Commercial **products**
and **support**

Why **Epwin**?

Epwin is the UK's largest manufacturer and supplier of PVC-U window and door systems.

Having added a ground-breaking aluminium system to our portfolio, we now offer the most complete range of solutions for the commercial sector alongside unrivalled support. We're a British-based business, committed to high environmental standards and responsible manufacturing.

We have been in business for over 40 years and are home to the UK's most widely specified PVC-U systems. These have been used for projects across the country and for almost every type of building. Whatever your project, we have a product range to suit. Our brands give you unbeatable choice and versatility. Profile 22, Spectus, Swish, and now Stellar – our aluminium system – set the benchmark others strive to reach.

Outstanding products are backed by industry-leading technical and specification support. Our knowledge of standards, contracts, building regulations and the construction industry is both comprehensive and practical. We offer support at every stage of the project, from a no-obligation consultation to a full specification, survey and structural calculations. We are by your side every step of the way.

Our Systems

We are the most successful supplier in the industry with a choice of leading brands and fully integrated systems.

Each brand has its own distinctive qualities, based upon a combination of application, proven design and technical knowledge. Our production and quality systems use state-of-the-art technology to ensure the highest standards of precision, finish and performance.

In addition, we offer the benefit of Safeware hardware, cavity closers and a proven, cost-effective curtain walling system. We are the one supplier who can deliver all your requirements with the reassurance of compatibility, quality and seamless service.

Four distinctive window and door systems provide solutions for every opportunity:

Profile 22

Optima is an award-winning product that has established itself as the commercial system of choice.

Spectus

Suites with the most comprehensive range of fully integrated ancillaries for complete versatility.

Swish

Twenty-four Seven is a retail-focused brand known and trusted by 7 out of 10 homeowners.

Stellar

The latest addition to the Epwin Window System portfolio, Stellar has been designed from the ground up to deliver over and above any other aluminium system on the market.

Epwin Window Systems

Specification **Support**

Whether your project is refurbishment or new build, in education, healthcare or the residential sector, we are always happy to offer advice or practical help.

Our specification team covers the whole of the UK. With considerable expertise in the commercial sector and a detailed understanding of the construction industry, market and trends, the team is a valuable resource and a great source of support.

Specification Made Easy

Our Specification Managers will provide advice and support throughout all stages of your project from specification and tender proposal, right through to site installation and completion.

When it comes to fabrication and installation, we have a network of experienced, approved commercial contractors. Epwin Window Systems Approved contractors are located throughout the UK, can be selected based on your specific requirements and have a thorough understanding of the nature and demands of commercial work.

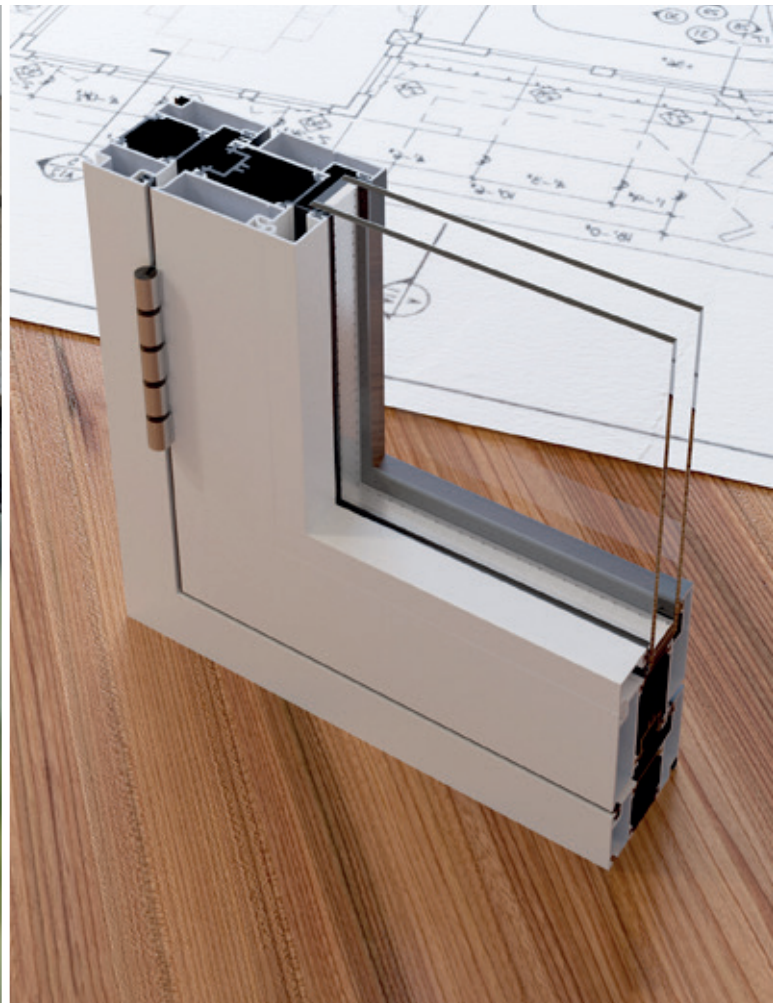

Specification Service

Our specification support covers:

- ✔ No-obligation consultation and site visits
- ✔ Site surveys to ensure appropriate design
- ✔ Advice on specifications and current Building Regulations
- ✔ Providing specifications with section drawings of our system for tender documents
- ✔ Supply of sample windows for planning approval
- ✔ Forward planning and budgeting advice
- ✔ Design service
- ✔ Residents' meetings.

Epwin Window Systems

Technical Support

Our Technical team includes some of the fenestration industry's most respected experts.

As well as cutting-edge innovation, the team delivers the crucial attention to detail required for a successful project. What's more, with our own in-house testing facility, we can easily verify all the details of structural, weathering and thermal performance.

We can help with:

- ✔ Design
- ✔ Window Energy Ratings and U-values
- ✔ Wind Loading Calculations
- ✔ Load Bearing Calculations
- ✔ Section details for Specifications.

Easy Access to Information

All our products are listed in RIBA NBS Plus.

You'll find complete listings at www.ribaproductselector.com

We also have a large selection of BIM Objects on Bimstore.

Epwin Window Systems **Approved**

In the commercial sector, finding the right contractor with the required experience can prove difficult. That's why we developed the Epwin Window Systems Approved network.

The network pulls everything together, giving you the reassurance of working with quality products, unrivalled support and experienced contractors you can trust.

We select Epwin Window Systems Approved contractors with great care. Training is tailored to the commercial sector's needs.

Each Approved Contractor:

- ✔ Holds minimum standards such as Fensa, CHAS and Constructionline
- ✔ Manufactures all Epwin Window Systems products to a high standard
- ✔ Uses only Epwin Window Systems approved and accredited components
- ✔ Commits to reducing waste and recycling
- ✔ Attends a programme of training
- ✔ Demonstrates a thorough knowledge of site practices
- ✔ Works effectively with other trades.

Our scheme is monitored to ensure high standards are maintained. Training is ongoing and includes specialist courses for surveyors and installers.

Epwin Window Systems

The Effective Commercial Partnership

Once you have selected the Epwin Window System Approved contractor for your project, we will work alongside them. We also liaise with other parties such as residents, planning officials and architects attending any meetings to offer advice on the specified products, styles and hardware.

A successful project is one where all stakeholders have complete buy-in, and that's how we achieve great results.
