Gerflor & Gradus - The Education Specialists

With over 100 years of combined experience in the education sector, together we have built an unrivalled reputation for quality and service.

The Gerflor group is well known as a credible and valued supplier of complete flooring solutions

designed specifically for the education market. The constraints of durability for high traffic areas, slip resistance and acoustic qualities are part of mandatory characteristics for this sector.

Our expertise allows us to offer numerous flooring products suitable for all areas of an education facility. Whilst maintaining the technical performance and the design

aspect of our floorcoverings, we manufacture our ranges with the environment in mind as well as the health and well-being of end-users. We have recognised brands ideal for education facilities including our Mipolam, DLW, Taralay, Taraflex®, Tarasafe, Creation and Gradus carpet ranges.

Gradus is a UK manufacturer of contract interior solutions,

these include stair edgings, floor trims, barrier matting, wall protection and lighting. As the leading UK manufacturer of these solutions, we support our customer's projects to provide safe, accessible, attractive and inclusive environments for all users.

Gradus controls the design of products from initial concept through to final manufacture,

including specialist CAD design and the manufacture of tooling. This ensures that quality is maintained and provides customers with an efficient, flexible, and fast service.

We also offer site survey, project management and installation services for our wall protection, entrance matting and lighting products.

Our tried and trusted Education Solutions

Complete Solution

Gerflor & Gradus are able to offer a complete floor and walls covering solution that can contribute to a safe and inspiring building environment.

Gerflor and Gradus Services

Technical & Specification Support Specialists

Our dedicated specialists can assist you with all your specification needs. Whether it's a new build or refurbishment project we have the expertise and innovations to meet all budgets. Hand in hand with our partners, we work together to propose the optimum solution for the client's needs, utilising the most appropriate safe, hygienic and sustainable solutions for the specific applications. We don't stop at just providing specification advice, we can also provide a free site survey, we will visit, assess and audit the facility and make improvement suggestions to future proof the building interiors.

The Technical Support team is available to offer advice on the specification and installation of products, including guidance on the latest building standards and legislation. Be rest assured that Gerflor and Gradus has a world-class pedigree of products that are tried and trusted and deliver every time. All backed up by a network of technical, specification and customer support teams.

Sampling Support Services For Every Need

We offer a free sample service for all our clients. Whether it's a range overview binder, loose sample (standard or bespoke), supporting literature or if it is something bespoke you need like a mood board or test material, contact us and we will aim to supply the sample for your required need. To request a sample, literature or anything else, email contractuk@gerflor.com or imail@gradus.com or call 01625 428922

Specification Documents and BIM Objects

As an NBS partner you have access to a single source for product information and incorporates the Gerflor and Gradus products. NBS Source provides an additional level of enhanced product data, in a consistent, structured format that will integrate seamlessly into your project workflow.

Entrance & Reception Areas

Key considerations when selecting Flooring and Wall Protection products for Entrance & Reception Areas

- ✔ A bright, calm and welcoming environment
- ✔ Resistance to heavy traffic
- ✔ Good slip resistance on floors
- ✔ Practical in design to facilitate building access
- ✔ Protecting walls and corners that are vulnerable to damage
- ✔ Zoning and navigation assistance

Resilient Flooring

Taralay Libertex LooseLAY

Innovative MAX3 3-layer system: combines durability, acoustics, ease of use and installation.

1430 Legend Grey

2247 Hossegor Latte

1785 Reflect Earth

2242 Legend Country

Carpets

Lunar

Inspired by the lunar landscape the design is available in a choice of eight colourways to help create a stylish and modern environment.

07401 Janssen

07406 Picard

07404 Stadius

07408 Moro

To see the full range - [click here](#)

Other Products

XT™ Aluminium Stair Edgings

The Gradus XT range of stair edgings offers the ultimate solution in reducing slips, trips and falls on stairs.

To see the full range - [click here](#)

Entrance Matting

An effective barrier matting system, when correctly specified, will help to minimise the risk of slip accidents caused by wet flooring.

