Cladding System

100% Invisible Fixing

Perfect Alignment & Gaps Between Boards

A Unique & Patented Screw-free System

Seamless cladding for walls, ceilings or any other flat surface.

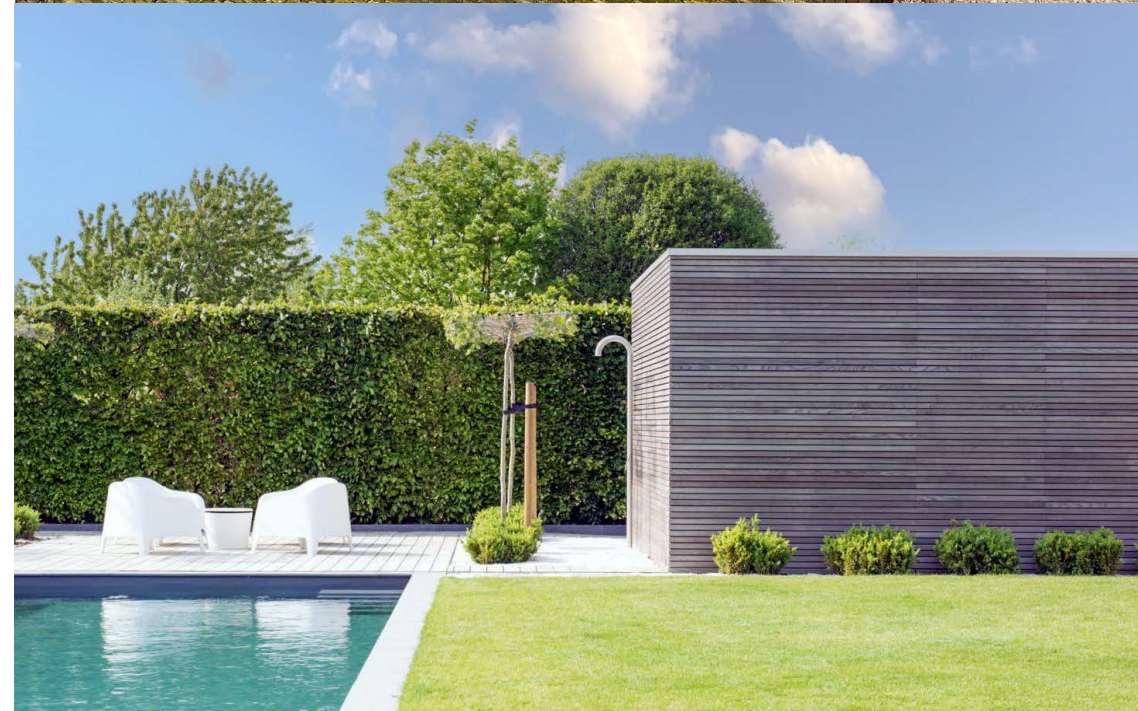

A variety of timbers ready to attach to Grad rails.

Perfectly placed clips to suit board shape, width and configuration whether regular or Variclad.

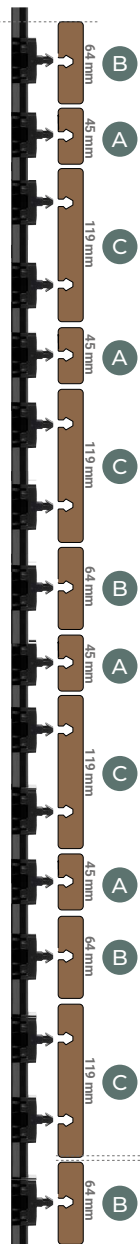

Effortless installation.

