

A black, rectangular Geberit flush plate is shown being inserted into a light-colored, textured stone surface. The plate has a small gold-colored detail at the top edge. The Geberit logo is visible on the side of the plate. The background is a close-up of the stone surface.

■ GEBERIT

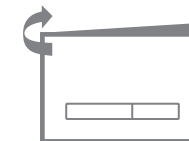

GEBERIT FLUSH PLATES

# CHOICE IS IMPORTANT

DESIGN  
MEETS  
FUNCTION

# MAKE IT YOUR OWN

**It's not just any bathroom, it's your bathroom.** You select the tiles that reflect your style. You refuse to compromise in the selection of the tap for your washbasin. And here you will find just the right flush plate for the WC to give your bathroom the crowning touch and pamper you with comfort functions. Because Geberit combines visual elegance with innovative functions.

## WHY NOT TRY OUT YOUR OWN DESIGNS?

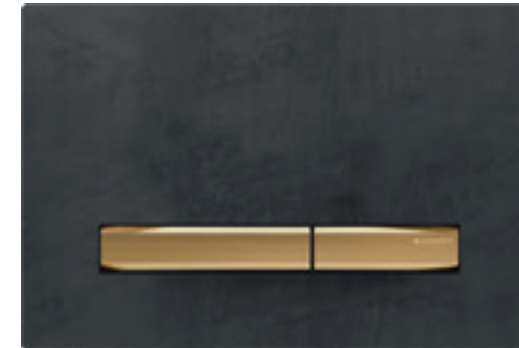

We have included actual-size illustrations of various flush plates in the brochure for you. Fold back the left-hand side of the brochure, hold the design up to the wall and let your imagination run wild! Use these actual-size samples to select the flush plate that appeals to you.

# YOUR BATHROOM, YOUR DESIGN

Select the flush plate that appeals to you.

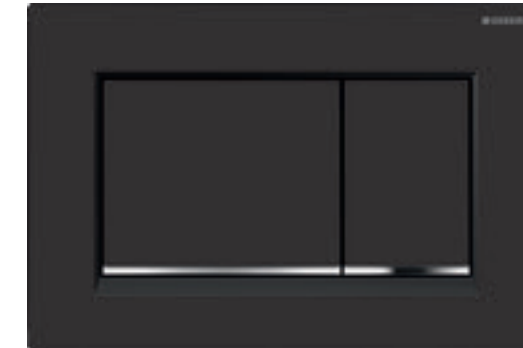

## DESIGN & TRENDS 06

## RECTANGULAR 30

## INDIVIDUAL 72

Geberit actuator plates Sigma21, Sigma50 and Sigma70

## GEBERIT DESIGN FAMILY 80

Seamless design.

## GEBERIT FUNCTIONS 84

Choice is important.

# PRECIOUS METALS

Selecting the right design options for a bathroom means ensuring that individual nuances are perfectly coordinated. Flush plates in new, fashionable metal colours are the perfect match for the latest trends in taps, while plates made of glass, concrete-look solid surface materials or natural mustang slate and black walnut blend harmoniously into almost any decor style. The ideal combination for your dream bathroom is just waiting for you to discover it.

## REDGOLD

With its intense copper tone, red gold exudes a high-quality sense of warmth in bathrooms and makes a strong statement when combined with luxury surfaces in light or dark shades.

# GEBERIT SIGMA21

The warm, gleaming tone that brass exudes in these borders vividly accentuates the flush buttons.

# BLACKCHROME

The subtle elegance of black chrome is the perfect complement to the dark colours and sharp contrasts between dark and light featured in today's bathroom trends.

# GEBERIT SIGMA21

Whether they use a contrasting or tone-in-tone effect, the delicate, black chrome borders around the buttons add a distinct graphical element to the flush plate.

# CHROME

This classic choice of metal for the bathroom reveals a completely new side when glossy and matt brushed elements are paired with on-trend plate materials.

# GEBERIT SIGMA21

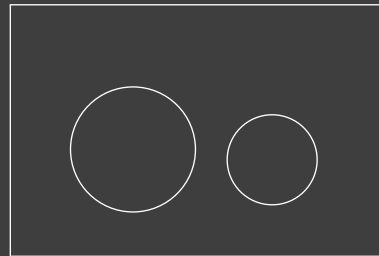

Set in a concrete look for a loft effect or in a natural walnut surface, chrome borders make a real statement. Sigma21 plates with chrome borders are also available in other colours and with other surfaces.

