm. Width 6 mm. Size 1, 2, 3, 4, 5, 6, 8, 10 mm

Article No:	Packaging unit / Description:
BO 5121000	800 Transparent Spacers in Plastic Case
BO 5122000	Plastic Case with Dividers

Plastic Blocks (1000 bulk in box)

Made of tested and sealant-resistant material. The special shape of the structure and the solid bottom make them ideally suited for different purposes. The design of the blocks guarantees flush positioning. Manufactured in accordance with Technical Guideline No. 3 of the German Glazier Trade "Blocking of Glazing Units". Load capacity per block max. 300 kg. Packaging unit 1000 items

Article No:	Length / Width / Thickness / Colour:
BO 5120001	100 mm, 20 mm, 1 mm, white
BO 5120002	100 mm, 20 mm, 2 mm, red
BO 5120003	100 mm, 20 mm, 3 mm, green
BO 5120004	100 mm, 20 mm, 4 mm, yellow
BO 5120005	100 mm, 20 mm, 5 mm, blue
BO 5120006	100 mm, 20 mm, 6 mm, black
BO 5120072	100 mm, 28 mm, 2 mm, red
BO 5120073	100 mm, 28 mm, 3 mm, green
BO 5120074	100 mm, 28 mm, 4 mm, yellow
BO 5120075	100 mm, 28 mm, 5 mm, blue
BO 5120052	100 mm, 40 mm, 2 mm, red
BO 5120053	100 mm, 40 mm, 3 mm, green

Putty

MP = Multi-purpose

Article No:	Description:
BO 60JKX09	MP Linseed Oil Putty 12 x 0.5 kg tubs, brown
BO 60JKX10	MP Linseed Oil Putty 12 x 1 kg tubs, brown
BO 60JKX11	MP Linseed Oil Putty 6 x 2 kg tubs, brown
BO 60JKX12	MP Linseed Oil Putty 5 kg, brown
BO 60JKX13	MP Linseed Oil Putty 10 kg, brown
BO 60JLX01	MP Putty 12 x 0.5 kg tubs, natural
BO 60JLX02	MP Putty 12 x 1 kg tubs, natural
BO 60JLX03	MP Putty 6 x 2 kg tubs, natural
BO 60JLX04	MP Putty 5 kg, natural
BO 60JLX05	MP Putty 10 kg, natural

Butyl Glazing Compound

Article No:	Size / Description:
BO 60JNX09	1 kg x 12 in a box, brown
BO 60JNX10	2 kg x 6 in a box, brown
BO 60JNX11	5 kg, brown
BO 60JNX12	10 kg, brown
BO 60JNX23	2 kg x 6 in a box, natural
BO 60JNX24	5 kg, natural
BO 60JNX25	10 kg, natural
BO 60JNX26	1 kg x 12 in a box, natural

Butyl Glazing Tape

Butyl glazing tape for installing single and laminated glass, and double glazed units into timber and steel windows and doors

Article No:	Description:
BO 60JNX51	Off white 12 mm x 3 mm x 15 m x 20 rolls
BO 60JNX52	Off white 15 mm x 3 mm x 15 m x 16 rolls
BO 60JNX53	Off white 15 mm x 2.5 mm x 30 m x 10 rolls
BO 60JNX54	Off white 9 mm x 2.5 mm x 19 m x 24 rolls
BO 60JNX61	Brown 12 mm x 3 mm x 15 m x 20 rolls
BO 60JNX62	Brown 15 mm x 3 mm x 15 m x 16 rolls
BO 60JNX63	Brown 15 mm x 2.5 mm x 30 m x 10 rolls
BO 60JNX64	Brown 9 mm x 2.5 mm x 19 m x 24 rolls
BO 60JNX71	Black 12 mm x 3 mm x 15 m x 20 rolls

Firestrip Intumescent Tape

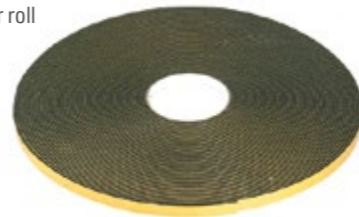

Firestrip is a very cost effective intumescent glazing strip sealant

Article No:	Size / Description:
BO 60JDX10	Firestrip 30 12 mm x 3 mm x 15 m – off white, boxed in 10's
BO 60JDX11	Firestrip 30 12 mm x 3 mm x 15 m – teak, boxed in 10's

PVC Glazing Tapes

For use in bead glazing with wooden and metal frames. Black. 25 m per roll

Article No:	Size / Description:
BO 60JGX01	9 mm x 3 mm, single sided
BO 60JGX02	12 mm x 3 mm, single sided
BO 60JGX10	9 mm x 3 mm, double sided
BO 60JGX11	12 mm x 3 mm, double sided

Melophone

Hygienic communication panels with polycarbonate guard, which having high impact strength, provides a high degree of physical security against snatch and assault. For up to 15 mm glass

Article No:	Size / Description:
BO 60GPX01	Speech Panel ø 244 mm, hole 229 mm
BO 60GPX02	Speech Panel ø 318 mm, hole 295 mm
BO 60GPX03	Extension Screw, 37 mm
BO 60GPX04	Mesh Guard for Speech Panel, 240 mm
BO 60GPX05	Mesh Guard for Speech Panel 310 mm

Melophone Stone Resin Speech Panel

For gatehouses, counters or information desks at railway stations, banks, finance offices, etc. With a strong, impact-resistant polycarbonate guard. ø 244mm, hole ø 229mm

Article No:	Description:
BO 60GPX06	Finish white

Also available in pre-packs - see pages 34-39 for further information.

