**HOME STEAM SOLUTIONS 2023**

Steam Showers, Generators and Accessories

## ■ Sauna360 An introduction

We are Sauna360 Ltd, the UK company in the global Sauna 360 Group, and are proud to offer world renowned Amerrec steam generators from our US factory. Amerrec steam products have been manufactured in the USA since 1963 and here in the UK, we have supplied thousands of these generators for home and commercial installations over the last 25 years.

Amerrec has become the leader in creating top-quality, functional and luxurious products for both home and commercial application. As the first in the industry to feature computer-controlled element switching, wireless controls and touch screen functionality, Amerrec keeps innovation at the forefront. These professional generators have been tried and tested in both home and public environments for over 60 years and are the go-to choice for the UK market, with an industry leading 5 year warranty for domestic use\*.

## ■ The joy of steam at home

Steam at home is truly the ultimate luxury - an oasis of calm and a complete release from the stresses of hectic daily life.

Whether you choose a quick 10 minutes or so in advance of the morning shower to set you up for the day or a longer period of contemplation in the evening to promote a great night's sleep, your investment in steam will pay you back many fold - and with our specially selected 'extras' you can personalise your steam room to include specialist lighting, sounds and fragrance to enhance and vary the effect according to your mood.

There are a few simple rules to creating a reliable, trouble free and effective Turkish Bath at home and with our long and varied experience we are best placed to assist you. On our website you will find all the advice you need - components required, selected options and the dos and don'ts to be sure of a trouble free life. Find more at [www.sauna360uk.com](http://www.sauna360uk.com) or if you prefer give our sales team a call on 0800 0234590.

## ■ Case Studies

We have been providing bespoke sauna, steam and infrared solutions to residential and commercial properties across the UK since 1990. Renowned for working with some of the country's top architects and interior designers, Sauna360 has unrivalled experience in developing spectacular wellness suites in homes, gyms, spas, hotels and leisure clubs. Read on for examples of our latest projects:

### ■ Residential

#### New basement Wellness Suite with Bespoke Steam Room

Following the current trend for basement installations, this client had an interesting twist; a large underground area was to be created under the rear garden. Designed to house the client's beautiful motor cars, there was still plenty of room to include an opulent, huge swimming pool and generously sized sauna and steam room with shower between. Both rooms were designed with a U shape, emphasising the great social occasion of heat bathing with clear glass fascias providing a wide view of the pool and client's stunning décor including a feature faux-living wall.

The bespoke steam room was lined in beautiful pearl green mosaics to echo the pool finish.

Yet another angle on how to introduce a wellness feature at home, all beautifully presented and a project in which Sauna360 were proud to play our part!

### ■ Commercial

#### Pennyhill Park Luxury Hotel & Spa

Sauna360 were commissioned to design, produce and install modern thermal rooms within the existing spaces at this world-renowned luxury spa, utilising contemporary materials. Throughout the contract, the Spa was to remain open so all the works were carried out at night!

The offering comprised a stunning Juniper sauna with underbench heaters, a large salt inhalation room with icy mint fragrance, Aroma steam room, Ice cave and an updated male sauna.

## ■ AK Steam Generator

The AK steam generator model is the latest in the Amerrec line following a long tradition of reliable, easy to operate and long-lasting steam products.

## ■ Steam Generator:

Although unseen the steam generator is the heart of a Turkish Steam Bath so it's important to use the best. Amerrec has been producing generators for home and health clubs for more than 30 years - a natural development of our famous sauna heaters originating from the early 1950s. We build without compromise! Should attention ever be required - within the 5-year warranty and beyond - Amerrec engineers and genuine parts are always available to keep your steam room in service.

### • Features & Benefits

- AK Steam generator uses full power to quickly heat your steam shower to the desired temperature and then cuts power by up to 2/3 of its heating elements resulting in a more consistent flow of soft steam and more stable temperature.
- Available in 6 popular sizes - 4.5kW, 6kW, 7.5kW, 9kW, 11kW and 14kW.
- AK steam generators can be ganged together to heat larger spaces.
- Generators up to 11kW can be connected for single or three phase. 14kW is 3 phase only.
- Stainless Steel tank and water level probes provide years of trouble free service.
- Our unique comfort flo steam outlet head, in chrome finish, is included in all packages

## ■ Control Options:

There are 4 control options available to use with the new Amerrec AK Steam generator to suit all preferences. Made in our US factories and built to the highest specification, these new state-of-the-art controls offer the latest in steam room technology.

## ■ K2 Touch Screen Control

Operate your steam bath from anywhere via the dedicated mobile app! K2 has a modern design and is simple to use with its clear display indicating temperature and run time.

