Company Introduction Brochure

# introduction

## Argent Alu: THE reference for opening doors

Founded in 1909, Argenta Alu nv– more commonly known by the brand name *argenta*® – has been developing and producing hinges for interior doors for over 100 years.

Argent Alu can offer you a wide range of door hardware thanks to a persistent vertical integration. Besides its own development division and test laboratory Argent Alu also manages other processes in-house such as: mold manufacturing, plastic injection molding, production, aluminium processing, anodization, powder coating and assembly. Our local sales teams assist our distributors where possible and follow market developments closely.

## Innovation as the key to success

Thanks to the unique and innovative design the invisible neo range (page 4) was awarded the coveted red dot design award for high design quality.

At the largest construction fair in Belgium 'Batibouw 2013', the new integrated guide profile for dropped ceilings was selected for the "innovation parcours"

Argent Alu nv was chosen as VOKA regional ambassador of the Flemish Ardennes on the 9 of June 2011. With this award, Deloitte Fiduciaire and VOKA East-Flanders want to reward good entrepreneurship and focus on companies with an exemplary role.

This edition mainly focused on the nominees' orientation towards innovation. Argent Alu nv received this prestigious award, thanks to a policy of continuous innovation.

# argenta® invisidoor

Thanks to an invisible and plasterable, aluminium interior door frame, Argent Alu has managed to get back to the essence of an aesthetic living environment. Thanks to the *Invisidoor*®, the door is lined up perfectly with the wall allowing architects to play with space and volume.

Aesthetics are fundamental for any home, therefore the *argenta*® *Invisible* always comes with the *argenta*® *Invisidoor*® in order to ensure an invisible integration of doors into the walls of your home.

# argenta<sup>®</sup> invisible

As a specialist in hinges, Argent Alu offers you a wide range of invisible and 3 dimensionally adjustable hinges: the *argenta<sup>®</sup> Invisible*.

The *argenta<sup>®</sup> invisible* is also reversible to the left and right.

There is always a suitable hinge, no matter how the door opens.

All *argenta<sup>®</sup> invisible* hinges are completely carried in a plastic bearing and have an opening angle of 180°.

The top range, *argenta<sup>®</sup> invisible neo*, offers an impeccable, pure and aesthetic finish (no visible screws) in combination with a smarter, faster and simpler way of installation called 'easy-hook<sup>®</sup>'.

The *argenta<sup>®</sup> invisible* hinges are protected by various patents.

winner 2013

# argenta® hinges

For more than a century now, Argent Alu offers you a wide range of top quality hinges. Thanks to its innovative, durable and reliable products, Argent Alu is not only market leader in Belgium but also THE reference for opening doors. Today's architectural challenges ask for individual solutions, that's why Argent Alu offers all kinds of hinges in various types, finishes and materials under the brand name *argenta*®. A perfect solution can therefore be offered for every architectural style (both modern and classical).

Remarkable novelties and optimizations are for example: stainless steel hinges with a patented, clamped wearing ring, colored aluminium and stainless steel hinges, the self-closing spring hinge *argenta*® close,... .

*Argenta*® opens all types of interior doors!

# argenta® slide

Argent Alu introduces the innovative and easy-to-use interior sliding door system *argenta® slide*. This sliding door system is fast, simple and reliable.

The door panel can be mounted to the rolling system in one single operation by means of the patented Click-Fix system, which drastically reduces the installation time. The door is stopped and fixed in a gradual and controlled way thanks to the patented Soft Stop system. No more colliding and ill-fitting interior sliding doors!

The *argenta® slide* system is available for both wooden and glass doors. Simultaneous and parallel fittings are available.

# door grilles

In collaboration with Renson Ventilation nv - the trendsetter in natural ventilation - Argent Alu nv – the specialist in solutions for doors - presents a wide range of door grilles. This range includes simple aluminium grilles with V-blades '461' that eliminate see-through, special fire-repelling door grilles 'Incendo®' and noise-reducing design grilles 'Silendo®'.

## albo®

Argent Alu also presents the aluminium *albo*® letterboxes. These mailboxes are characterized by their design and exceptional design. Special versions, custom made designs and personalized models are possible. *Albo*® is the leading partner for stylish letterbox systems, made entirely to measure (for both indoor as outdoor use)

# profiles

Argent Alu developed a wide variety of functional and easy-to-handle profiles for use in and around your home. These standard finishing profiles are applicable for both residential and non-residential purposes, for renovations as well as new building. The ample range of practical profiles is characterized by its quality, durability and aesthetic finish.

# door and window fittings

As specialist in accessories for doors, Argenta Alu offers you timeless and reliable solutions of high quality. Argent Alu presents you with a wide range of standard door and window fittings. Besides standard types, we also offer special custom made versions.

# hinge shutter fittings and hinge shutter openers

Argent Alu offers you a nice range of hinge shutter fittings and hinge shutter openers, mainly in a rustic and nostalgic style which characterizes farm houses, cottages and parsonage houses.
