

PLANTERS & TREE PROTECTION

bailey
streetscene

We are far from just a street furniture supplier

As designers, manufacturers and installers of street furniture, canopies and shelters, we pride ourselves on being the go-to experts that can offer you more.

We are determined to ensure that your outdoor space is vibrant, practical, aesthetically pleasing and functional, whilst offering you cost-effective solutions to your outdoor space planning.

As a company, we like to change the way people interact with the outdoor space, and how they view the landscape too.

We are determined to help organisations create outdoor environments that people enjoy walking through, interacting with or simply using it as a stopping and gathering point.

Our resources, flexibility and expertise often enables us to deliver more performance than your budget specifies and we will always go that extra mile for our clients when it comes to providing excellent customer service.

We are proud to have had over three decades of experience and expertise in our sector, allowing us to assist your organisation in choosing the right products for your individual scheme.

We are Bailey Streetscene

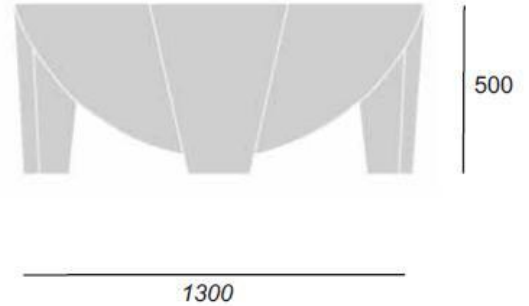

Sputnik Planter

If you want your outdoor space to feature a visually stunning, hard-wearing planter then the Sputnik Planter will tick all your boxes. Ask yourself: would its stylish appearance lend itself to your outdoor space?

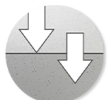

This planter is manufactured from ductile cast iron with a primed coat and a grey forge top coat leaving a wrought iron effect. So, not only does the Sputnik Planter look fantastic with its timeless and distinctive rugged appearance, this is a tough, durable planter too, making it an excellent choice for any environment.

Llauna Planter

The new Llauna Planter is mounted on a raised plinth and is manufactured from corten steel with its timeless and distinctive rugged appearance coupled with its hard-wearing characteristic. This makes it a really excellent choice for any outdoor environment. Mounted on a raised plinth.

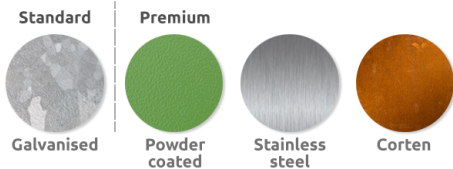

Not only do planters enhance the growth of young plants, they also enhance and beautify the community too. The aim of the planter is to add a vibrant touch to an otherwise dull or unsightly area. Why not plant evergreen shrubs to provide colour all year round in any urban surroundings? Or possibly use seasonal plants which ring the changes with each season? Either way, these are a superb way of making your outdoor space so much more attractive.

Fixtures

This product can be customised with a range of optional fixtures. If you have any further bespoke requirements **get in touch**, our sales team will be happy to help.

Drawbell GRP Planter

The Drawbell Planter is an elegant shaped planter which equally suits a traditional or contemporary garden. Perfect to enhance an entrance on its own or as a pair and large enough to work as a feature pot in a small garden.

This planter looks stunning in granite effects, perfect for that modern, country look. Small enough for seasonal planting yet large enough for a small shrub.

Also available in any RAL colour matt, satin or gloss finishes.

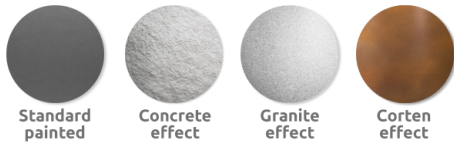

L: 700mm x D: 700mm x H: 600mm

Aris

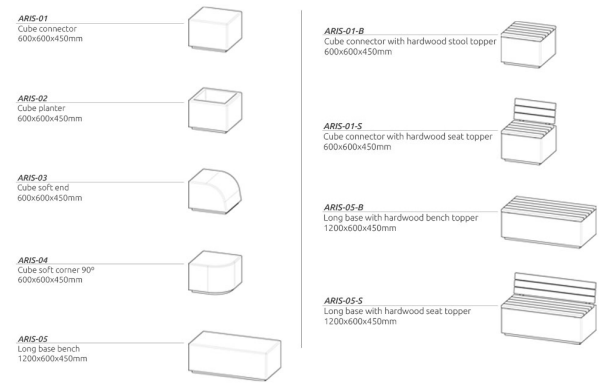

The Aris Modular Concrete collection is an exclusive range of unified concrete seating & planter elements that merge to form an infinite array of possibilities within urban furniture composition and arrangement.