# BLACK ON BLACK

Black is beautiful – and this fashionable interior design colour is now popular in the bathroom too. Geberit's unadulterated interpretation features a stimulating interplay of glossy and matt elements.

## WHITE ON WHITE

Refined matt and glossy surfaces reveal a different side to this classic choice for bathrooms. Design rings and stripes maintain a tone-in-tone look and create subtle accents.

# GEBERIT SIGMA20

Set on a glossy or matt surface, these button borders live up the classic basic colours of black and white. The matt-coated areas feature surfaces that are easy to clean.

See page 34 for further Geberit Sigma30 variants.

# AESTHETICS AND FUNCTION

**Unobtrusive yet reliable.** Geberit ensures supreme convenience and durability, all from behind the wall. All that remains visible is the interface with the technology: the flush plate. The selection of flush plates is important because you will live with your selection for years. Choose the flush plate that best suits you and your bathroom from a wide range of options.

New ideas and functions can always be derived from a rectangular shape. This is how Geberit enables you to come up with a contemporary, personalised bathroom design.

# THE PERFECT SHAPE: THE CIRCLE

**Aesthetic curves for a relaxing bathroom experience.** It is impossible to improve on circles; they can only be restaged and rearranged. Geberit flush plates use new interpretations of round forms to adapt to today's trends. You can choose from with or without rims, finely honed edges, harmoniously adjacent, or flowing one into another. Either way the result is always well rounded.

# GEBERIT SIGMA01

# NO-TOUCH FLUSH

**Electronic hygiene.** Recent surveys have revealed that fewer and fewer bathroom users are happy to actuate the flushing process manually – instead, they are increasingly looking for sanitary technology that features touchless operation. By offering electronic toilet flush plates using infa-red sensors, Geberit has a solution to meet this growing demand. And while it requires your toilet to have an electrical connection, this is a feature that is fast becoming the norm.

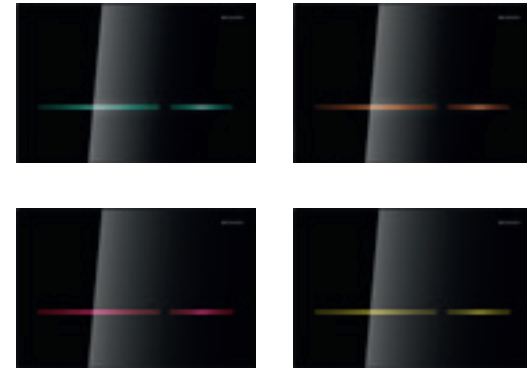

# GEBERIT SIGMA80

- Water-saving dual flush actuation.
- Touchless flush plate.
- Surface made of high-quality glass.
- Durable LED lighting in five colours.
- Sensor-controlled switch-on function.
- Multiple award-winning design.

# CUSTOM DESIGNED

**Your bathroom, your design.** Create a bathroom like no other and a design that's entirely yours. Make your bathroom your own with an entirely individual selection of product materials (for example tiles) or designs. You can personalise the surface selections for the Geberit flush plates Sigma21, Sigma50 and Sigma70. Use surfaces that are perfectly matched to your bathroom or pick out your favourite motif. Your creativity need know no bounds.

Contact us for further assistance.

# GEBERIT CISTERNS SIGMA AND OMEGA FOR ANY APPLICATION

**So that everything matches:** used in combination with the matching concealed cistern, Geberit flush plates in the Sigma range cover a wide variety of applications and comfort functions. The Geberit flushing system Omega offers great flexibility and particularly small flush plates. Both flushing systems offer tool-free final installation and guaranteed spare parts availability for 25 years.

You therefore have a wide selection of both Geberit flush plates and reliable Geberit frames for installation behind the wall. Geberit flush plates bear the name of the suitable cistern so that you can be certain that everything will match.

