Simply Shopfitting
Glass Fitting Supplies

This is Bohle

The Bohle Group is Europe's leading manufacturer and supplier of tools, machines and accessories for glass processing and finishing. The family business, founded in 1923, is now represented by over 300 employees at numerous locations in Germany and around the World. The Bohle product range is divided into divisions such as Handling, Glass Cutting (manual and automatic), Glass Bonding, Glazing, Tools, Machinery, Fittings and Surface Technology. The total product range is precisely tailored to the respective customer groups from trade, industry and retail.

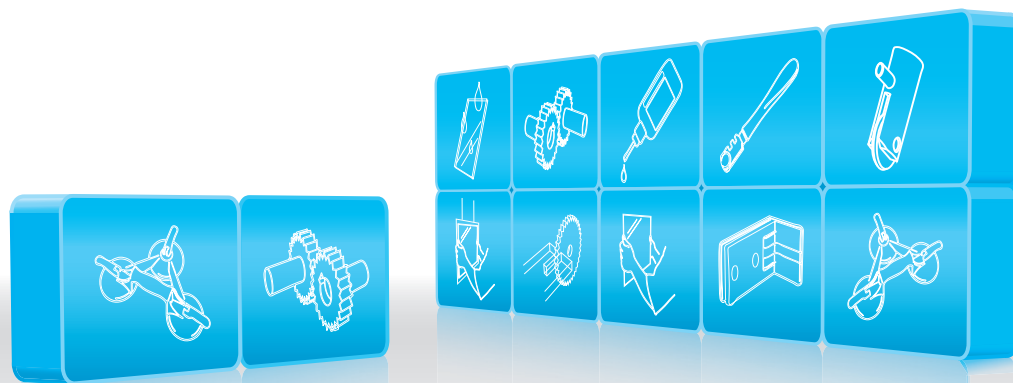

Quality is the leading principle at Bohle – in every area.
To live up to this standard, the company develops and manufactures many products itself.
A modern logistics centre quickly dispatches the ordered goods to the customer.

Our focus is on glass - But that's not all

Glass has been the focus of Bohle's activities since the founding of the company. But many of their products also find applications in other sectors. For example, products from the vacuum technology sector are also used in stoneworking, automobile manufacturing as well as other industrial enterprises - as standard products or as customized solutions.

The Bohle modular principle

If you work with glass, Bohle is the right partner for you. The full product range offers everything that glass professionals need in their daily work, all from a single source. Over 8000 products reflect the entire scope of glass processing but providing top quality products is not our only strength. With 90 years of experience, Bohle has become an expert problem solver and innovative creative force that goes beyond the product itself. No matter what challenges you are faced with - the Bohle modular system offers you solutions that can advance your business.

Simply Shopfitting

In this brochure Bohle presents a simple overview to our extensive range of products for the shopfitting sector. We hope you find this brief introduction to our shopfitting portfolio useful.

To find out more and to see our comprehensive range of products please contact our friendly and knowledgeable Customer Services staff, who are more than happy to help you with your enquiries by telephone on 0800 616151 or visit our website www.bohle-group.com.

Balustrade Systems

Bohle offers not only complete balustrade systems but also a wide selection of clamps for tempered and laminated safety glass. All products are type-inspected and have usually been granted the corresponding ABZ, ABP, ETA and ETB certifications. Customised solutions for your individual project are available upon request.

Posiglaze

Posiglaze is an innovative aluminium channel system that holds glass panels in place for use on balustrades and partitions.

- Quick and easy to install
- Fully adjustable
- Lightweight and extremely strong
- Suitable for domestic and commercial applications
- Fully anodised in a stainless steel effect

Point Fixings

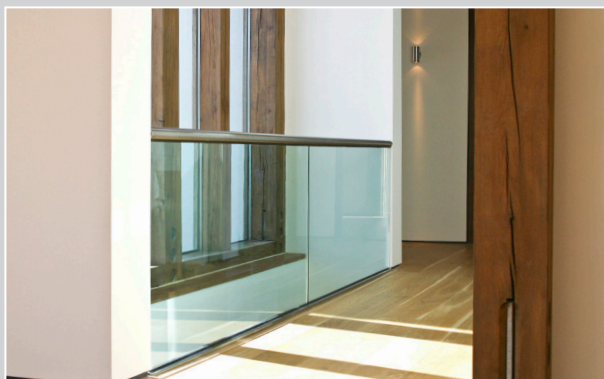

- Point fixings for vertical glass panels
- Easy installation and fixing
- Adjustment of distance is possible after the glass has been mounted
- Sturdy design in accordance with EN 1991-1-1 norms
- High precision and finishing quality

Clamps

- For balconies and balustrades
- For toughened and laminated glass.
- Premium and Standard ranges available with prices to suit every pocket.
- Wide variety of colours and finishes.