The Modular shapes, in an array of size options, form the basis of this low maintenance and resilient alternative to traditional street furniture. Their weight and mass also allow their placement to be considered in terms of building & pedestrian protection.

A broad palette of colours and material finishes for the main concrete substrate add an additional layer of customisation, providing the ability to expertly match and complement the distinct context of each unique project setting.

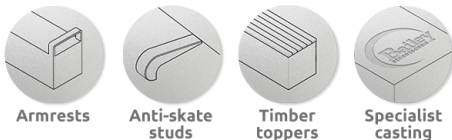

Finally, a selection of timbers, fixtures and other accessories culminate in ensuring the Aris range offers landscape designers a flexible and expressive toolkit to reshape and re-purpose urban space for a variety of practical everyday uses.

The perfect blend of creative freedom and solid everyday function...

Inspira Linear

Inspira is a flexible, modular retaining wall system, perfect for creating raised planting schemes in any location. The ease of installation makes Inspira a quick and cost-effective addition to street, courtyard and roof terrace developments. Inspira is available in a wide variety of materials, finishes and sizes to meet the requirements of any site.

Inspira Linear is a collection of straight walls and angled corners, designed for geometrically-shaped installations (squares, rectangles, parallelograms, triangles etc.) Linear can also function as a low-cost alternative to complex curved schemes, using its variety of angled connectors to match design intent.

Manufactured to suit customer requirements

INSPIRA COMPONENTS

Linear

		Lengths (mm)	Heights (mm)	Angles (°)

Inspira Form

Inspira is a flexible, modular retaining wall system, perfect for creating raised planting schemes in any location.

The ease of installation makes Inspira a quick and cost-effective addition to street, courtyard and roof terrace developments.

Inspira is available in a wide variety of materials, finishes and sizes to meet the requirements of any site.

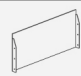

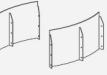

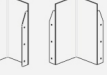

Inspira Form includes all the rectilinear components of Linear with the addition of curved wall and corner sections, allowing more organically shaped installations (circles, lozenges, waves etc.)

Components of Form have a thicker wall to allow its slim profile and minimal visual impact at the top edge.

Manufactured to suit customer requirements

Protective Barrier

The Protective Barrier is a decorative and modern bow-shaped barrier ideal for the protection of street and park furniture, shop fronts, trees (as a pair) or notice boards. So, it's a really popular all-rounder of a street furniture product and can be seen in any number of outdoor spaces, such as the car park you see in this photograph.

Protection bar manufactured from steel tube (60mm diameter) fitted with welded steel end caps on two slightly curved feet, the Protective Barrier is galvanised finish or galvanised and painted in one of our RAL colours.

This barrier is to be concreted directly into the ground. Optional base plates, or ground sockets available.

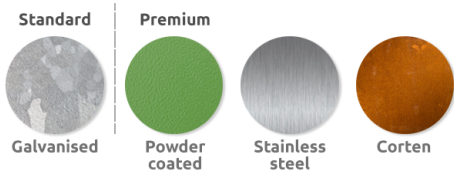

L : 1240mm x D : 365mm x H : 800mm x Dia: 60mm

Economy Steel Tree Guards

Giving superb value-for-money protection for your trees, the Economy Steel Tree Guards are root fixed tree guards with bow shaped top. Flexibility comes from these guards being available in two diameters - 250mm diameter (one piece) or 450mm diameter (2 piece).

These tree guards are galvanised finish as standard or galvanised and painted in one of our RAL colours, making these an excellent budget tree protection option for your outside space.

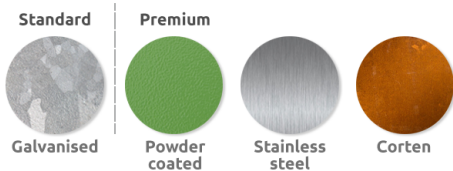

Dia: 250mm / 450mm x H: 1500mm / 1800mm
