A
BEAUTIFUL
USE
OF
SPACE

The Tonic II freestanding bath offers an eye-catching focal point, with its slim edges and curved corners. Paired with the graceful floorstanding bath and shower mixer, it provides an iconic centrepiece.

A BEAUTIFUL USE OF SPACE

At Ideal Standard, we believe bathrooms should be living places, not just functional spaces. For us, they're far more than just places to brush your teeth. They should be places to relax, to make yourself beautiful, to refresh and re-energise.

So, for the past 100 years we have been designing products to help you create your ideal bathroom.

Whether that is a place to escape, a boudoir, a playroom or a sanctuary, it is always a beautiful use of space.

CONFIDENCE INSPIRED BY DESIGN EXCELLENCE

AWARD-WINNING DESIGN

Design is at the heart of everything we do. We know that creating your bathroom is as much an aesthetically driven exercise as it is a practical one. As Europe's leading contemporary bathroom brand, we are able to attract the talents of some of the world's best designers in the field. This means our products are on the foremost edge of design thinking, for both functionality and style. Our current ranges feature signature pieces by our award-winning design partners – Dick Powell and Artefakt.

PERFORMING BEAUTIFULLY

Our products are high-performance tools. We know that you expect consistent efficiency and impressive capability. We work hard to develop products that give you ever-greater power, safety, ease of use and economy. Over the years, we've come up with all kinds of innovations to meet our customers' changing needs. In fact, several of the great engineering advances in bathroom technology began life on one of our drawing boards.

MANUFACTURING EXCELLENCE

Manufacturing excellence is our cornerstone. We know that you need robust, high-quality products that can withstand the day-to-day rigours of home life. Because of this, we keep the core of our manufacturing operations within Europe and the Middle East, we use only the highest quality materials, and we subject each and every one of our products to extensive life testing. The result is that we continually exceed all British and European standards, and everything we make comes with a comprehensive guarantee.

AQUABLADE

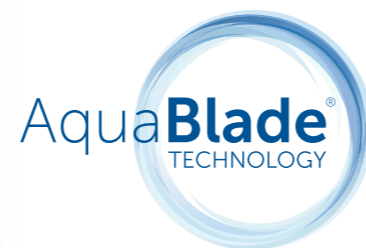

A NEW ERA IN FLUSH TECHNOLOGY

STREAMLINED STYLE, UNRIVALLED HYGIENE

Introducing Aquablade® flush technology, a unique development exclusively from Ideal Standard that is revolutionising flush performance. Unlike typical flush systems, Aquablade® covers every inch of the ceramic, keeping the toilet bowl immaculately clean.

Aquablade®'s exclusively engineered integrated channel generates an incredibly powerful, smooth water flow from the top of the bowl to clean more of the ceramic surface, even at low water volumes. Aquablade® washes 95% of the surface beneath the slot and cleans every part of the toilet, including the back.

Perceptions of cleanliness matter as much as performance. That's why we've created a new innovation within the new Tonic II toilet. This uniquely designed toilet features clean lines and a rimless bowl, reducing bacteria build-up, making it easier to clean. Combined with the new Aquablade® technology, the Tonic II toilet sets new standards in toilet design and optimum flush performance.

AQUABLADE® MAXIMISES
FLUSHING POWER AND
EFFICIENCY, TO GIVE YOU
THE MOST HYGIENIC FLUSH
YOU'VE EVER EXPERIENCED.

ICONS OF DESIGN

Dick Powell, founder of award-winning product design agency Seymourpowell, has partnered the Ideal Standard team and pushed the boundaries of bathroom design to create our new, luxury range of ceramics, baths and furniture, named Dea – a real meeting of minds.

Ideal Standard has long been a champion of true functionality in the bathroom, demonstrated by a history of collaboration with celebrated designers such as Artefakt and Robin Levien, as well as our in-depth research into bathroom usage. This approach syncs perfectly with Seymourpowell's own philosophy that design is about making things better: better for people, better for business and better for the world.

And this is how Dea came into being. Inspired by the name – meaning 'goddess' in Italian – Dea is Powell's response to the evolution of pure minimalism in design, and the range will appeal to anyone who wants a soft, comfortable bathroom, in which beauty, harmony and a touch of femininity combine in a contemporary expression of style.

The signature look that unites each one of Dea's elements is a geometric motif derived from a gently softened trapezoid form. You can see it everywhere in the range, making Dea stand out as fresh and different. Yes, it's a luxury range that pushes the technical envelope, but thanks to the ingenuity of Ideal Standard's engineers, it's an accessible luxury.

Discover the stunning results of our award winning creative partnership with German design masters, Artefakt.

Founded in 1989 by Thomas Fiegl and Achim Pohl, Artefakt's designs are simple and often understated, yet they have a natural sensuality that makes them highly desirable and a delight to use. This collection includes the contemporary elegance of Artefakt's Tonic II, Softmood, Attitude and Moments ranges.

Dick Powell,
Founder of Seymourpowell

Achim Pohl and Thomas Fiegl,
Founders of Artefakt

“DEA REPRESENTS THE ACHIEVEMENT OF IDEAL STANDARD'S ASPIRATION FOR A TOTAL BATHROOM, DELIVERING A TOTAL BATHROOM SOLUTION, WITH EACH ELEMENT WORKING IN HARMONY WITH THE NEXT.”

Dick Powell
Seymourpowell, UK

FROM CONCEPT TO CUSTOMER

It's our golden rule that a critical eye stays focused on every detail of every Ideal Standard product; from the initial idea for a range, through design development and prototyping, to manufacturing and finishing. With no weak point in the chain, quality can never be compromised, meaning you're assured a product that consistently serves and delights.

PRIDE IN OUR PROCESS

Each member of the Ideal Standard team takes great pride in producing our robust, high-performing range of products. Collective and individual knowledge and experience, along with skill in hand and eye, are the key factors in our precise manufacturing processes and rigorous testing regimes. It's a diligence that never relents; not until every shipment has arrived safely.

OUR PROMISE OF QUALITY

It's this care and start-to-finish control that gives us complete confidence in the quality and reliability of Ideal Standard design and manufacture. It enables us to guarantee many of our products for a lifetime – the ultimate in peace of mind. For full details of the terms and conditions of our guarantee please go to www.ideal-standard.co.uk/guarantee

THE COLLECTIONS

REAL BEAUTY IDEAL LUXURY

The visionary behind Dea is award-winning designer Dick Powell. His objective was to create an 'emotionally satisfying' environment, and Ideal Standard's knowledge, skills and experience have turned his vision of future comfort into a beautiful reality. From materials to technology, sophisticated ceramics to clever storage, Dea's forward-looking, sensuous design delivers the ideal combination of premium quality and aesthetics, total comfort and exceptional functionality.

The Dea furniture range won gold at the House Beautiful Awards 2014 and product award winner for the Designer Kitchen and Bathroom Awards 2014.

Finishes can be the making of your bathroom. Dea ceramics are available in either gloss white for a glistening shine or matt white for a muted sheen.

Dea offers you a host of basin options. First, choose your basin type, then select your size and, finally, pair your basin with a unit from our range of furniture styles and finishes. It's all explained in the Dea Compatibility Matrix on page 170.

Two of Dea's special design features are integrated ambient lighting and a mirror with a built-in Bluetooth sound system.

Every piece in the Dea range is a contemporary design classic, but the dramatically tall totem basin deserves iconic status. Cast all in one piece, it creates a striking focal point.

Recent design trends have accustomed us to a cool, angular aesthetic in the home, but the future is feeling warmer and softer. Curved yet controlled, inviting yet elegantly poised, Dea's beautiful lines offer a perfect balance of chic design and pure pleasure. Reflecting our natural interactions, with body-friendly rounded corners and slim rims, Dea's softer, more feminine lines create a space that cossets and cocoons.