K2 can be mounted inside or outside of the steam room for ease of use.

- Touchscreen operation for easy control.
- Surface mounted - inside or outside the steam room.
- Choice of trim ring in six finishes - Polished chrome comes as standard. Or upgrade to Brushed Nickel, Polished Nickel, Oil Rubbed Bronze, Matte Black, or Brushed Bronze.
- Intuitive display (temp/time/lighting/system status).
- 24hr time delay; 60 minute timer.
- Light control (on/off, dimmer and colour selection if purchasing the dedicated AK lighting kit).
- WiFi module; mobile app functionality from anywhere there is WiFi and/or mobile phone service.
- SaunaLogic App for Android or iPhone; and works with Google Home, Alexa and Siri.
- Includes OTA (Over the Air) technology for automatic software updates to mobile device.

## K2 ALLOWS YOU TO CONTROL ALL STEAM FUNCTIONALITY FROM THE SAUNALOGIC MOBILE APP!

The SaunaLogic app allows you to control all function and programming of your steam room from wherever they are, requiring only WiFi connection or phone service (3G/4G). Within the app you can adjust temperature, choose light colour, set a delay time up to 24-hours, use the 60-minute timer and at a glance see the current status of your steam bath. Available for smart phones and tablets - Apple or Android and works with Google Home, Alexa and Siri.

■ K3 Touch Control Panel

A neat and compact black, glass faced control with 3 buttons, allowing simple intuitive setting of important functions - on/off, run time setting and temperature. The generator can be set on installation to provide either maximum 60 minutes (recommended) or 24 hour run time. Using the supplied thermostat sensor, K3 can be mounted inside or outside the steam room.

■ Comfort Flo Outlet

All AK steam generator models are supplied as standard with a chrome Comfort Flo steam outlet head. Sited at low level in your steam shower, this is designed to give an even spread of steam throughout the room and has a small recess on top to use fragrance for aromatherapy.

Optional upgrade available to change the finish of your outlet head. See below.

■ KT3 Control

If the control will be fitted within the steam room, KT3 offers the best solution for simple operation and fitting. With all the same features as K3, this model has a built in the temperature sensor so there is no need to fit a separate unit. Should you want to activate the steam, remotely, from outside the room, you can add K4 control detailed below

**Please note KT3 will only work when installed inside the steam room - for other locations, choose K2 or K3**

■ K4 ON/OFF Non-Thermostatic Control

K4, included with the entry level 4.5kW generator, is for those who like simplicity - a neat black glass faced control with single button allowing the bather to turn on and off at will. You can also specify K4 as an extra with higher rated generators to provide a handy remote on/off function for K3 or K2 mounted within the steam room.

■ Plating options for Comfort Flo Outlet Head and Back Trim

All controls are designed for surface mounting. K2 control includes a Chrome Back Trim to match the standard Chrome Comfort Flo Outlet. There are five alternative finishes available as optional extra; Polished Nickel, Brushed Nickel, Oil Rubbed Bronze, Brushed Bronze and Matte Black.

*Note: Back trim is not available for K3, KT3 or K4 control.*

K2 control back upgrade trim choices

K2 control with standard chrome trim

Polished Chrome Polished Nickel Brushed Nickel Brushed Bronze Oil Rubbed Bronze Matte Black

■ Autodrain option

AK generator should give years of service with minimal maintenance. It is however important that the steam tank is drained periodically (monthly) to flush the tank and clear any scale. A manual drain valve (lever tap) is included in the standard package. If the location for the generator would make access difficult for draining, an optional autodrain system should be specified. Always add the autodrain option if the generator will be connected via a water softener

## AK Lighting System

Chromotherapy - colour lighting - is becoming popular to create different atmospheres during steam bathing, particularly in conjunction with aromatherapy. The dedicated AK light system is controlled exclusively by K2 control. Two LED downlights with brushed steel bezels can be set as standard white room lights or bathe the room in any of six colours with a setting for sequential colour change, every minute. There is a four-stage dimmer and extra button to control other functions - extra lights, external fan etc. There is an option to add up to 6 more lights for larger steam rooms. The lighting can also be controlled remotely on your Smart Phone via the Amerrec Saunalogic app.