Click here

Variclad Cladding

Variable widths to create a unique and eye-catching look

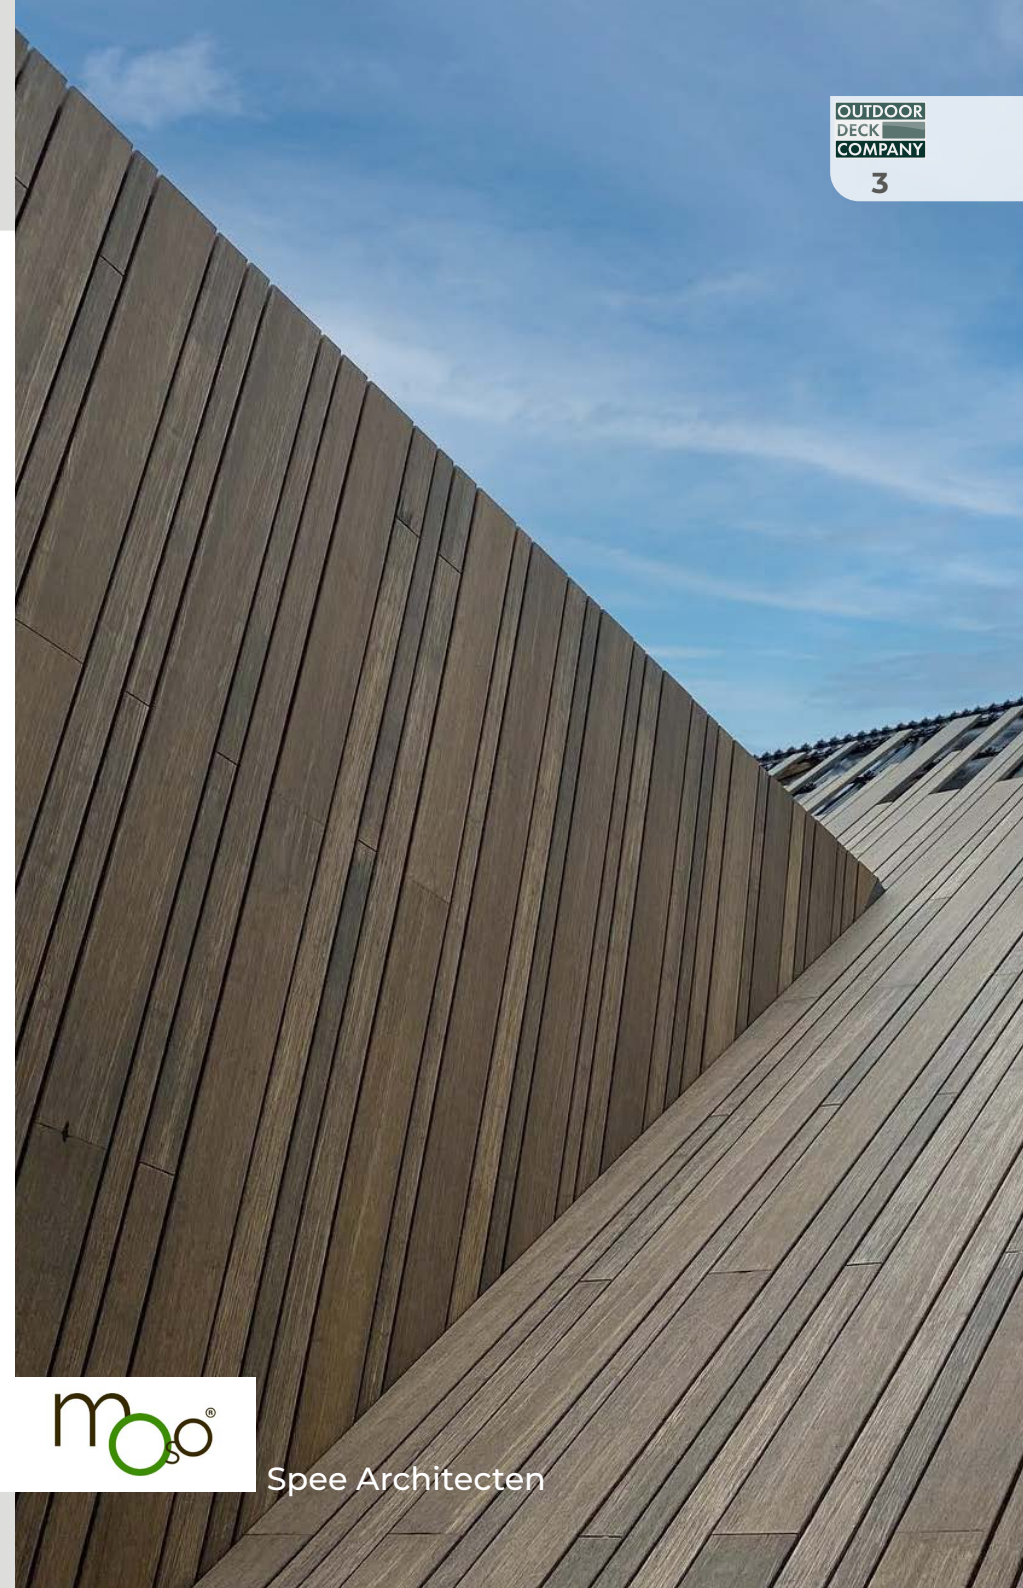

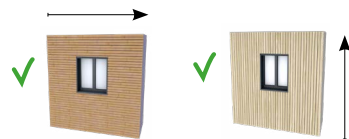

The Variclad system is compatible with three different sizes of Bamboo boards for use with Flat Rail Variclad 1.

**45mm, 64mm and 120mm
Bamboo X-treme**

Clipped on the same rail, for a durable design and easy installation.

Bespoke arrangements are available on request subject to order volume.

and discover how Grad hidden-fix can enhance your projects

The image displays three devices showcasing the Outdoor Deck Company website. The laptop screen shows the desktop version with a navigation menu (Systems, Finishes, Technical, Case Studies, About, Blog, Contact) and a main banner for 'Create Exceptional Outdoor Spaces'. Below the banner is a section for 'Advanced Decking & Cladding Systems' and another 'Be Inspired' section with three image tiles. The tablet screen displays a 'Case Studies' section with three project thumbnails: 'Private Residence, Hindhead', 'Blackrock London Office', and 'Battersea Power Station - Level 8', with a 'See all Case Studies' button. The smartphone screen shows a contact form with the heading 'Have a project in mind and looking for a quote? Let's talk.' and fields for 'First name', 'Surname', 'Email*', 'Phone number', and 'Company', along with a 'Or Call Sales Direct on +44 020 8977 0820' button and a social media link.