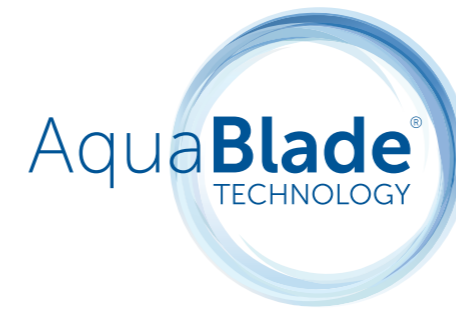

Clever storage solutions in soft, streamlined forms are intrinsic to the range. From round-cornered mirror cabinets and basin units to co-ordinated storage cabinets, every piece offers generous, well-planned space for a mood of serene escapism.

When you fall for Dea's soft styling, you can trust that every piece has been thoughtfully designed to make life more comfortable and enjoyable. Perfectly complementing the Dea range, the Melange basin filler completes the experience.

As well as the unique Totem design, the Dea basin range includes vanity, vessel and pedestal options – all featuring the fusion of linear and organic forms to create that distinctive soft, modern look. Our Dea WCs are available in floor-standing or wall-hung styles, and all feature a slim, soft close seat and our award-winning AquaBlade® technology, for a superior flushing experience.

With simple clean lines and contemporary styling, AquaBlade® technology has been designed with aesthetics as well as performance in mind. There is no unsightly rim, so only the smooth curves of the Dea bowl are visible. AquaBlade® technology gives a superior flush performance every time. With no overhanging rim, the water flows from the very top of the bowl rinsing 100% of the area beneath. The AquaBlade® technology uses optimised water pressure to powerfully rinse the whole bowl clean with no unhygienic splashing.

Simple and beautifully understated, our range of Melange bath fillers perfectly complements Dea. As well as the dual control filler featured here, there are several bath filler options. These include bath shower mixers, thermostatic versions and a combined bath waste and overflow filler with remote hot and cold side bodies.

Available in Idealform and Idealform Plus+, the Dea double-ended bath echoes the range's seamless, sculptured forms. The bath sides fall away underneath the rim to create a sense of slender elegance; an ingenious styling feature that gives the illusion of more space.

Neatly showing off the range's flexibility and focus on comfort, Dea's double-ended bath fits snugly into an alcove, with the integrated Melange filler positioned within easy reach on the back rim.

BATHE IN LUXURY

From its gracefully flared sides and fluidly curved corners to the sophisticated slimness of its edges, the Dea free standing double-ended bath is irresistibly inviting, promising an oasis of luxurious relaxation. This magnificent design provides a striking centrepiece around which to plan the rest of your bathroom.

SPACE TO BE YOURSELF

Clean lines, soft square contours and different colour finishes create an effortless aesthetic that's reflected across the collection, bringing a sense of openness and space.

Beautiful ceramics work seamlessly with furniture pieces to create a harmonious whole and pair with stunning baths for an iconic centrepiece. Partnered with innovative mixers, the Tonic II collection allows you to truly enjoy the experience, whether you need a space to relax or be transformed.

High-quality materials, a choice of sizes and a range of attractive finishes enable you to transform any space into a haven of purity and calm.

Tonic II offers a wealth of possibility. A choice of sizes, colours and finishes means you have the opportunity to try out all sorts of combinations. Our large double basin and matching furniture pieces are just one way in which you can make the best use of your space.

Each Tonic II tap has been designed to perfectly complement the basins in the range, both in their contours and proportions.

The Tonic II free standing bath offers an eye-catching focal point, with its slim edges and curved corners. Paired with the graceful floor standing bath and shower mixer, it provides an iconic centrepiece.

An absolute necessity for those who want to relax, baths are available in the seamless, curved D-shape as well as rectangular options to complement your bathroom perfectly.

The ethos of the Tonic II collection is that your bathroom can be a place of harmonious tranquility, no matter what size it is. By including options such as the single-ended bath that can double-up as a shower, you have the freedom to create a beautiful use of space. And whichever pieces you choose, their soft curves and clean lines will bring a quiet elegance to your bathroom interior.

Whether you're updating your cloakroom or building a new one, the range has the flexibility to work in even the smallest spaces. Toilets, basins, furniture and accessories combine cleverly in different configurations, always achieving the same clean, uncluttered aesthetic.

Different sizes and finishes in the range provide a choice of storage to suit your taste and space. Add the optional motion sensor LED light to create ambience and aid visibility.

ELEGANCE IN ITS MOST WELCOMING FORM

Born out of a creative alliance between Italian designer Franco Bertoli and German design company Artefakt, Softmood ceramics, baths, furniture and accessories blend pure, straight lines with smooth curves and soft edges. This integrated bathroom collection celebrates simplicity in a new way, inviting lightness, openness and sensuousness into a harmonious synthesis with modernity. Discover a unique modern aesthetic – the perfect balance between contemporary clarity and elegant warmth.

Slim, refined shapes, pure colours and luxurious details create an elegant aesthetic, while highly sophisticated functionality takes care of the practical side of things. It's a principle that is reflected in every product and every detail, typified by our Softmood mirror that features anti-steam technology and bespoke curved LED lighting.

EXPERIENCE A NEW
SENSE OF HARMONY.
SOFTMOOD
CREATES SPACE
TO BREATHE -
A HAVEN FREE OF
THE DEMANDS
OF EVERYDAY LIFE.

Pure lines and sweeping curves invite light and air into your bathroom, creating a sense of openness and space even in smaller rooms and en-suites. The clean design of each element complements any bathroom interior and the choice of basins, WC suites, baths, furniture and accessories provides complete versatility. Attitude taps and mixers make the ideal partner.

The collection's extraordinary flexibility allows you to create a bathroom that's the ideal expression of both your practical requirements and your personal sense of style.

Softmood's elegantly refined furniture is available in a wide selection of sizes and four luxurious finishes that offer the right colour choice for every preference.

With its refined, minimalist shape and sloping backrest, a Softmood bath lends a comfortable yet contemporary touch to your bathroom. Choose from single-ended and double-ended styles in Idealform and Idealform Plus+ to complement your bathroom perfectly.

STRADA

MODERN LIVING SQUARED

With its square-edged look and high-fashion feel, Strada is the ultimate modern bathroom collection. A complete range of precisely crafted ceramics, mixer taps, showers and furniture brings a clean and unified atmosphere to your space.

The purest of minimalist forms crafted from top-quality materials, pristine white or moody grey finishes with smooth, sophisticated handles ensure the ideal balance of masculine and feminine, directional and classic. It's a look that will stand the test of time.

As the very definition of minimalism and innovation, Synergy wetroom panels perfectly complement the Strada range. The dual-access wetroom, available with or without return panels, together with our Idealrain Dual rainshower and Concept Easybox slim thermostatic shower valve create a truly luxurious showering experience.

STRADA

Good storage is essential to achieve a successful minimalist environment. Strada's furniture range provides a comprehensive selection of drawer units and cabinets made using high-grade, robust materials, the highest quality hardware, immaculate finishes and soft closing mechanisms for the sake of safety and Zen-like peace.

Strada, with Synergy shower enclosure.

While the basin is the focal point of your style statement, the Strada double-ended bath exhibits the same strong design principles that underpin the range. It is available in Idealform and Idealform Plus+ and two sizes.

The new, luxuriously deep Strada bath provides a meditation zone for lovers of simplicity. Perfectly echoing the vanity basin, its flush-fitting bath panels and slim, flat rim create a refined modern look. Choose from single-ended or double-ended styles.