## Colours

## Price List

	kW	Room Size m <sup>3</sup> - max*	 With K4 AK** K4	 With K3 AK** K3	 With K2 AK** K2
AK 4	4.5 1/3 phase	5	£3,295	£3,705	£3,805
AK 6	6 1/3 phase	7	Option See Below	£3,795	£3,895
AK 7	7.5 1/3 phase	9	Option See Below	£3,835	£3,935
AK 9	9 1/3 phase	11	Option See Below	£3,890	£3,990
AK 11	11 1/3 phase	14	Option See Below	£3,940	£4,040

## ■ Enhancing your steam experience

### ■ Fibre Optic Mood Lighting

Mood lighting can dramatically influence the effect of steam on the senses from invigorating to ultimate relaxation. For reliability and longevity in the testing Turkish bath environment, Fibre optic lighting is favourable with a single high power light box remote from the humid area. Of course we only offer the best - 100 top quality glass tails with brass sleeve and solid lens - neatly concealed in roof grout or using discrete sleeved lenses supplied.

Offered with Shimmering White output for balmy night sky effect or colour changing to vary the mood in conjunction with different aromas.

Order Code	Description	Price
OS 100 LED CC	Night sky fibre optic lighting system 100 tail - Colour Changing	£1,990
OS 100 LED SW	Night sky fibre optic lighting system 100 tail - Shimmering White	£1,990

All prices include VAT

### ■ MP3 Radio

Enjoy your favourite sounds in the steam room! This MP3 Radio driver with fan cooling can be hidden in a vanity unit or cupboard and provide music from several sources: MP3, FM radio (subject to signal), wired auxiliary, or apps on your smartphone via the built in Bluetooth. Control is provided by a discrete touch panel protected to IP66, safe for use in steam or shower environment. With outputs for up to four 35watt speakers, the driver is easily paired with our steam proof units below.

Order code	Description	Price
SA MP3RAD BL	MP3 FM Radio. Bluetooth with IP66 Control	£745

All prices include VAT

### ■ Steamproof Speakers

Experience good quality stereo sound with these 40 watt RMS paired speakers. With a compact 165mm diameter, these units can be neatly sited in the tiled wall, fully protected against the humid environment to IP 35 rating. Simply wire back to a suitable hifi system or our MP3 Radio driver above. Available in White or Black finish.

Order code	Description	Price per Pair
SPS/2WAY	Steam proof speakers. 35W, 8 ohm speakers.	£85

All prices include VAT

## ■ Aroma Systems & Essences

The use of fragrance is another way to vary the effect of steam on the senses from calm reflection to stimulation. Try Amerec's gift box set of 5 popular essences – a few drops on the outlet transform the steam bath!

For the ultimate in luxury and sophistication, the auto essence doser keeps the steam room charged with your favourite scent to the intensity chosen. Nothing to set or control, just sit back and enjoy!

Essence Dosing System

A selection of 30ml essences

Order Code	Description	Price
AROMA 5	A selection box of 30ml essences in different fragrances to drop on the steam outlet head.	£59.50
STESS SYSTEM	Automatic essence dosing system for steam, complete with 3 x 1l seasonal essence starter pack	£1,710

All prices include VAT

## ■ Steam Seating

In smaller steam showers, where space is too restricted for purpose built seating, Amerec's fold up seats are a great alternative – simply fold to the wall to allow room for showering after steam. Available in elegant, warm teak wood or more compact white plastic for the smallest rooms.

Order code	Description	Price
RELAX WOOD	Wood fold-away shower seat	£439

Order Code	Description	Price
RELAX SEAT	White fold-away Relax seat	£173

All prices include VAT

## ■ Steam Roof Solutions

To maintain humidity and heat where you want it, you need to keep the steam circulating and avoid annoying drips. We offer roof solutions to suit the size and style of your room. If you prefer to create a fully tiled room you can find advice on our website [www.sauna360uk.com](http://www.sauna360uk.com) or call our sales team on 0800 0234590 to discuss.

## ■ Steam Domes

These clear acrylic domes provide a useful 'lid' to the normal framed shower enclosure. Designed to sit on top of the frame or tiled wall, easily removed for cleaning, the centre bubble deflects condensation and perimeter flange can be trimmed to size. Made to order, if you give precise dimensions, the factory will trim to these for you at no additional cost.

Order code	Max size (mm)	Min size (mm) (trimmed)	Clear	Opaque
D9	900x900	760x760	£339	£439
D12/9	1200x900	1060x760	£438	£550
D16/8	1600x800	1460x660	£520	£652
D18/9	1800x900	1660x760	£668	£807
D12	1200x800	1060x660	£399	£501
DN9	Penta/Neo Angle – 900x900mm		£339	£439
DQ	Quadrant – 900x900mm		£337	£435
DEQ12	Extended Quadrant – 1200x900mm (L/R)		£436	£549

All prices include VAT