Furniture Fittings

Our "Hardware for Furniture" range includes both fittings requiring glass to be drilled and others not requiring pre-drilled holes. This product division also provides you with the complete range of accessories for constructing glass/glass or glass/wood furniture.

Cabinet Hinges

The diversity of our range reflects the great variety of different applications. Hinges for inset, overlay or semi-overlay doors in different models and designs, requiring drill holes in the glass or without pre-drilled holes or cut-outs.

Locks

When selecting glass door locks, security as well as design is an important criteria. Bohle supplies high quality locks in different designs for pre-drilled and undrilled glass, to suit all applications and budgets.

Point Fixings and Standoffs

Nameplates or guidance systems are found everywhere in our daily lives. Bohle offers a selection of sophisticated, high-quality stainless steel holders for nameplates and guidances systems made of glass, especially suitable for contemporary interiors.

UV Bonding

Bohle offers you everything you need for perfect bonding. The advantages to your business are clear: almost unlimited design possibilities, for example in the construction of glass furniture, by invisible bonds and extraordinarily high bonding strength, very short processing and low investment requirements for equipment.

UV Adhesives

Bohle offers a broad spectrum of UV-curing adhesives suitable for durably bonding many different materials like glass, glass to metal or glass to stone. With suitable pre-treatment methods, UV-curing adhesives can even be used in unfavourable conditions like bathrooms or similar humid rooms.

Fittings for Glass Bonding

Because of its transparency and brilliance, glass has always been used in furniture construction. Bohle offers a comprehensive range of fittings developed especially for glass bonding in the furniture industry, including hinges, glass shelf supports, doorknobs, castor rollers, turntable fixtures, table legs and much more.

Free Training

What considerations are important when constructing top quality glass objects? What mistakes can happen and how can they be avoided?

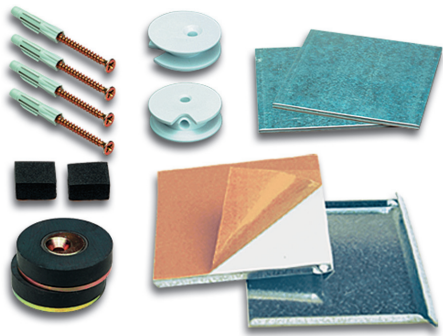

Whether a true beginner or a professional UV Bonder, our experienced staff can help you answer these and many more questions.

With training tailored to your individual needs, why not take advantage of our free training opportunities?

Mirror Fixings

The Mirror Fixings product portfolio has been compiled together with selected quality manufacturers and complemented with a series of innovative in-house products. Customised options for your individual project are available upon request.

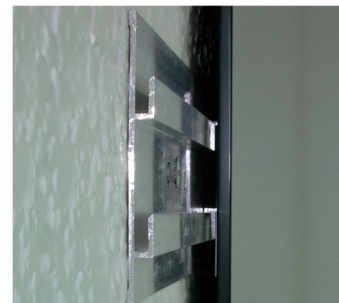

SafecliX-SafemaX-Safefix

- For vertical mounting of mirrors per DIN EN 1036
- After mounting they are hidden from sight behind the mirror
- Height and laterally adjustable
- Mirrors can be demounted at any time

Mirror Profiles

Cost effective but attractive solutions for fixing mirrors and mirrored walls. Safe and easy to install.

- J-Bar, H-Bar, and L-Profiles
- Concealed Mirror Rails

Mirror Adhesives & Accessories

A wide range of mirror mounting options are available within our range.

- Xtragrip Mirror Adhesive
- Xtracryl and Xtramount Mirror Adhesive Tape
- Mirror Clips and Mirror Screws

Convex Mirrors

All Bohle acrylic mirrors are made of premium quality, impact resistant, high performance acrylic. They are divided into the ranges Safety, Traffic and Security Surveillance.

Safety Mirrors

For use in warehouses hospitals, factories, car parks or any areas where the risk of collision is high. Can significantly reduce human injury and stock damage.

Traffic Mirrors

Extends the drivers view to enhance safety on roads. Extra durable for varied weather conditions

Security Surveillance

Deter retail theft BEFORE it occurs! Cost effective and powerful deterrent to retail theft. Eliminates blind spots to allow staff or store security to constantly and inconspicuously monitor customers.