The 'O' basin seemingly represents a radical departure from Strada's characteristic straight lines and right angles, but, in fact, the same minimalist principles apply. As a vessel basin, it sits elegantly on a shelf, countertop or mounted storage unit, and it's available in its round or oval form and a range of sizes.

CLOAKROOMS

To designer Dick Powell, the cloakroom wasn't an afterthought, it was a fresh and challenging brief. Consequently, Dea takes on a smaller space with an attitude of no compromise. None of its charm or sophistication is lost in the scaling-down process, and ingenious storage saves the day.

Whether you're updating your cloakroom or building a new one, the Tonic II range has the flexibility to work in even the smallest spaces. Toilets, basins, furniture and accessories combine cleverly in different configurations, always achieving the same clean, uncluttered aesthetic.

When planning your cloakroom, Softmood provides a tailored solution. With its slim, uncomplicated profile, the Guest basin and its accompanying storage unit drops into a limited space with quiet ease.

Strada's absolute purity of form naturally lends itself to a restricted environment. The handrinse countertop basin represents a perfect exercise in exact ergonomics. And the fact that it can sit on a unit or bespoke shelf makes it simple to incorporate.

MIXERS & TAPS

BUILT TO LAST
WITH SELECTED SITES AND
FACTORIES BASED IN EUROPE,
WE ARE ABLE TO UPHOLD
THE HIGHEST STANDARDS
IN EVERYTHING WE DO.
MANUFACTURING EXCELLENCE
IS OUR HALLMARK, AND OUR
GUARANTEE IS OUR PROMISE
TO OUR CUSTOMERS.

QUALITY GUARANTEED

Ideal Standard products are built to last; that's our guarantee to you. We know that you need durable mixers and taps that can handle the constant demands of a modern family home, so everything we make exceeds British and European standards and is subject to extensive life testing. Manufactured in Germany, the home of engineering excellence, and using high-quality materials, all our products come with a comprehensive five-year guarantee.

BRILLIANT PERFORMANCE

A mixer or tap that works perfectly is always our aim, whatever your system. Over the years, we've developed some very exciting technology to meet your changing needs. In fact, many of the great engineering advances in tap manufacture began life on the Ideal Standard drawing board. We manufacture products that give you maximum flow rates, that are easy and safe to use and that deliver water efficiency, so you can save money and do your bit for the planet.

Ideal Standard factory, Wittlich, Germany

TONIC II

TIMELESS DESIGN, CUTTING-EDGE TECHNOLOGY

Tonic II's striking selection of fittings includes basin mixers, bath fillers and bath shower mixers. Their clean lines and elegant curves will bring a purity of style to any bathroom. The number of choices available creates opportunities to try different combinations of mixers, ceramics and furniture to find the one that's just right for you.

Performance is just as important as looks. From swivel aerators with integral 5 litres per minute flow regulators for water saving to temperature limiters that keep mixers cool for comfort, advanced functionality delivers safety and comfort at all times.

For a bold design statement, choose our high spout basin mixer. Classically timeless, it will elevate your bathroom to another level. Extra comfort and efficiency come as standard, with pioneering ceramic disc cartridges allowing easy control of water flow and temperature.

Whether you're choosing a guest basin for a small space or creating an eye-catching statement with an asymmetric vessel, there's a perfectly proportioned mixer to complete the look.

Safety comes first with our temperature limit stop. You decide the maximum water temperature that's right for you, and safe for your family. Even when the handle is fully open, the temperature remains safe. As the water's running, swivel aerators reduce splashing and flow-regulating aerators limit flow to an efficient 5 litres per minute, helping you to cut down on wastage.

The slender profile and restrained elegance of Tonic II's floor standing bath shower mixer makes it the natural companion to our iconic free standing bath.

Our sleek thermostatic Tonic II Easybox slim shower mixer has been designed to fit into a 43mm cavity wall and can be used with any of our Idealrain showers. A sense of well-being is guaranteed, with double sealing for superior water tightness and just the right amount of heat ensured by our thermostatic cartridge.

MELANGE

ADVANCED ENGINEERING MAKES A TIMELESS STATEMENT

Simple and beautifully understated, Melange is a timeless range of fittings that will blend effortlessly into any bathroom. Its simplicity belies the depth of advanced functionality that runs throughout this range. From the elegant waterfall basin mixer to retractable shower set and CLICK technology for water saving, Melange offers your home high performance, comfort and safety.

Designed by one of Europe's leading design teams, Artefakt, Melange's sensual, contemporary lines are hugely tactile and will harmonise perfectly with almost any bathroom style.

For your ease and comfort

Melange features Ideal Standard's pioneering multiport ceramic disc cartridge technology which means you can control both flow and temperature from a single, easy-to-handle lever.

Safety first

Our temperature limit stop is designed to keep your family safe by letting you decide the right temperature for you. Even when the lever is fully open, it remains safe to use.

Easy fitting

To make fitting simple and convenient, we've incorporated our patented EasyFix feature which makes it easier and quicker to tighten than conventional fixings.

Saving you water

Melange's CLICK technology helps you to reduce the amount of water you use by letting you 'feel' with a click when the tap is delivering half of its flow potential. It also features a 5 litre per minute aerated flow regulator so you can save even more water.

Safe, comfortable
bathing

The Melange free standing bath shower mixer takes all the graceful organic spirit of Melange and re imagines it in an elegant column arrangement. The slender profile makes it the perfect companion for the opulent Dea free standing bath. The bath shower mixer itself features a self-cancelling diverter beneath the spout that allows the flow to be switched instantly from the tap to the retractable hand-held shower.

AESTHETICS MEET PRECISION PERFORMANCE

Attitude is the ultimate fitting for the modernist. Its clean, minimalist lines combine with state-of-the-art functionality to bring you a highly superior product in looks and performance.

Created by European design team Artefakt, to enhance safety and maximise water saving in your home, Attitude has a range of innovative features including our clever Cool Body technology and a choice of outlets from simple stream to waterfall for an indulgent spa experience.

Classic outlet

Waterfall outlet

Easy temperature control

Thanks to the built-in ceramic disc cartridge in the body of the mixer, you can easily control the temperature of the water. The smooth, contoured lever allows you to control the flow of the water and avoid wastage.

Your choice of basin mixer

Attitude's basin mixers are available with a choice of outlets: classic or waterfall. The waterfall outlet requires a 1.5 bar pressure so if yours is a low pressure installation, our classic outlet is preferable. This should be fitted with a flow straightener. The classic version is also supplied with a flow regulator to limit the flow to 5 litres per minute, enabling you to save water.

Safety for your family

You can protect your children from scalding with our temperature limit stop. Attitude fittings allow you to set your desired level of heat from a number of preset temperature positions. Not only that, our Cool Body feature on all fittings in the range means young fingers stay safe at all times.

Enjoy the best flow rates

Our multiport ceramic disc cartridge inside our single lever basin and bath filler means you're guaranteed the best flow rate, even at UK low pressures. The multiport cartridge on the bath mixer is an important design consideration if you want matching fittings that perform to the same exacting standards.

Save water, cut costs

CLICK technology on Attitude's basin and bidet fittings means you can save water and do your bit for the planet and your purse. Simply lift the handle and you feel a click. This tells you you're using 50% of the water flow; lift it further and you will achieve maximum flow.

ULTRA MODERN WITH MORE THAN A HINT OF LUXURY

Moments is an award-winning range of mixers and taps, the result of our collaboration with German design team, Artefakt. Part of a collection that includes washbasins, furniture and baths, the range, with its gentle curved profile, exudes luxury.

Unique design feature

Artefakt's novel wall-mounted bath shower mixer, which won the Red Dot Design Award in 2005, features a swivel spout that diverts the water from bath fill to shower mode. Please note, this mixer works on high pressure installations only.