**Geberit Sigma concealed cistern**

- Height 112 cm and 98cm
- Front actuation
- Barrier-free, height adjustable models available
- Compatible with all touchless flush plates
- Suitable for Geberit remote flush plates

**Geberit Omega concealed cistern**

- Completely flexible with heights of 112 cm, 98 cm and 82 cm.
- Front actuation.
- Additional top actuation with heights 82 cm and 98 cm.
- Particularly small flush plates.
- Suitable for Geberit remote flush plates

## CHOICE IS IMPORTANT

**Intelligent functions from Geberit.** At Geberit we design state of the art products that create convenience and tranquility in your bathroom. From touchless flushing, elegant colour effects, and the removal of unpleasant smells, Geberit products enhance the time you spend in your bathrooms. And because durability and reliability are as much a part of Geberit as good design, you will enjoy your selection for years to come.

# GEBERIT REMOTE FLUSH PLATES MORE CONVENIENT BY FAR

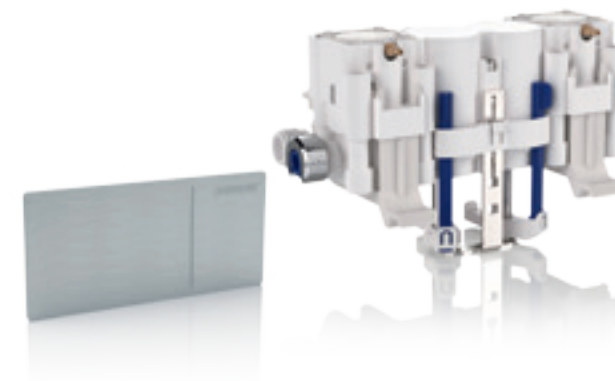

**The optimal solution.** Regardless of the construction situation, using a remote flush plate can be the right choice. If the design for the toilet flush control calls for small but elegant, or the flush plate at a different location, Geberit offers a variety of remote flush plates with pneumatic force transmission, which can be placed anywhere within a 1.70 m radius of the concealed cistern.

→  
**TESTED A THOUSAND TIMES**  
The pneumatics of the Geberit remote flush button type 01 and type 10 have been tested for years of stress. The technology is based on air pressure (not on electrical current).

←  
**A TOUCH MORE REFINED**  
Thanks to the hydraulic servo lifter, just a gentle touch is sufficient for flush actuation with the Geberit remote flush button Omega70. No electrical current is required for this.

→  
**QUITE DISCREET**  
Available as they are in a variety of colours and product materials, the Geberit cover plates open up new design opportunities. A tile-bearing version is available for a particularly discreet appearance.

GEBERIT DUOFRESH INSERT  
FOR IN-CISTERN STICKS

## HYGIENIC FRESHNESS FOR WEEKS

**Pull the flush plate aside, insert the block, then close the plate.**

That's how easy it is to ensure weeks of hygienic freshness with the insert for in-cistern blocks. The optional insert is suitable for most Geberit flush plates in the Sigma range and can even be installed by a plumber at a later date. It guides the in-cistern block down a chute to a fixed position below the surface of the water in the cistern. Once there, the block dissolves slowly and ensures hygiene and cleanliness in every flush throughout the entire WC ceramic as well as providing a fresh fragrance.

- 1 It doesn't get any simpler than this: pull the flush plate aside.
- 2 Place the in-cistern block into the insert behind the plate.
- 3 Close the plate and enjoy the freshness with every flush.