Pins

Sold in boxes of 12 blister packs

Article No:	Description:
BO 60MAX15	Veneer Moulding Pins 15 mm, 12 packs of 75 grams
BO 60MAX16	Veneer Moulding Pins 20 mm, 12 packs of 75 grams
BO 60MAX17	Veneer Moulding Pins 25 mm, 12 packs of 75 grams
BO 60MAX21	Glazing Sprigs/Brads – 5/8", 12 packs of 100 grams
BO 60MAX18	Brass Pins 15 mm, 12 packs of 75 grams
BO 60MAX19	Brass Pins 20 mm, 12 packs of 75 grams
BO 60MAX20	Brass Pins 25 mm, 12 packs of 75 grams
BO 60MAX22	Brass Picture Wire No.1, 12 packs of 3 m

Panel Pins

Sold in boxes of 12 blister packs or 500 g boxes

Article No:	Description:
BO 60MAX12	Panel Pins 15 mm (12 packs of 100 grams)
BO 60MAX13	Panel Pins 20 mm (12 packs of 125 grams)
BO 60MAX14	Panel Pins 25 mm (12 packs of 125 grams)
BO 60MAX23	Panel Pins 40 mm (12 packs of 100 grams)
BO 60MAX40	Panel Pins 15 mm x 18 g, 500 g
BO 60MAX41	Panel Pins 20 mm x 17 g, 500 g
BO 60MAX42	Panel Pins 25 mm x 16 g, 500 g
BO 60MAX43	Panel Pins 30 mm x 16 g, 500 g

Sash Cords

For replacement in traditional wooden sash windows. 100 m. 8 knots per pack

Article No:	Description:
BO 60DJX11	Jute Sash Cord No.4
BO 60DJX12	Waxed Sash Cord No.2, natural
BO 60DJX13	Waxed Sash Cord No.3, natural
BO 60DJX14	Cotton Sash Cord No.4, white
BO 60DJX15	Cotton Sash Cord No.5, white

10

Pre-pack Range

A wide selection of pre-packaged glazing sundries for you to display and sell via your glazing shop or trade counters.

BO 60RPX108

4 x 12 mm flat heads, chrome, 1 1/4" x 8 screws & plugs

Article No:	Description:
BO 60RPX108	Pre-pack

BO 60RPX204

4 x Chrome domeheads, 1 1/2" x 8 screws, mirrabushes & wall plugs

Article No:	Description:
BO 60RPX204	Pre-pack

Measuring Equipment

Merlin Laser Measuring Device

For analysing glazed units. Laser diode with sophisticated measuring electronics. Press the button for instant measurements. Precise measurements from only one side (independent of light). Measures glass thickness as well as air gaps of any multi-glazed unit. Indicates PVB and resin layers of laminated units. Battery-operated. Little energy consumption. For coated glass, bullet-proof glass, multi-layered insulating glass, etc.

Article No:	Description:
BO 5164701	Scale & Instruction manual: English

Glass Analysis Kit

Contains 1 x BO 5164701 Merlin Laser, 1 x BO 5164600 Merlin TGI, and 1 x Low E Coating Detector in a sturdy case

Article No:	Description:
BO 65164701	Glass Analysis Kit

Bohle GlassCheck

GlassCheck is used for measuring the overall glass thickness of already installed glass panes and insulated glass. The device is suitable for measuring glass thicknesses of up to 120 mm. The device also features an integrated glass thickness gauge which enables the user to determine the thickness of single glass panes (from 2 – 25 mm)

Article No:	Description:
BO 5164801	Bohle GlassCheck

Glass Coating Detector

For detecting coatings on single-pane or insulated glazed units – for use on 4 mm to 10 mm glass

Article No:	Description:
BO 6164805	Coating Detector

Bohle GlassBuddy®

The multi-functional tool for the accurate analysis of flat glass. Regardless of whether monolithic glass, laminated glass or 1-gap or 2-gap insulating glass is analysed. In seconds GlassBuddy® Plus supplies information about glass thickness, configuration of panes, coatings, intermediate layers and their exact position – in addition, it also recognises fire protection glass. GlassBuddy® from Bohle. One device that does it all

Article No:	Description:
BO 5164760	Bohle GlassBuddy® Basic
BO 5164755	Bohle GlassBuddy® Plus

Stanley Tape Measure

Powerlock. Yellow tape. Adjustable end-hook. Metal case with locking button

Article No:	Size:
BO 5106013	3 m, 12.7 mm
BO 5106014	5 m, 19 mm

Stanley Tape Measure

Plastic case. Yellow tape. Automatic tape rewind. Adjustable end-hook. Locking button. With belt clip

Article No:	Size:
BO 5107003	3 m, 13 mm
BO 5107005	5 m, 19 mm

Tajima Tape Measure

Plastic case. Yellow tape. Rewind button. Adjustable end-hook. With belt clip

Article No:	Size:
BO 5106303	3.5 m, 13 mm
BO 5106305	5 m, 13 mm

Glass Processing Products

Master Belt Glass Grinding Machine

For precise edges, curved circular grinding or delicate araising work: The Master Belt grinding machine is the ideal solution for demanding grinding tasks. Thanks to its modular system, it can be expanded or retrofitted at any time and is ideally suited for the most diverse applications. The integrated stainless steel castor roller table enables precise handling of larger glass panes. Master Belt ensures a consistently high working result both for large grinding surfaces and minimal hollow grinding. The machine is equipped with a water tray as standard and is operated with an integrated coolant circulation system. Extension tables not included.

- Dimensions (W x D x H) 1200 x 1170 x 1600 mm
- Abrasive belt dimension 100 x 1830 mm
- Castor roller table 1200 x 680 mm
- Working height 1050 mm

Please phone our Machinery Department on **0800 616151** for further information

Willach Sliding Glass Tracking

Robustus is a fittings system for 10 mm glass. It can be used on a range between 70 kg (2 rollers) and 140 kg (4 rollers) and is therefore also suitable for security glass. The high quality flocking of the top twin-guides, the superior roller technology, the secure combination of glass and metal through transparent plastic bedding profiles as well as invisibly integrated damping and anti-theft devices provide for the perfect, long-lasting, easy and quiet functioning of the glass sliding doors.