Controlled bathing for your comfort

Moments also gives you maximum temperature and flow control in the bath with its Exofil combined bath filler waste and overflow option with remote mixer valve. Please note, this mixer works on high pressure installations only.

PURITY IN PARALLEL

Designed by Artefakt, our beautiful collection of mixers and taps for the Strada range takes the sleek aesthetic to a new plane. The precisely flat surfaces on both spout and lever are the key distinctive feature, but these strong horizontal lines are counterbalanced by the soft-curved pillar that supports them.

PERFECT FOR EVERY BATHROOM FUNCTION

A well-considered range

Strada's comprehensive product range includes mixers and fillers for basins, bidets, baths and showers. Thoughtful design results in optimum comfort and flexibility throughout. For instance, the four-hole bath and shower mixer features a retractable handspray hose and handles that can be mounted away from the spout.

Flow and function

Most mixers and taps in the Strada range are suitable for both low and high pressure, and, in the interests of water efficiency, each basin mixer is fitted with our eco flow regulator as standard. With safety in mind, the design features an adjustable temperature limit stop to prevent the chance of scalding. Unique to the range is a swivel outlet to adjust the direction of the flow stream. Finally, our own EasyFix system enables an effortless and quick basin and bidet installation.

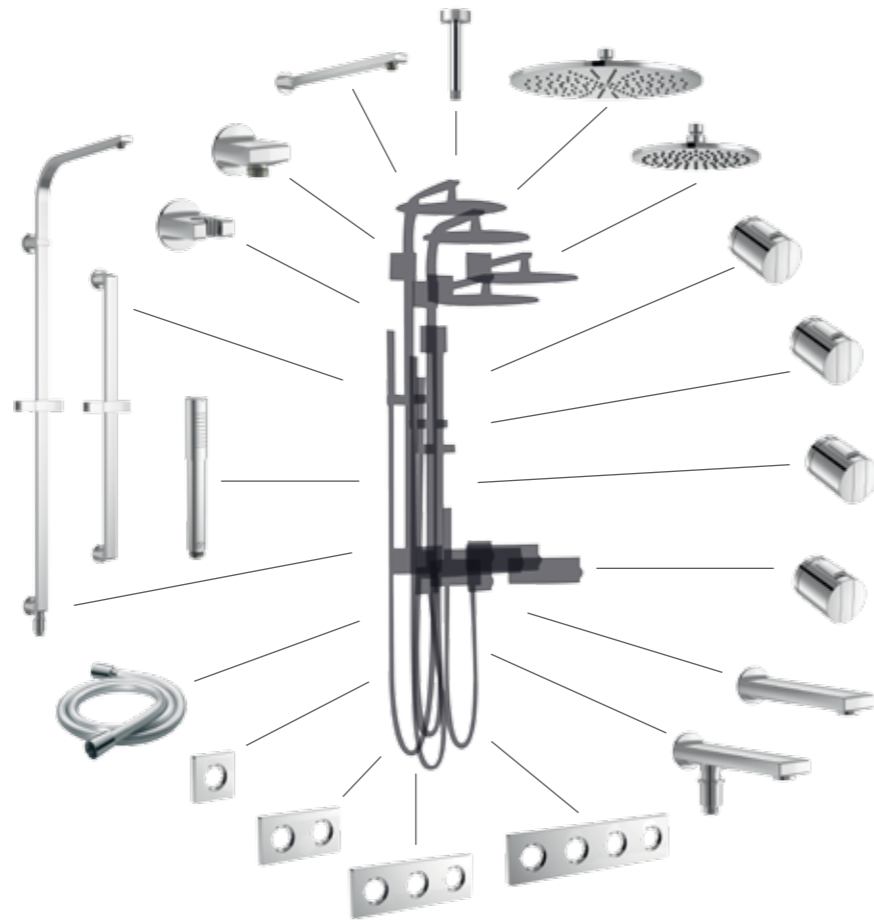

DESIGN FREEDOM, AESTHETIC PERFECTION

Tailored solutions

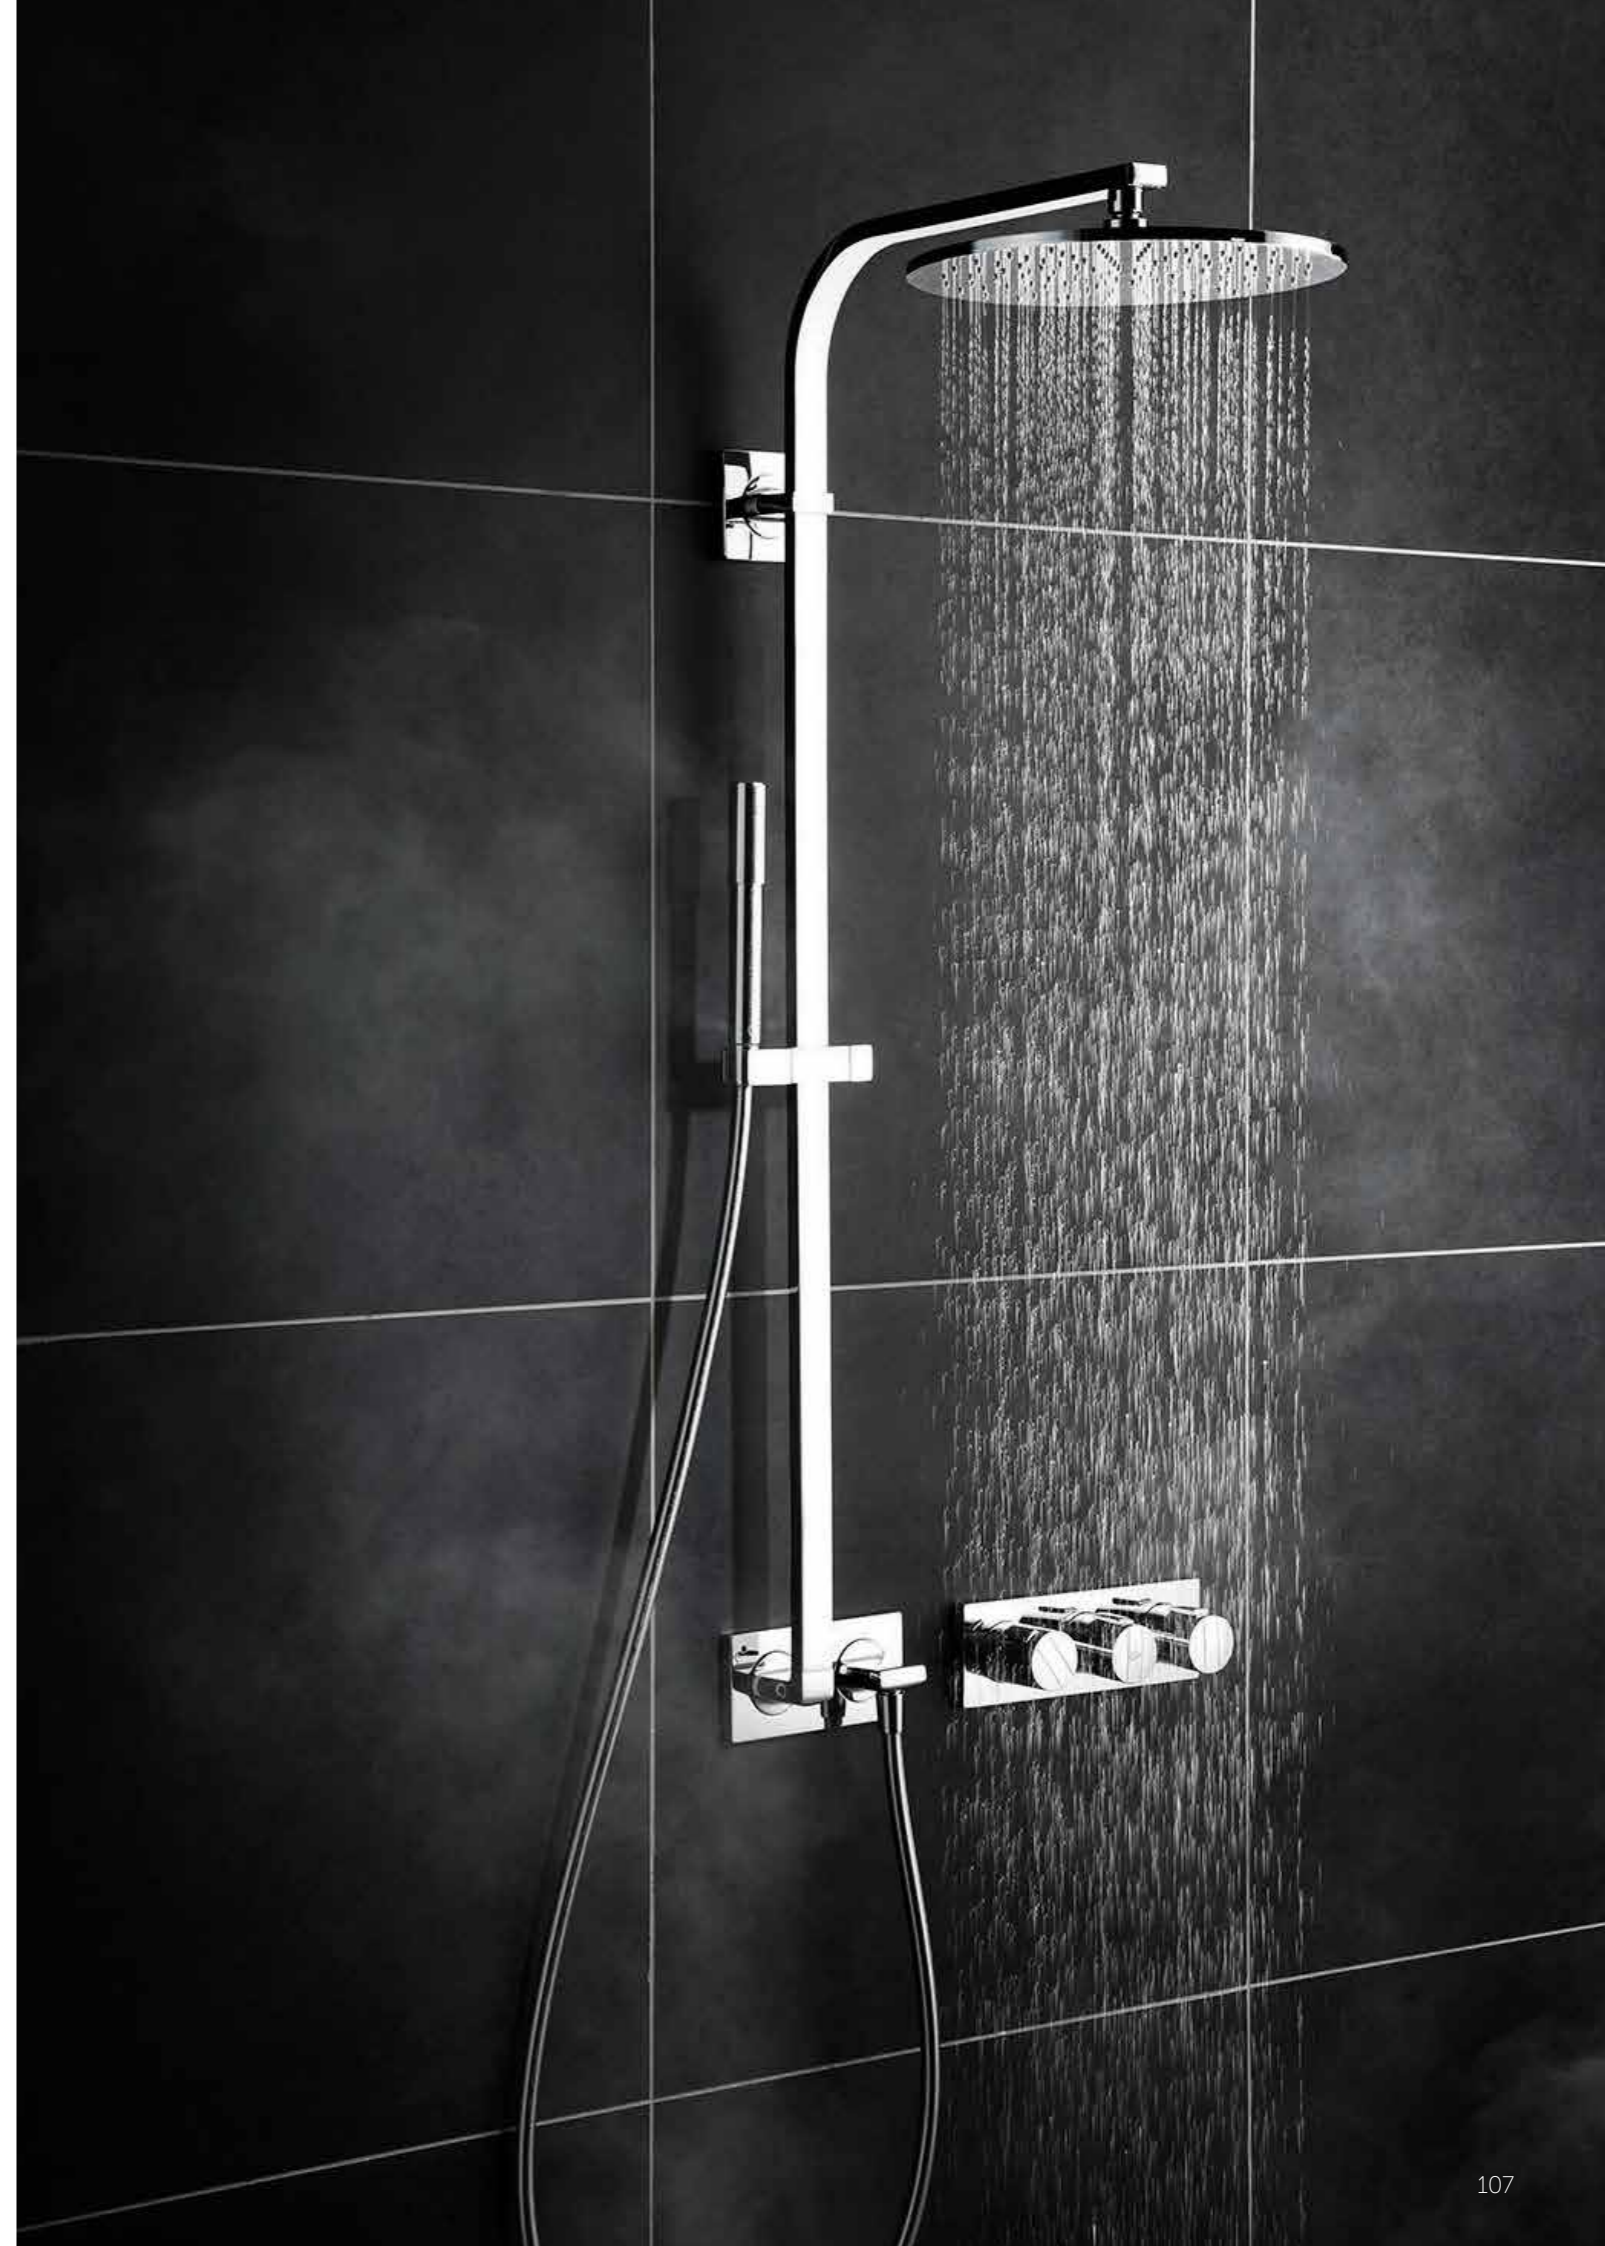

This new generation of stylish modular fittings enables you to configure your own unique solution, tailor-made to suit your needs and your space. Innovative technology guarantees a flawless look every time, even on unusual tile sizes and unevenly plastered walls.

