

SHELTERS

We are far from just a street furniture supplier

As designers, manufacturers and installers of street furniture, canopies and shelters, we pride ourselves on being the go-to experts that can offer you more.

We are determined to ensure that your outdoor space is vibrant, practical, aesthetically pleasing and functional, whilst offering you cost-effective solutions to your outdoor space planning.

As a company, we like to change the way people interact with the outdoor space, and how they view the landscape too.

We are determined to help organisations create outdoor environments that people enjoy walking through, interacting with or simply using it as a stopping and gathering point.

Our resources, flexibility and expertise often enables us to deliver more performance than your budget specifies and we will always go that extra mile for our clients when it comes to providing excellent customer service.

We are proud to have had over three decades of experience and expertise in our sector, allowing us to assist your organisation in choosing the right products for your individual scheme.

We are Bailey Streetscene

Budget Aluminium Cycle Shelter

If you're looking for a great, economical cycle shelter then this Budget Aluminium product from Bailey Streetscene is one of the most value-for-money cycle storage products available. With a frame structure made from anodised aluminium, with 50mm tubular uprights, and assembly with cast aluminium connectors, locked in place with self-tapping screws - this is an excellent choice for those wanting practicality on a budget.

It features translucent anti UV polycarbonate cladding to roof, rear and side panels, and matching extension units are available to increase capacity to 10, 15, 20 cycle racks. Installation assembly is quick and easy by one person. Roof and cladding sections are to be attached to the supporting structure through clips and rails.

Delivered pre-assembled in suitable packing. Self-stabilised structure. Ground anchoring not supplied.

L: 2460mm x D: 1976mm x H: 2150mm

Moon Cycle Shelter

Cool and contemporary, the Moon Cycle Shelter is a popular choice for a variety of outdoor spaces. Supporting members and crossbeams are made from tubular steel assembled with nuts, bolts caps and washers, whilst the aluminium profile cross members and rainwater gutter gives it a slightly futuristic feel.

The canopy is made of 6mm translucent cellular polycarbonate with UV protection, whilst the side claddings made from 10mm white expanded PVC, supplied in pairs. The bicycle stands colour is identical to the shelter, is included, and the steel tube (22mm x 1.2mm) is attached to crossbeam by stainless steel screws to give room to 6 bicycles.

Available in RAL colours. Assembly instructions supplied. Installed on base plates, expansion plugs supplied.

Benfield Cycle Shelter

The Benfield Cycle Shelter is one of our most versatile shelters due to the fact that we manufacture this to your specific requirements. Suitable for a wide variety of applications such as cycle and motorcycle parking, and waiting and smoking areas, the Benfield Cycle Shelter has a steel frame that is hot dipped galvanised as standard and can be powder coated in a wide range of colours.

Clad in 5mm 10 Year UV PETG clear view sheeting, like all our shelters the Benfield can be manufactured to be BREEAM compliant making it a flexible option when looking at cycle shelters for your outdoor space.

Bespoke Deacon Bin Store

The Bespoke Deacon Bin Store from Bailey Streetscene is one of our best sellers due to its versatility. This is a quality shelter that can be made to accommodate any number of bins, including wheelie Bins.

The timber cladding is available in hardwood or softwood, giving you a choice of materials. The shelter comes complete with aluminium flashings to all sides and can also incorporate guttering to the rear. The shelter can also be powder coated to any standard RAL colour to suit your requirements.

If you want even more versatility and flexibility, the Deacon can also accommodate various front claddings eg. open fronted, mesh clad, timber clad or gated, can also have Bin Barriers installed which help protect the timber panelling from any potential damage caused by the wheelie bins colliding on the inside. The Deacon really is the perfect shelter for waste storage in schools, hospitals, and public spaces.

Classic Smoking Shelter

It's called the Classic Smoking Shelter for a reason.....

With a main frame constructed from 80 mm box section galvanised steel with a powder coat finish, this is your quintessential smoking shelter and very popular ideal for organisations of all sizes - from offices to pubs and restaurants. The roof frame comprises of two aluminium crossbeams (40mm x 60mm) and two aluminium profile rainwater gutters. Curved aluminium profile bows.

The canopy is made of translucent cellular impact and fire-resistant polycarbonate, thickness 6mm, with UV protection and is inserted in the two gutters and between the bows. The side and back cladding is shatter-resistant toughened safety glass with a thickness of 8mm, with a safety signage etched into the glass.

Fixed by cast aluminium clamping device for easy replacement of the safety glass panels in the event of vandalism, this suits many outdoor environments and is the perfect solution to prevent smoking at entrances or undesirable locations.

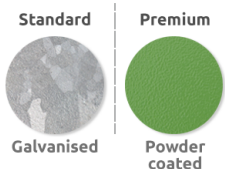

Various seating options available. Assembly and installation instruction supplied.

Dudley Smoking Shelter

If you're on the look-out for an aesthetically pleasing smoking shelter with a classic design, the Dudley Smoking Shelter is a great option. Especially as it can be manufactured to suit your specific requirements.

The steel frame is galvanised and can be powder coated in a range of RAL colours. Cladding is 4mm PET clear view as standard. Roof end sections are perforated steel to allow greater air flow, and an extension unit available. Optional seating and cigarette bins are available, too. This shelter offer smokers protection from the wind and rain whilst at the same time complementing the landscape surrounding any building.

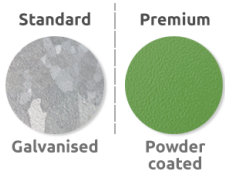

All our Shelters can be manufactured to be BREEAM compliant.

School Shelters

Bailey Streetscene have a number of quality playground designers meaning that bespoke in-house capacity playground shelters and canopies can be tailor made to provide your school with the perfect outdoor shelter solution.

Children are kept safe, dry and protected from the sun due to the roofing panels which filter out harmful UV sunlight, protecting them all year long. All our shelters and canopies are designed to allow full visibility, avoiding unwanted potential hiding places.

Outdoor classrooms for play and curriculum work can be designed with the provision of roller shutter doors and panels fitted to basic canopies providing the ultimate flexibility of a warm and pleasant classroom protected against inclement weather and a fresh air environment when the weather allows during school time. After-school time with the shutters closed and locked, the area becomes part of a secure establishment.

Shelters offer affordable protection from the elements not only for outdoor learning but also for parents collecting their children from school too. Most playground shelters include seating but this is optional.

Newborough Two Tier System

Where space really is a premium and you need a cycle rack to accommodate a higher number of bikes into a limited space without compromising on security and safety - then you need the Newborough Two Tier System.

It's an extremely cost-effective system, especially popular within high density population areas such as inner city apartment blocks, offices and stations, and can be used to help demonstrate compliance with BREEAM, too.

Manufactured from mild steel and the hot dipped galvanised as standard, the racks are designed for a long tough life of heavy use, with minimum maintenance required; and with a unique patented safety feature it ensures the racks are safe, secure and easy to use.