Robustus 10 mm Glass Tracking

Article No:	Description:

Saveker Sliding Glass Tracking: Freeslide System, 6 mm

Suitable for 6 mm glass up to 1.5 m high, this system is available in polished aluminium, in 2 or 4 metre stock lengths. Glass panels are located with bedding strip into a runner section that incorporates either nylon or steel ball bearing wheels. These wheels run along a neat bottom track while the top of the glass is supported in the top track. This system is suitable for use in display cabinets, showcases or service hatches. The usual overlap allowed between two glass doors is 26 mm. For glass cutting sizes deduct 27 mm from the height of the opening. For safety reasons we recommend all glass should have polished edges. Please check with your glass merchant to ensure that the specification of the glass is suitable for the particular installation. To calculate the length of side channels or draught excluders deduct 47 mm from the opening height. The maximum recommended height to width ratio of each door is 2:1.

Double Top / Side Track, 6 mm glass

Double top track/side channels can be used either to guide the top of sliding glass doors or for a sliding door to locate into at the side of the opening. Supplied drilled and countersunk for fixing, and available in polished aluminium, in 2 or 4 metre stock lengths. Priced per metre

Article No:	Size / Description:
BO 634579AP	2 m, polished aluminium
BO 634579A4	4 m, polished aluminium

Runner, 6 mm glass

Runner accommodates the glass panel in the top half and holds the wheels and end stops in the lower section. Available in polished aluminium, in 2 or 4 metre stock lengths. Priced per metre

Article No:	Size / Description:
BO 634579BP	2 m, polished aluminium
BO 634579B4	4 m, polished aluminium

Double Bottom Track, 6 mm glass

Double bottom track is supplied drilled and countersunk for fixing and is available in polished aluminium, in 2 or 4 metre stock lengths. Priced per metre

Article No:	Size / Description:
BO 634579EP	2 m, polished aluminium
BO 634579E4	4 m, polished aluminium

Bedding Strip, 6 mm glass

Bedding strip helps secure glass firmly into runner section. Available by the metre or in full rolls of 30 metres

Article No:	Description:
BO 6340136M	Bedding Strip, per metre
BO 6340136	Bedding Strip, 30 metre roll

Wheel Units, 6 mm glass

Wheels should be fitted into BO 634579BP runner section. Available in nylon with brass case or steel ball bearing wheel

Article No:	Description:
BO 634579J	Nylon Wheels in Brass Case
BO 634579C	Steel Ball Bearing Wheels

End Stops, 6 mm glass

End stop with or without rubber buffer fits into end of runner section – Available in polished aluminium

Article No:	Description:
BO 634579DP	End Stop without Buffer
BO 634579GP	End Stop with Buffer

End Lock, 6 mm glass

End locks replace end stops in runner section and are available in either right or left handed. Available in polished aluminium

Article No:	Description:
BO 634579KP	Left hand, standard centre
BO 634579KR	Right hand, standard centre

Brush Draught Excluder, 6 mm glass

Brush draught excluder clips onto edge of glass panel to prevent draughts and dust. Available in 2 or 4 metre stock lengths. Priced per metre

Article No:	Size / Description:
BO 634030P	2 m – polished aluminium
BO 634030P4	4 m – polished aluminium

Stop Blocks, 6 mm glass

Top channel stop block screws into the top track and provides additional security by preventing closed glass panels from being lifted out

Article No:	Description:
BO 6340439	Top Channel Stop Block

Plunger lock, 6 mm glass

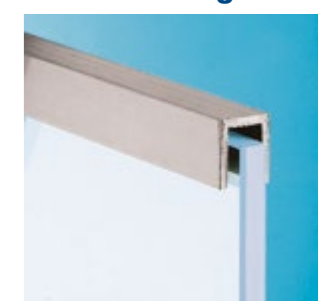

Plunger lock fits onto front runner section which must be drilled to template supplied for fitting. With standard centres or security centres (as pictured). Available in polished aluminium

Article No:	Description:
BO 634927P	Polished aluminium, security centre

Single Top Track / Side Channel, 6 glass

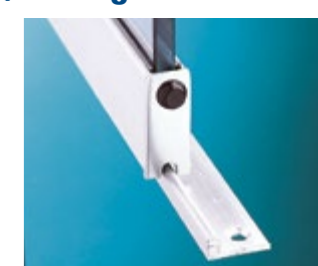

Single top track/side channels can be used either to guide the top of a single sliding door or for sliding door to locate into at the side of the opening, or alternatively can be used to frame a fixed panel. Supplied drilled and countersunk for fixing. Priced per metre

Article No:	Size / Description:
BO 634021TP	2 m, polished aluminium
BO 634021T4	4 m, polished aluminium

Single Bottom Track, 6 mm glass

Single bottom track is supplied drilled and countersunk for fixing. Available in polished aluminium, in 2 or 4 metre stock lengths. Priced per metre

Article No:	Size / Description:
BO 634579SP	2 m, polished aluminium
BO 634579S4	4 m, polished aluminium

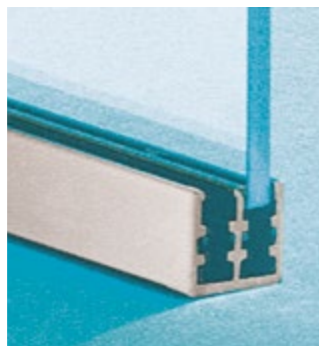

16

Saveker Sliding Glass Tracking: Nylonslide, 6 mm

Suitable for 6 mm glass up to 1.5 m high, this system is available in polished aluminium, in 2 or 4 metre stock lengths. Glass panels slide on nylon rollers which are incorporated in the bottom track while the top of the glass is supported in the top track. The system is suitable for use in display cabinets, showcases or serving hatches. The usual overlap allowed between two glass doors is 26 mm. For glass sizes deduct 22 mm from height of opening. For safety reasons we recommend all glass should have polished edges. Please check with your glass merchant to ensure that the specification of the glass is suitable for the particular installation. For side channels or draught excluders deduct 38 mm from the height of the opening. The maximum recommended height to width ratio per door is 1.5:1.