Modular flexibility

Archimodule's pioneering modular concept offers complete design freedom. Select the components you require and position them where you like; there are countless possible combinations, so you can build a shower or bath system that matches your requirements exactly, from functionality to aesthetics.

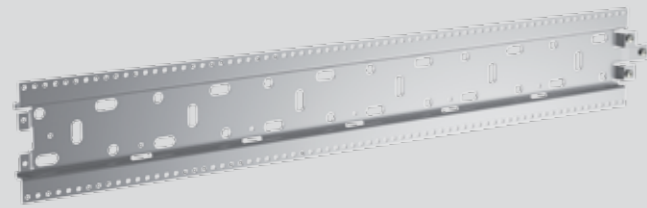

Assemble your ideal system using our online configurator at www.archimodule.idealstandard.co.uk/configurator.xhtml

IT'S ALL IN THE DETAIL

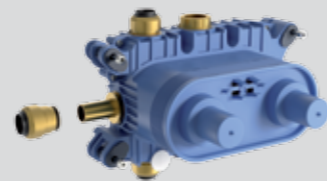

Easy, precise, time-saving installation – with flexibility built in. That's what you can expect from Archimodule, thanks to the system's state-of-the-art technology and top-quality engineering. Create your dream design with ease.

A SIMPLE EQUATION

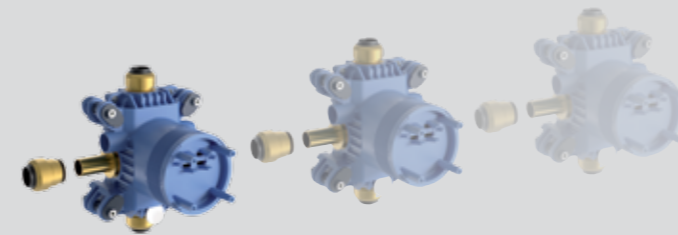

Mounting rail

The ingenious mounting rail makes it possible to arrange your chosen modules quickly and accurately. It allows convenient pre-assembly of the components, which can then be fitted in the wall as one unit.

Built-in thermostat unit

This unit, which houses the flow and temperature controls, is the foundation block of nearly every Archimodule configuration.

Built-in universal unit(s)

Most Archimodule solutions comprise a thermostat unit plus one universal unit for each function required. These are the only two flush-mounted units needed to create all the possible design permutations.

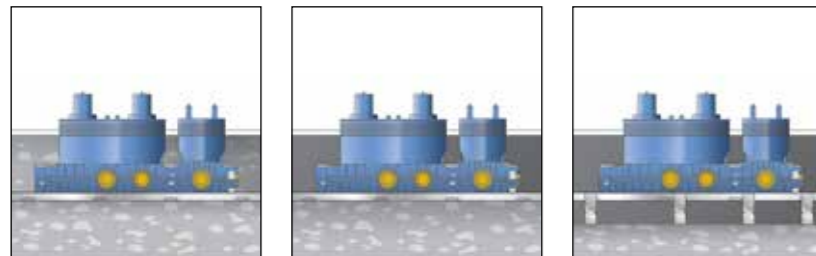

YOUR IDEAL SOLUTION

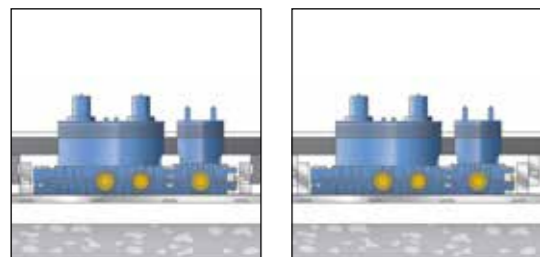

The simplified system makes ordering easy and leaves the design so flexible it can even accommodate last-minute changes.

Installation options

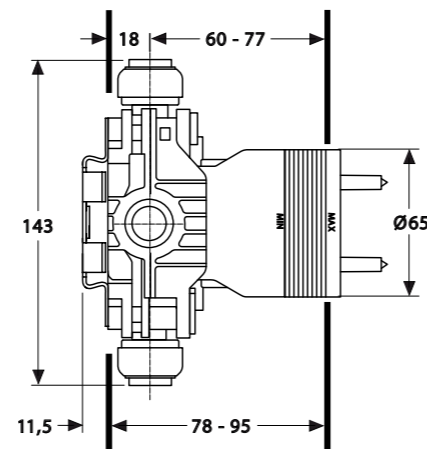

1. In the wall 2. On the wall 3. On supports proud of the wall

4. On the wall with a bracket 5. In a prefabricated bathroom or pod

Depending on the position of the installation, additional accessories may be required.

Installation depth

At just 78 to 95mm deep, Archimodule's flush-mounted units offer one of the shallowest installation depths available.

Guaranteed waterproof

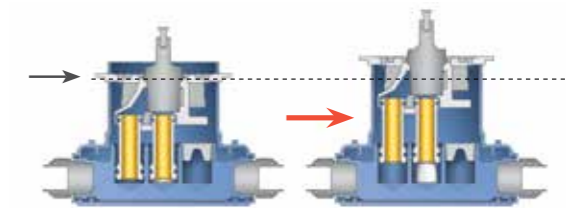

Every Archimodule assembly has triple protection against water penetration:

- escutcheon seals;
- a sealing sheet between the tiles and built-in units; and
- rubber seals where pipes connect to the body of a concealed unit, to prevent water seeping into the wall.

Uniform projection

The telescopic feature permits different installation depths of up to 17mm to be easily levelled.

Fast connection

Brass push-fit connectors make joining the flush-mounted modules quick and easy. All the connectors you need are supplied with the units, along with a special tool to loosen them.

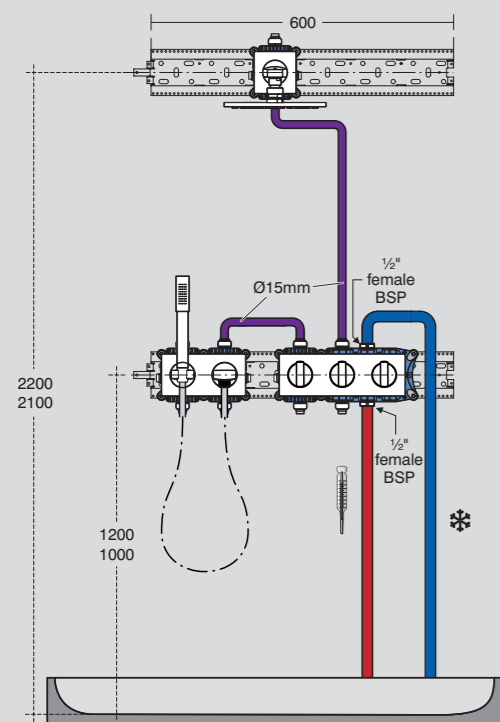

Innovative FAST-FIX features

- Protruding connectors to allow for easy push-fit assembly.
- Spirit-level support surfaces to aid alignment.

SHOWER ENCLOSURES & WETROOMS

LIVE LOVE SHOWER

When it comes to creating the shower you want, at Ideal Standard, we listen. That's why our ranges offer not just the very best design and quality, but respond to your every need.

