

Casa Julia

Designed by John Finch Partnership in Chelmsford, the new Casa Julia warehouse supplies restaurants and wholesale businesses around the country. Situated in Braintree Essex, customers are available to obtain an extensive variety of drinks from around the world, including 88 foreign brands of beer and over 180 blends of wine.

The 3600sqm premises has incorporated 200sqm of Eurobond's Rockspan panel system in Corus Colorcoat® PVDF Silver metallic. This modern development has taken advantage of Rockspan's fire resistant qualities, afforded through a stone wool non combustible core Architects John Finch Partnership built a boundary wall that can safely act as a secure back wall to the building providing excellent fire performance should the worst occur.

Presented with a smooth external finish, the panel provides a aesthetically pleasing architectural design that blends perfectly with the surrounding environment.