Double Bottom Track, 6 mm glass

Double bottom track incorporates nylon rollers on which the glass panel runs. Supplied drilled and countersunk for fixing. Available in polished aluminium, in 2 or 4 metre stock lengths. Priced per metre

Double Top / Side Track, 6 mm glass

Double top track/side channel can be used either to guide the top of sliding glass doors or for sliding door to locate into at the side of the opening. Supplied drilled and countersunk for fixing and available in polished aluminium, in 2 or 4 metre stock lengths. Priced per metre

Article No:	Size / Description:
BO 634020P	2 m – polished aluminium

Clip on finger pull. Finish: chrome

Article No:	Description:
BO 634035C	Clip On Finger Pull – chrome

Finger Pull, round, 6 mm glass

Round finger pull with 18 mm finger hole, fits into 29 mm diameter hole drilled into glass. Available in polished aluminium

Article No:	Description:
BO 634003QP	Round Finger Pull – polished aluminium

Finger Pull, round, 6 mm glass

BO 634582M – Medium round finger pull. Polished aluminium. 30 mm Ø finger hole. Fits into 38 mm Ø hole in glass

BO 634582P – Large round finger pull. Polished aluminium. 38 mm Ø finger hole. Fits into 51 mm Ø hole in glass

Article No:	Size:
BO 634582M	Medium Round Finger Pull
BO 634582P	Large Round Finger Pull

For details of Willach sliding glass tracking, see pages 46-47.

For online orders finalised before 2 pm, if the goods are in stock, the order will be shipped the same day.

Saveker Sliding Glass Tracking: Heavislide System, 10 mm

Suitable for 10 mm glass up to 2.5 m high, this system is available in polished aluminium, in 2 or 4 metre stock lengths. Glass panels are located with bedding strip into a runner section that incorporates steel ball bearing wheels. These wheels run along a neat bottom track while the top of the glass is supported in the top track. This system is suitable for use in display cabinets, showcases or serving hatches where 10 mm glass or taller doors are required. The usual overlap allowed between the two glass doors is 26 mm. For glass cutting sizes deduct 45 mm from the height of the opening. For safety reasons we recommend all glass should have polished edges. Please ensure the specification of the glass is suitable for the particular installation. To calculate the length of side channels or draught excluders deduct 76 mm from the height of the opening. The maximum recommended height to width ratio of each door is 2:1.

Double Top / Side Track, 10 mm glass

Double top track/side channel can be used either to guide the top of sliding glass doors or for sliding door to locate into at the side of the opening. Supplied drilled and countersunk for fixing and available in polished aluminium, in 2 or 4 metre stock lengths. Priced per metre

Article No:	Size / Description:
BO 634346AP	2 m – polished aluminium
BO 634346A4	4 m – polished aluminium

Double Bottom Track, 10 mm glass

Double bottom track is supplied drilled and countersunk for fixing. Available in polished aluminium, in 2 or 4 metre stock lengths. Priced per metre

Article No:	Size / Description:
BO 634346EP	2 m – polished aluminium
BO 634346E4	4 m – polished aluminium

Door Shoe, 10 mm glass

Door shoe accommodates the glass panel in the top half and holds the wheels and end stops in the lower section. Available in polished aluminium, in 2 or 4 metre stock lengths. Priced per metre

Article No:	Size / Description:
BO 634346BP	2 m – polished aluminium
BO 634346B4	4 m – polished aluminium

Bedding Strip, 10 mm glass

Bedding strip helps to secure glass firmly into runner section, available by the metre or in full roll of 25 metres

Article No:	Description:
BO 634141M	Bedding Strip per metre
BO 634141C	Bedding Strip – 25 m roll

Wheel Units, 10 mm glass

Steel ball bearing wheels in steel case should be fitted into BO 634346BP runner section, one at each end up to 0.6 sq m of glass, two at each end up to 1 sq m and three at each end up to 1.5 sq m. This is a guidance only. The number of wheels required for any individual system will depend also on the size of each door, the supporting structure and frequency of use

Article No:	Description:
BO 634346C	Steel Ball Bearing Wheel Unit

Security Plunger Lock, 10 mm glass

Security plunger lock fits onto front runner section. Can be supplied either to pass or to differ, from 80 differs available, supplied with 2 keys, also available with standard centre as H76 with 10 differs. Available in polished aluminium

Article No:	Description:
BO 634976P	Security Plunger Lock, polished aluminium

The usual overlap allowed between the two glass doors is 26 mm. For glass cutting sizes deduct 45 mm from the height of the opening.

To calculate the length of side channels or draught excluders deduct 76 mm from the height of the opening. The maximum recommended height to width ratio of each door is 2:1.