All our shower enclosure collections offer the comfort and style you'd expect from Ideal Standard. Every piece is expertly designed and built using the highest quality materials and what sets them apart is their sheer usability, ensuring easy cleaning, simple maintenance and maximum enjoyment.

Choose the frame style you desire

We offer a wide choice of enclosures in a variety of styles. From frameless to semi-framed, to walk-ins and wetrooms, we've enclosures for every style of bathroom.

The frame finish also differs across each range to complement the styling. Check the matrix for details.

Choose your glass thickness

All Ideal Standard shower enclosures are manufactured from toughened safety glass. As tastes and budgets differ, a range of thicknesses are offered from 6 to 8mm.

Designer handles

Designed to last with a sleek, ergonomic finish and solid construction, handles look as good as they feel while withstanding the test of time. Careful consideration has been given to each design to ensure that not only is it comfortable to use with that door, but that it also shows off the enclosure.

FEATURES

Expert engineering means our collections are full of clever features which make them not just a pleasure to use every day but easy to install, clean and maintain. As each range is individual, check each door for applicable features.

Glass thickness

Toughened safety glass thickness.

Smooth-running wheels

Quality wheels mean doors glide along effortlessly and silently.

Rise and fall hinges

Ensure doors open and close with ease.

Idealclean

For glass that's easier to clean and stays cleaner for longer, reducing cleaning time by up to 90%.

Concealed fixings

The cover profiles click easily into place during installation and combine with top caps to ensure that all fixings are concealed.

Horizontal adjustment

Allows perfect fitting to out-of-true walls. Check each collection for adjustment values.

Horizontal and vertical adjustment

The profile can be adjusted both vertically and horizontally to allow fixing into grout lines rather than into tile centres.

Click and clean

The lower wheels and panels can be released to expose them for thorough cleaning. The panel then easily clicks back into position to create a watertight seal.

Power shower proof

The enclosures have been tested to ensure that they are power shower proof, so even with the most invigorating of showers the seals remain watertight.

Guarantee

All Ideal Standard shower enclosures are backed by our comprehensive guarantee.

Time saving

These units offer an installation feature that makes them quicker to fit.

TONIC

ELEGANCE UNLIMITED

Tonic makes sophistication look effortless. Frameless edges and dynamic shapes meet with high-quality finishes to create the ultimate in long-lasting contemporary design.

Timeless contemporary design

Clean lines, frameless glass and minimalist forms make for a style that never dates.

Size matters

With sizes including space efficient 800mm quadrants and 1400mm alcoves, the design's openness offers a more comfortable shower experience.

Dynamic design

Considered details such as the consistent styling of the hinge bracket and handle make for a more original and elegant design.

TONIC
CORNER,
HINGED DOOR

The Tonic range offers the versatility to accommodate different bathroom configurations. Tonic's Quadrant and Alcove door styles are designed to solve the most frequently occurring layout scenarios, while upholding the same high quality of design.

SYNERGY

STEP IN TO A NEW WORLD OF SHOWERING

With its semi-framed design and exposed glass edge doors, Synergy has been created to open out your shower space for seamlessness and harmony throughout your bathroom.

Contemporary look

Semi-framed edges bring a fresh, contemporary look and feel to your bathroom.

Flexible installation

Horizontal adjustment allows the perfect fit for your space.

Wide range

From space saving quadrants and pentagons to 1700mm sliding bath replacements, Synergy has all that you need.

Synergy 1700 slider

Following Synergy's guiding principle of effortless showering, the graceful swing of Pivot's doors inspires a feeling of luxury. The bare glass edges and concealed seals and fixings create a sensation of unencumbered lightness.

Our Synergy range offers both luxury and practicality, with a range of clever entry solutions to open up your bathroom planning options.

The Synergy Corner Entry shower features double sliding doors with click and clean wheels. Pentagon has a central pivoting door with exposed glass edge for a luxurious touch. And the Infold shower features a folding door mechanism and triple smooth running wheels. All come in a range of sizes and with a ten-year guarantee.

Sleek, minimal and confidently contemporary, our wide range of sensational Synergy wetroom panels will guarantee a bathroom with wow factor. Sealing channels, refined brackets and concealed fixings are the secret to a seamless finish.

TONIC/SYNERGY
BATH SCREENS

Ideal Standard bath screens allow you to benefit from the joys of both bath and shower. And, with standard folding and hinged screens in a range of different glass styles, there's one to complement any rectangular bath.

PRODUCT INFORMATION & PRICE LIST

Our 100 years of experience gives us complete confidence in the quality and reliability of all Ideal Standard products, many of which are backed by long guarantees for your lasting peace of mind. Our products have been designed to make your planning easier and set your imagination free. All dimensions are shown in millimetres.

Hand spray	A1508AA	£78.72
Rainshower	A1509AA	£78.72
Side spray	A1510AA	£78.72
Bath or basin	A1511AA	£78.72
Cold water (Blue)	A1522AA	£72.52
Hot water (Red)	A1523AA	£72.52

- Includes fixing to universal unit
- Symbol for water outlet on collar (except cold and hot)
- ECO saving button (except cold and hot)
- Chrome plated

Archimodule temperature control

Model	Ref.	Price
Temperature control	A1512AA	£60.88

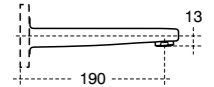

- Includes fixing to thermostat unit
- Red/blue marking on collar
- ECO saving button
- Chrome plated

Archimodule Wall spout

Model	Ref.	Price
Wall spout	A1513AA	£150.74

- **A1513AA** £126.40
- Includes fixing to universal unit
- Cast spout, projection 190mm
- With aerator
- Without escutcheon
- Chrome plated

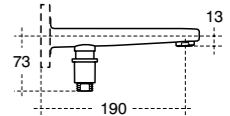

Archimodule wall spout (with integrated diverter)

Model	Ref.	Price
Wall spout with integrated diverter	A1514AA	£217.43

- Includes fixing to universal unit
- Cast spout, projection 190mm with aerator
- Integrated automatic diverter with backflow preventer at the shower outlet
- Without escutcheon
- Chrome plated

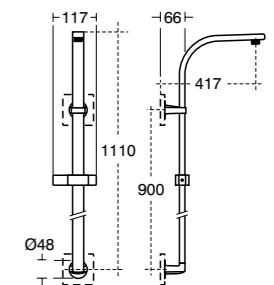

Archimodule Shower system (without rainshower)

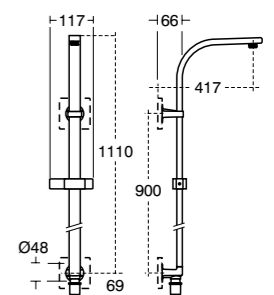

Model	Ref.	Price
Shower system	A1530AA	£550.76
Shower system with integrated automatic diverter	A1531AA	£681.23

- Includes fixing to universal unit
- Water-bearing shower rail
- With integrated wall elbow
- With rotating slider
- Connection for shower head 1/2" male
- Without escutcheons
- Chrome plated

with integrated diverter

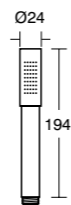

Archimodule Stick handspray

Model	Ref.	Price
Stick handspray	A1519AA	£57.97

- Single-function
- Connecting thread 1/2" male
- Chrome plated

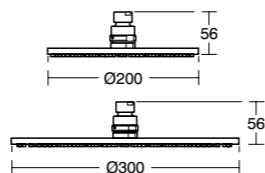

Archimodule Idealrain rainshower

Model	Ref.	Price
Ø300mm	B9443AA	£346.72
Ø200mm	B9442AA	£135.12

- Connecting thread 1/2" male
- With ball joint
- Pivots through 10°
- Anti-limescale
- Chrome plated