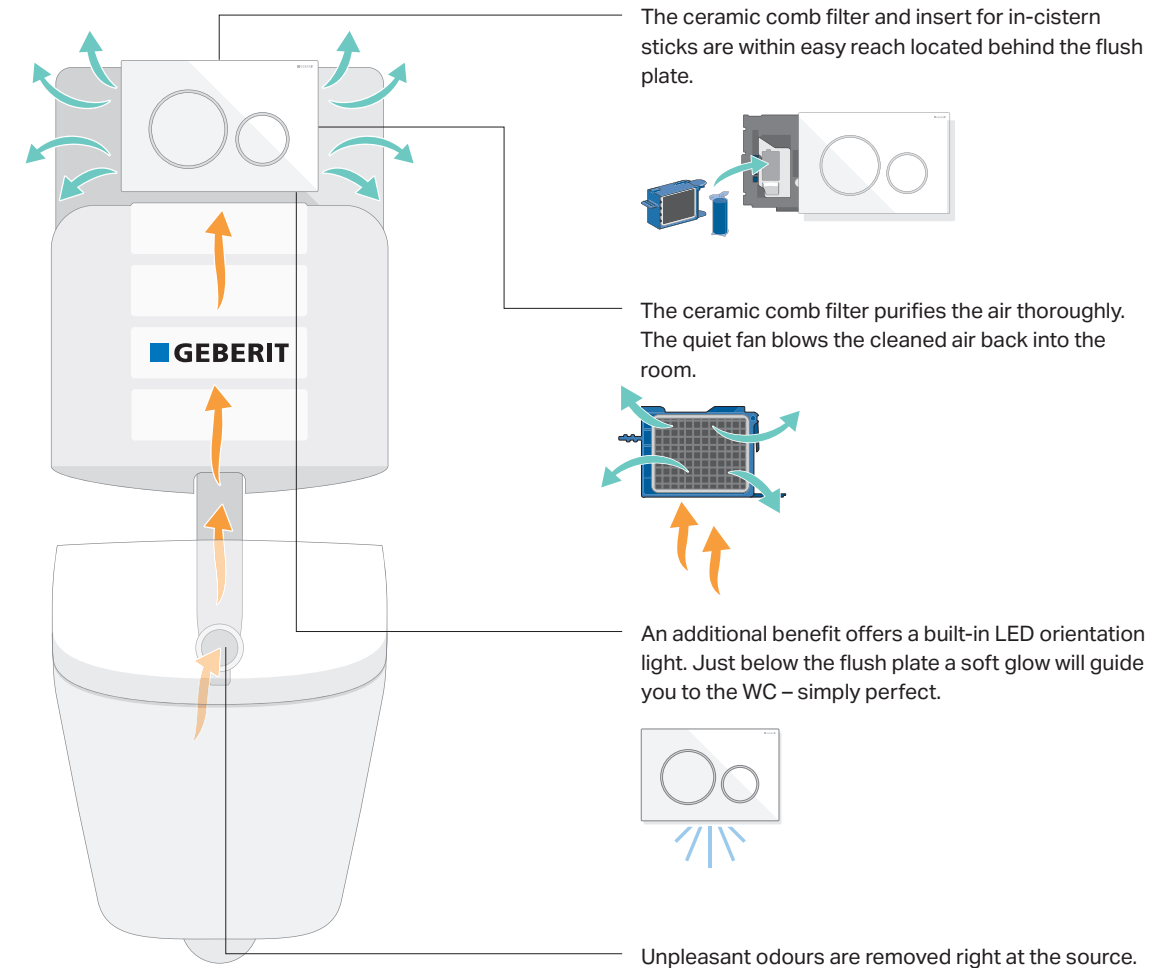

→ INSERT FOR IN-CISTERN BLOCK

# FRESH AIR FOR EVERYONE

**Unpleasant odours in the toilet are a thing of the past.** What is long since standard over every kitchen oven can now be applied in the bathroom. An effective way to get rid of unpleasant odours, the Geberit DuoFresh module removes the bad air directly from the toilet, purifies it using a ceramic honeycomb filter, and then returns it to the room. This is extremely effective, as it prevents unpleasant odours from spreading throughout the bathroom in the first place. Thanks to a proximity sensor, the odour extraction always switches on automatically as soon as someone sits down. The odour extraction is therefore also a great idea for guest WCs. Benefit from additional comfort thanks to an LED orientation light and the insert for in-cistern sticks. The Geberit DuoFresh module can be easily installed in any Geberit Sigma cistern and can be combined with almost any flush plate from the Sigma range.

TOUCHLESS FUNCTION

# AESTHETICALLY HYGIENIC

If you're looking for hygiene and freshness without compromise, we offer flush plates that fulfil your wish. Without pressing a button you can always flush hygienically.

Touchless flush plates for WCs and urinals are available in suitably matched designs.

# TODAY'S TOILETS ARE MOVING WITH THE TIMES

**Electrical connections now come as standard.** After all, you expect your bathroom to reflect your changing needs as well as the lifestyle trends that the future is likely to bring. In Geberit WC installation elements, you'll find everything completely prepared for the future – so it can accommodate any changes you might want to make, like retrofitting a Geberit AquaClean shower toilet, a convenient odour extraction unit, or installing the touchless Geberit flush plate Sigma80.

- 1 Geberit DuoFresh module with integrated orientation light. Suitable for several flush plates of the Sigma series.
- 2 Touchless Geberit flush plate Sigma80, glass reflective.
- 3 The Geberit AquaClean Mera shower toilet with outstanding design and numerous comfort features.