End Stops, 10 mm glass

End stop with or without rubber buffer fits into end of runner section – available in polished aluminium

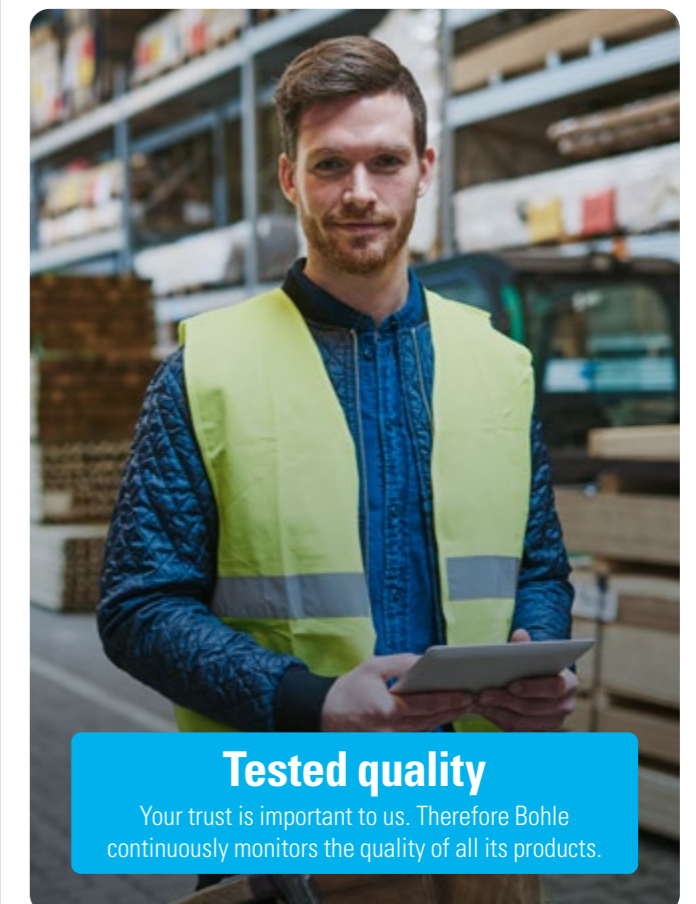

Article No:	Description:
BO 634346DP	End Stop, without Buffer
BO 634346GP	End Stop with Buffer

Stop Blocks, 10 mm glass

Top channel stop blocks screw into the top channel giving extra security by preventing closed glass panels being lifted out

Article No:	Description:
BO 6340422	Top Channel Stop Block

Mounting Aid

For fixing the clamping wedges of the glass bearers. Top and side mount. Material steel

Article No:
BO 5403116

Stopper for Staircase

Positioning aid for angled mounting, e.g. for staircases. Side mount. Packaging unit 1 pc

Article No:
BO 5403114

Connecting Pins

As per DIN 1481. For front connection of basic profiles. Top and side mount. Material stainless steel. Length 50 mm. Diameter 8 mm. Packaging unit 2 items

Article No:
BO 5403113

Balustrade Systems: EasyMount

EasyMount 6020, 0.74 – 1.5 kN top mount

The EasyMount 6020 profile is the intelligent onward development of Bohle's popular EasyMount Top profile. By increasing the distance between pre-drilled holes, and by allowing the use of anchor bolts without a countersunk head, installation of the 6020 profile is both faster and much more cost effective.

For use in interior or exterior applications, it can withstand line loads of up to 1.5 kN. Glass mounting kits are available from 12 mm up to 21.52 mm. Slimline, elegant and low maintenance

- Drainage holes built into profile, or add spacers underneath
- Fewer fixings required to achieve 0.74 kN (mounting distances max. 600 mm centres using 19 mm or 21.52 mm toughened laminatd PVB)
- For glass thickness between 12 mm – 21.52 mm

Article No:	Size / Description:
BO 6060202	2500 mm – aluminium
BO 6060205	5000 mm – aluminium

Inside / Outside Corner 90°

Inside length 140 mm. Outside length 200 mm

Article No:	Description:
BO 6060203	Aluminium

End Cap left / right

Suitable for left and right

Article No:	Description:
BO 6060204	Aluminium

Spacer

For use with Bohle EasyMount top mount profile. Allows for additional drainage by lifting the profile. Pack of 13 pieces

Article No:	Description:
BO 6060206	Aluminium

EasyMount 6021, 0.74 – 1.5 kN side mount

The EasyMount 6021 profile is the intelligent onward development of Bohle's popular EasyMount side profile. By increasing the distance between pre-drilled holes, and by allowing the use of anchor bolts without a countersunk head, installation of the 6021 profile is both faster and much more cost effective.

For use in interior or exterior applications, it can withstand line loads of up to 1.5 kN. Glass mounting kits are available from 12 mm up to 21.52 mm. Slimline, elegant and low maintenance

- Drainage holes built into profile
- Fewer fixings required to achieve 0.74 kN (mounting distances max. 400 mm centres using 15 mm, 19 mm and 21.52 mm toughened laminated PVB)
- For glass thickness between 12 mm – 21.52 mm

Article No:	Size / Description:
BO 6060212	2500 mm – aluminium
BO 6060215	5000 mm – aluminium

Inside Corner 90°

Inside length 140 mm. Outside length 200 mm

Article No:	Description:
BO 6060213	Aluminium

Outside Corner 90°

Inside length 140 mm. Outside length 200 mm

Article No:	Description:
BO 6060214	Aluminium

End Cap left

Suitable for left

Article No:	Description:
BO 6060216	Aluminium

End Cap left for use with Snapframe

Suitable for left

Article No:	Description:
BO 6060217	Aluminium

End Cap right

Article No:	Description:
BO 6060218	Aluminium

End Cap right for use with Snapframe

Suitable for right

Article No:	Description:
BO 6060219	Aluminium

Snapframe

With mounting strip. For use with End caps BO 6060217 and BO 6060219

Article No:	Size / Description:
BO 6060210	2500 mm - aluminium
BO 6060211	5000 mm - aluminium

Please note:
You will find suitable installation kits under Bohle EasyMount Vario Glass Mounting Kits at www.bohle.com.

EasyMount Vario-Glass Mounting Kits

The EasyMount Vario Glass Mounting Kits enable quick and easy installation. With a simple sliding movement the system can be adjusted by up to 40 mm. The Bohle mounting tool BO 5215281 enables you to work from the accessible side, making installation less time consuming.