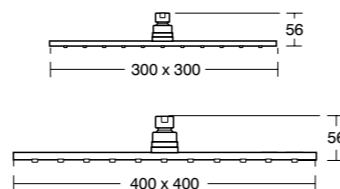

Archimodule Idealrain rainshower

Model	Ref.	Price
300 x 300mm	B9844AA	£398.95
400 x 400mm	B9845AA	£538.92

- Connecting thread 1/2" female
- With ball joint
- Pivots through 10°
- Anti-limescale
- Chrome plated

Archimodule Wall connection 370mm

Model	Ref.	Price
Wall connection 370mm	A1524AA	£180.88

- Wall connection for shower head
- 1/2" male
- Includes fixing to universal unit without escutcheon
- Chrome plated

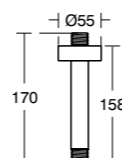

Archimodule Ceiling connector 150mm

Model	Ref.	Price
Ceiling connector 150mm	B9446AA	£47.09

- Ceiling connector for shower head 1/2" male
- Includes escutcheon
- Chrome plated

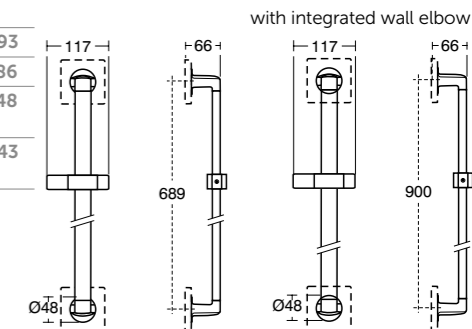

Archimodule Shower rail

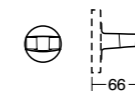

Model	Ref.	Price
600mm	A1526AA	£302.93
900mm	A1528AA	£318.86
600mm with integrated wall elbow 1/2" male	A1527AA	£374.48
900mm with integrated wall elbow 1/2" male	A1529AA	£390.43

- Includes fixing to universal unit with rotating slider
- Without escutcheons
- Chrome plated

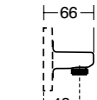

Archimodule Wall bracket for handspray

Model	Ref.	Price
Wall bracket for handspray Includes fixing to universal unit	A1520AA	£60.88

- Without escutcheon
- Chrome plated

Archimodule Wall elbow

Model	Ref.	Price
Wall elbow	A1521AA	£100.19

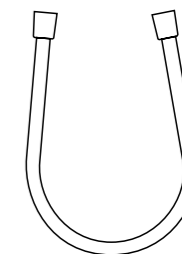

- Includes fixing to universal unit
- Includes backflow preventer
- DVGW approved as intrinsically safe (German Technical and Scientific Association for Gas and Water)
- Connecting thread 1/2" male without escutcheon
- Chrome plated

Archimodule Idealflex shower hose

Model	Ref.	Price
1.25m	A3306AA	£35.78
1.6m	A3330AA	£40.07
1.75m	A4109AA	£49.92

- Smooth metal effect connecting thread
- 1/2" female x 1/2" female
- Chrome plated

WWW.IDEALSTANDARD.CO.UK

Important installation and maintenance information

A key element in the performance of a bathroom is the quality of the installation. We recommend you use a plumber from a registered association (see below) and consult him (or her) right from the start. Your local Ideal Standard stockist may offer a plumbing service or, if not, will be able to recommend a qualified plumber.

Recognised plumbing associations

Association of Plumbing & Heating Contractors (APHC)

www.aphc.co.uk Tel: 0121 711 5030

The Chartered Institute of Plumbing and Heating Engineering

www.ciphe.org.uk Tel: 01708 472791

Scottish and Northern Ireland

Plumbing Employers' Federation

www.snipef.org Tel: 0131 556 0600.

Important cleaning information

It is important to clean your shower door after every use, wiping down all the glass and metal parts with a soft cloth and removing any residual water.

Clean regularly with warm soapy water to avoid limescale build up, especially in hard water areas. Limescale that is allowed to build up will be difficult to remove.

Do not clean with gritty or abrasive products; they will destroy any surface coating or protection.

Never use powder detergents. Liquid detergents may be used if they are free of alcoholic substances.

Never use products such as ammonia, acetone, alcohol and the like because they may permanently damage the shower enclosure.

Care should be taken to avoid contact with strong chemicals such as organic solvents and strippers.

Guarantee

Our confidence in the quality and reliability of Ideal Standard products enables us to guarantee many of them for a lifetime.

Our guarantee is offered on all products that have been used in the manner for which they were intended, and does not apply to any products that have been misused or abused in any way. Products must be installed and cared for in line with our fixing instructions and local water by-laws. In the unlikely event the product fails within the guarantee period, we offer a free replacement or replacement part (or nearest equivalent). Liability is limited to individual products and does not cover consequential loss or damage on installation.

1. All ceramic products are guaranteed for a lifetime.
2. Idealform and Idealform Plus+ acrylic baths are guaranteed for 25 years from date of purchase.
3. Showers, bath panels, furniture, mixers and taps, WC suite seats and cistern fittings are guaranteed for five years from date of purchase. (Cistern and shower door seals are not included. Replacements can be found on our Fastpart website www.fastpart-spares.co.uk).
4. Shower enclosures, wetroom panels and bath screens are guaranteed for ten years and shower trays for 25 years.
5. Parts (including push button flush valves) are guaranteed for five years and will be replaced if found to be faulty.
6. Cistern diaphragms, seals and shower seals are not included. Replacements may be purchased through our parts supply service.
7. When your bathroom has been satisfactorily installed and is working well, please ensure you register your guarantee.
8. The guarantee is transferable "it applies to the product not the purchaser" provided guarantee registration details are passed on to the new owner.

Conditions

1. This guarantee applies only to products purchased and installed in the United Kingdom or the Republic of Ireland.
2. Proof of purchase is required in the event of a claim.
3. Provision of the barcode/serial number will be required to enable product identification.
4. We must be given the opportunity to inspect the product, if we request to do so. The product should not be removed or destroyed before inspection without our consent. We may request photographic evidence in any investigation.
5. The product must have been installed, used and cared for in accordance with our instructions for installation and care. In addition, the products must have been installed in accordance with good plumbing practice.
6. Where our on-site investigation reveals that the reported fault was not due to manufacturing or materials defect a callout charge will be applied.
7. Where we are satisfied that a defect has arisen because of faulty manufacturing or materials we will, at our option, repair or replace the product free of charge to you. If we choose to replace the product and we no longer manufacture the identical model we will replace it with the nearest equivalent in our then current range.
8. This guarantee does not apply to general wear and tear or where, in our opinion, the product has been modified, misused, neglected or wilfully or accidentally damaged.
9. This guarantee does not cover consequential damage or loss.
10. This guarantee does not cover damage and/or malfunction caused by inappropriate cleaning (please refer to our recommended care and maintenance guidelines).
11. Mildew build up, the effects of limescale and corrosion are not covered under this guarantee.
12. Glass breakage and any consequential damage. (All glass used conforms to EN12150-1 where applicable.) Breakage of glass is not covered by the guarantee as glass by its very nature can shatter.
13. Warranty is not transferable in cases where product is reinstalled in subsequent locations.
14. Idealclean glass coating is covered by a one-year guarantee. (Subject to appropriate maintenance and cleaning).
15. Non glass or metallic spare parts (e.g. seals and bearings) are subject to normal wear and tear through usage and are therefore covered on all products for two years from installation. These parts will be charged thereafter. Thereafter, such parts are available for purchase through our parts supply service.
16. This guarantee does not affect your statutory rights.

Ideal Standard pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice.

While great care has been taken to ensure accuracy of all prices, product codes, descriptions and dimensions, Ideal Standard reserves the right to correct errors or misprints. Colour reproduction is as accurate as possible within the limitations of the printing process.