To see the full range - [click here](#)

Wall Protection

Selecting the right product

Reception areas are often subject to scuffs and scrapes from tables, chairs and other moveable objects. Corner & edges are also vulnerable to damage from deliveries and other wheeled traffic entering the building.

- 1 SureProtect Artworx - [click here](#)
- 2 SureProtect Design® (wood effect) - [click here](#)
- 3 Standard Corner Guard - [click here](#)

Corridors & Hallways

Key considerations when selecting Flooring and Wall Protection for Corridors & Hallways

- ✔ Selected products need to deal with heavy traffic both pedestrian and wheeled
- ✔ Products should offer zoning and navigation assistance
- ✔ Flooring must be slip resistant and be able to cope with heavy rolling loads
- ✔ Robust Wall Protection system to protect vulnerable walls and corners
- ✔ Handrails for guidance and support

Resilient Flooring

Tarasafe Impression

Safety flooring that's HSE 36+ and R11 slip-resistant, available in wood effect and mineral designs.

1 SureProtect Pure® Wall Cladding - [click here](#)

2 Standard Corner Guards - [click here](#)

1) An innovative corner system

A total and complete solution for installing corners that aids the control of contamination

Controlling contamination in general education environments as well as ultra clean areas such as wet rooms, shower rooms, kitchens and laboratories is always a challenge. Corners, in particular, are where most of the imperfections are found:

- Their shape makes cleaning and decontamination difficult
- Poorly welded, they can tear or sag under the weight of traffic
- Weakened by use, they end up losing their water-tightness

In partnership with cleaning professionals, Gerflor has developed Clean Corner System: a patent pending innovative corner solution. Years of research and development have led to Clean Corner System (Gerflor only validate this system with Gerflor products). Thanks to ultra-resistant and versatile profiles (Photo 1), Clean Corner System is suitable for all your projects, and delivers perfect results (Photo 2).

Watertight

Resistant & Durable

Clean

Versatile

Attractive

A vertical stack of five blue rectangular boxes, each containing a white icon in a circle on the right side. The icons represent the following benefits: 1. Watertight: A corner profile with three water droplets. 2. Resistant & Durable: A corner profile with an hourglass. 3. Clean: A corner profile with three stars. 4. Versatile: A corner profile with three interlocking puzzle pieces. 5. Attractive: A corner profile with an eye.

Innovations for Education Environments

2) Surface treatments for vinyl

Our surface treatments are perfect for education environments with unrivalled levels of chemical & stain resistance, reducing maintenance time and costs.

Evercare™ is an exclusive surface treatment obtained by UV laser cross-linking. This means no waxing or polishing is needed to maintain a floor's appearance or colour brightness, reducing maintenance costs and lowering the environmental impact.

Protecsol® is a surface treatment that delivers stain resistance. It has been tested and approved for over 20 years, is easy to maintain and has no metallisation for life, saving on water and detergents.

For additional information on other surface treatments PUR, Sparclean® and PUR+ please contact us for further details.

Protecsol® 2

Other
Homogeneous
Sheets

Rubber

VCT

Highly durable: Exclusive surface treatment applied by UV laser cross-linking provides superior durability and an even surface thickness, creating an impenetrable barrier against stains and chemicals. Longer life expectancy.

Water-repellent effect: The surface treatment creates a 100% non-porous barrier to prevent all liquids and chemicals from penetrating the materials, remaining on the surface. Simple and easy stain removal.

Innovations for Education Environments

3) Surface treatments for linoleum

Our surface treatments are perfect for education environments with unrivalled levels of chemical & stain resistance, reducing maintenance time and costs.

New solvent-free surface protection developed exclusively for DLW Linoleum.

Extremely hard wearing due to triple laser UV cross-linking.

Easy to Clean

- Dirt and stain barrier
- Cost effective maintenance
- Easy cleaning with a mop or any modern cleaning equipment

Detailed cleaning protocol available on www.gerfor.com