EasyMount Vario Glass Mounting Kit rail load 0.74kN.

EasyMount Vario – for linear alignment
For profile 2500 mm. Included in delivery:
2 x 2500 mm Rubber profile. 8 x Glass clamps

Article No:	Glass thickness:
BO 5215340	12 mm

23 Clamps

Kronos Glass Clamp V4A

Mounting square tube. Shape D-shaped. Material stainless steel V4A. Size 64 x 45 mm. Finish brushed. Glass thickness 8 - 12.76. Sold in multiples of 4

Article No:
BO 6125531

Lock Pin

To be used for pre-wall installation to secure the glass against slipping. 4 per box

Article No:
BO 6122930

Adjustable Mounting Bolt

M8 x 20 mm. Material stainless steel V4A. 12 pieces per box

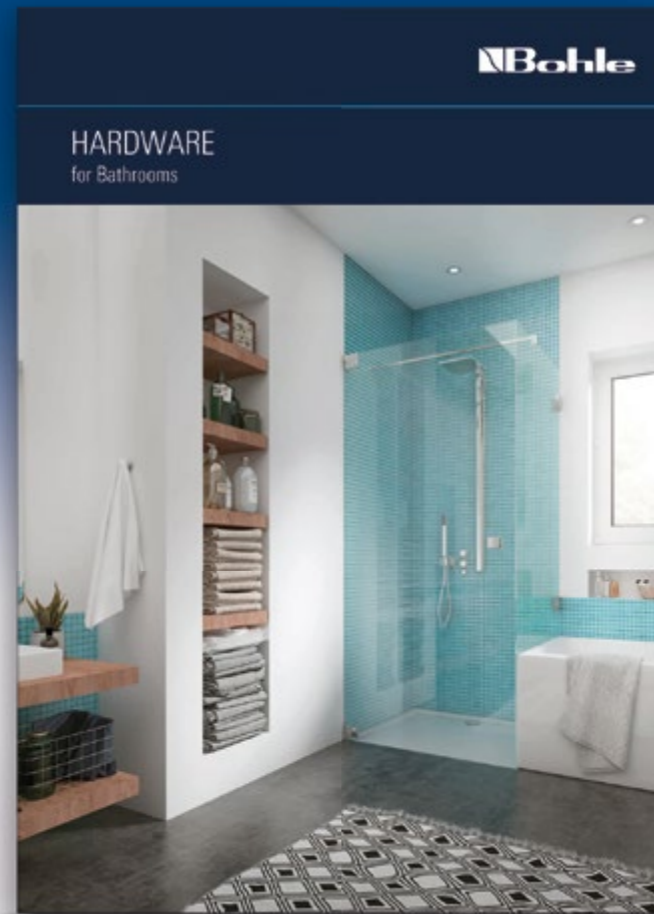

Article No:
BO 6122030

Kronos – The Glass Clamp

- The first adjustable clamp
- One clamp for all glass thicknesses – from 8 mm tempered glass to 12.76 mm laminated safety glass
- A clamp made from one piece – no assembly of single components
- Simple installation
- Engineered and made in Germany

See our full range of Hardware products in our two brochures, Hardware for Interior Fit-out and Hardware for Bathrooms.

At Bohle we continuously develop our product range to ensure you have the best options for all interior settings which is reflected in both our latest Hardware product catalogues.

With a focus on technical simplicity, product quality, aesthetics and ease of installation, we provide a wide variety of hardware products for modern interior design.

Convex Security Mirrors

Safety

Accident prevention is the key to industrial safety! Bohle Safety Mirrors are paramount in collision avoidance. When strategically positioned in warehouses, hospitals, factories or any other areas where the risk of collision is high, Bohle mirrors can significantly reduce human injury and stock damage.

Deluxe Half Dome Mirror

The new Deluxe Half Dome Mirror is designed for busy corridors and passageways at T-intersections to help avoid collisions. The lightweight vinyl back and lid enclose the cavity so that no dust, garbage or other objects can be left inside and will not require constant cleaning out. Ideal in hospitals, medical centres, office buildings, factories and schools, this new innovation is the most effective way to improve safety.

Features: 900 mm and 600 mm Impact Resistant Acrylic Half Dome. 180° Viewing Area. Vinyl Celuka Back and Lid. Complete With Mounting Screws. Easy Installation. Easy Maintenance

Article No:	Size:
BO 6100935	600 mm
BO 6100936	900 mm

Standard Mirror

A strong fully framed mirror for all interior and light industrial applications. The mirror is mounted on an ACM (Aluminium Composite Material) back. Supplied with a fully adjustable bright zinc steel, telescopic bracket. Perfect for deterring pilfering and for general indoor use.

Article No:	Size:	Combined Distance**
BO 6100900	300 mm (12")	Approx. 5 m
BO 6100901	450 mm (18")	Approx. 7 m
BO 6100902	600 mm (24")	Approx. 10 m
BO 6100903	760 mm (30")	Approx. 18 m

Please note:

To see the complete range of mirrors available please contact our friendly and helpful sales team for a copy of the Convex Security Mirror catalogue. Email sales@bohle.ltd.uk or phone free on 0800 616151.

Security Surveillance

Deter retail theft BEFORE it occurs! Bohle Convex Mirrors are one of the most cost effective and powerful deterrents to retail theft available. Bohle mirrors eliminate blind spots to allow staff or store security to constantly and inconspicuously monitor customers. With an estimated annual shrinkage of 1 – 2% of retail sales, financial losses for retailers from retail theft are huge, making Bohle Security Mirrors an invaluable investment.

Full Ceiling Dome

The Ceiling dome is one of the most effective methods of wide area surveillance due to its large 360° area of reflection. It is ideal for collision avoidance in warehouse and distribution centres and is a powerful deterrent to pilfering in retail situations. The dome comes complete with a suspension kit for optimal height positioning.

Article No:	Size:	Combined Distance**
BO 6100910	600 mm (24")	Approx. 6 m
BO 6100911	900 mm (36")	Approx. 9 m
BO 6100912	1200 mm (48")	Approx. 16 m

Economy Mirrors

This low cost, versatile mirror will adjust to any angle to allow optimal line of sight. For interior use only, it is ideal for positioning to view machinery, or to see around corners or partitions in corridors or hallways.

Article No:	Size:	Combined Distance**
BO 6100931	450 mm (18")	Approx. 7 m
BO 6100932	600 mm (24")	Approx. 10 m

Traffic

Blind corners, intersections and driveways can be death traps when the driver's field of vision is obstructed. Bohle Convex Mirrors extend the driver's view to enhance safety on our roads. Premium quality acrylic, aluminium and steel are used for Bohle mirrors making them extra durable for Europe's varied weather conditions.

Heavy Duty Mirror

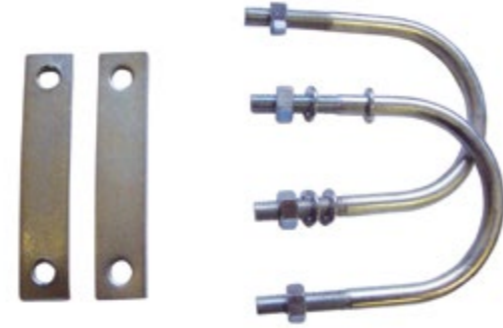

This industrial quality mirror with its strong pin bracket can be either wall mounted or fitted to a post with our U-Bolt accessory packs. The premium quality mirror face is mounted on a vinyl back, with the mirror face sealed against moisture.

Article No:	Size:	Combined Distance**
BO 6100905	300 mm (12")	Approx. 21 m
BO 6100906	450 mm (18")	Approx. 28 m
BO 6100907	600 mm (24")	Approx. 38 m
BO 6100908	760 mm (30")	Approx. 46 m
BO 6100909	900 mm (36")	Approx. 55 m

U-Bolt Accessory Pack

The U-Bolt Accessory Pack is used to attach the Heavy Duty Mirrors to 60 mm or 75 mm poles

Article No:	To fit pole diameter:	Mirror Size
BO 6100919	60 mm (2 3/8")	300 – 760 mm
BO 6100920	75 mm (3")	All mirror sizes

Justice Facility Polycarbonate Mirrors

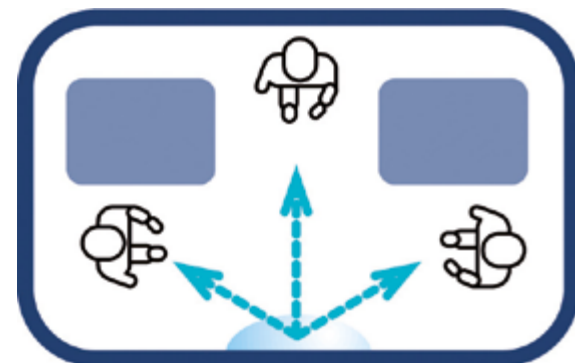

These sturdy Observation Mirrors from Bohle are manufactured to be virtually unbreakable and tamper proof, representing real peace of mind when applied in prison cells and young offenders institutes, or other areas requiring close supervision. They are highly polished, providing a crystal clear image, even on blind angles. Virtually indestructible and unbreakable, mirror quality polycarbonate faced - 99% pure aluminium vacuum metalized reflective coating - powder coated steel frame with unique tamper-proof design – recessed tamper-proof fixings. The Cell Mirrors can be used in cells, open areas, such as visitation rooms, or 4-way intersections.

Half Face Cell Mirror

Comes complete with face, foam insert and frame - these parts can also be bought separately. Please contact us for further details

Article No:	Size:
BO 6100943	600 x 300 mm (24" x 12")
BO 6100944	450 x 225 mm (18" x 9")

Also Available

- Aircraft Docking Guidance Mirrors
- Inspection Mirrors

Don't forget!!!

****The combined distance is the distance from the observer to the mirror PLUS the distance from the mirror to the object or person being observed.**

BriteGuard Surface Protection

BriteGuard® Pro

BriteGuard Pro® is suitable for both interior and exterior applications by making the glass surface hydrophobic and therefore easy to clean. Contamination barely sticks to the surface and water rolls off so no aggressive chemical cleaning agents are needed

Article No:	Size:
BO 5850101	100 ml
BO 5850500	500 ml
BO 5855000	5 / ltr

BriteGuard® Surface SEALER X

Surface SEALER X was specially developed for rough surfaces. This can be glass that is satin finished or sandblasted

Article No:	Size:
BO 5820500	500 ml
BO 5825000	5 / ltr

Microfibre Cloth

For streak-free cleaning of all smooth and porous surfaces, even without using chemical agents. Washable up to 90°C. Weight 100 g/m². Material fleece. Packaging unit 5 items

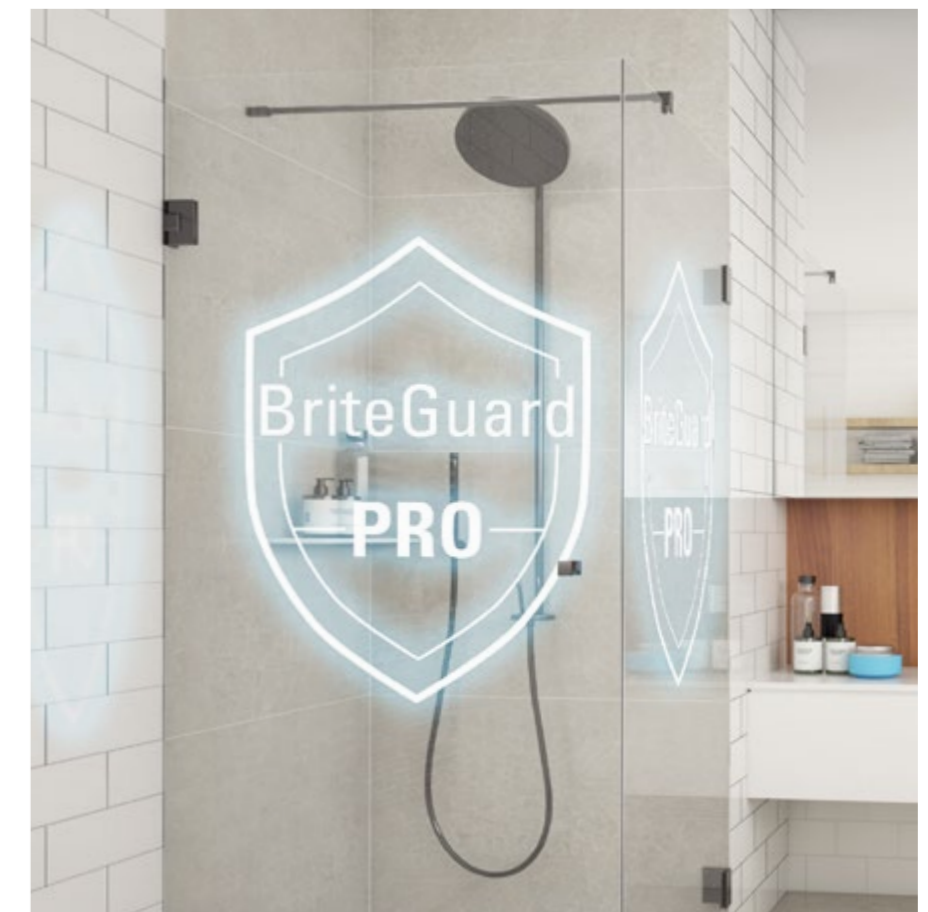

Article No:	Size:
BO 5141642	40 x 38 cm

BriteGuard® Pro Next Generation Surface Protection

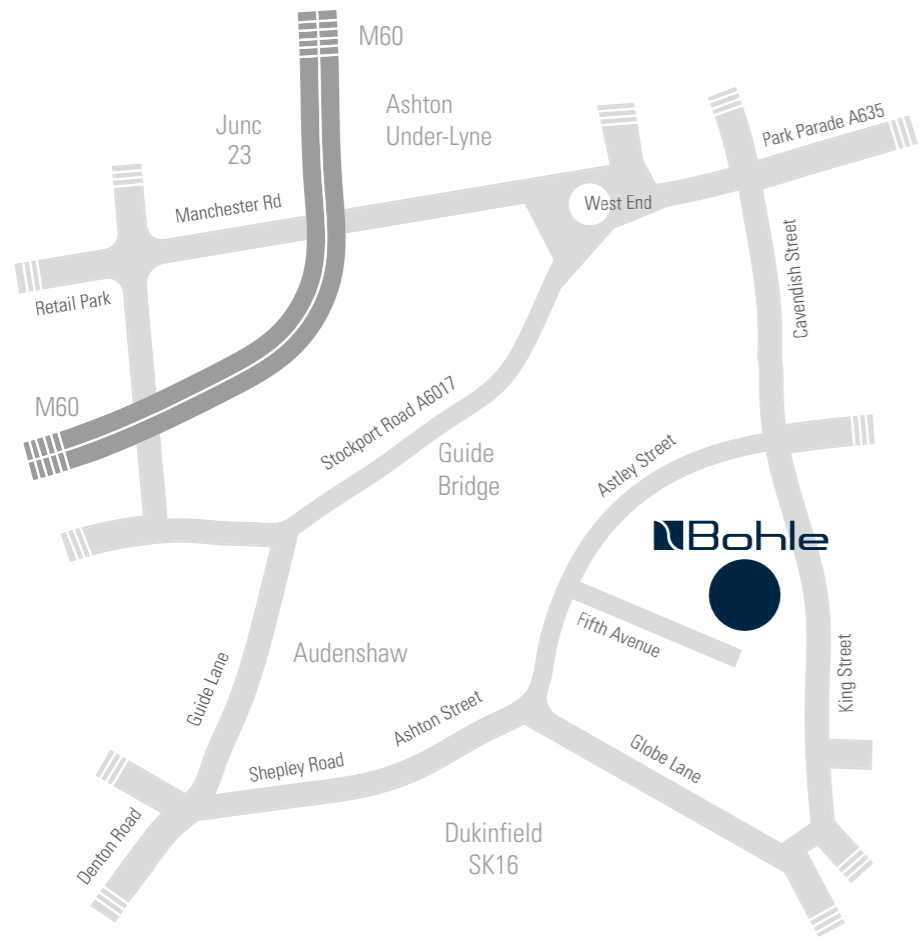

BriteGuard® Pro is a transparent coating for all smooth glass and glazed ceramic surfaces which offers quick and reliable protection against corrosion. In addition, an easy-to-clean surface is created which makes it hard for dirt particles to adhere to it!

Pre-clean, apply, wipe dry, done! The coating is suited both for interior and exterior applications and lasts for many years. The coating makes the glass surface hydrophobic and therefore easy to clean. Contamination barely sticks to the surface and water rolls off – for this reason, aggressive chemical agents become unnecessary for cleaning. The coating of the glass is done manually. No large investments in auxiliary application devices required. Any silicone-free glass cleaner or suitable alcohol based cleaners can be used for pre-cleaning.

- Easy handling without high investment costs
- Suitable for interior and exterior applications
- Shelf life in original packaging: 12 months from the date of manufacture
